- Concerns mentioned- Community member Jessica Fuentes expressed her concern about students walking across the street to the school in front of cars. She wanted to know has the school investigated possible solutions to ensure the safety of students getting out of cars and walking across the street to the school. Mr. Solis answered that the school police have been working with HPD, in efforts to try to find a safety solution for everybody. Currently there has not been a remedy for this concern, but there have been discussions about possible solutions.
