

ZONED STUDENTS

If you live in Westside's attendance zone you have a seat at Westside! You do not need to apply through HISD's Office of School Choice for a transfer to attend. All of Westside's career pathways are available for you to choose during your course selection process. *

Rising 9th grade students zoned to Westside High School and currently attending an HISD school do not need to go through the registration/enrollment process. They will automatically be enrolled in Westside High School unless a transfer to another school is accepted.

Students who live within Westside's attendance zone but are **not currently** attending an HISD school will need to complete the registration/enrollment process. Click here for [New Student Registration Information](#).

In the spring of 2021, Westside will host an event where students and parents will have an opportunity to learn about the career pathways offered at Westside, consult with deans and will begin the course selection process.

*If you are interested in a career in health science, Westside has The Futures Academy of Health Science Magnet program. Seats are only offered through HISD's Magnet application and lottery process. Click [here](#) for more information regarding The Futures Academy of Health Science Magnet program and how to apply.

KEY POINTS

- No need to apply for a transfer.
- ALL Career Pathways available to zoned students – no need for a STEAM Magnet application
- **MUST APPLY** for FUTURES Academy of Health Science Magnet program during Phase 1
