HISD | **College & Career Readiness**
ASPIRE. PREPARE. SUCCEED

Introduction to the JA Company Program

May 28th, 2021
9:00am - 10:00am

Audience: 9th-12th Grade High School CTE Teachers

Join **Tania Daniel**, Senior Director of Entrepreneurship Initiatives for Junior Achievement of Southeast Texas, as she provides an overview of the **JA Company Program**, the 100+ year old pioneering **Entrepreneurship and Work Readiness** program implemented all over the world, from Peru to Kenya, United Kingdom to Singapore. It has gained a lot of traction in Houston in recent times and Tania hopes to work closely with Houston ISD to bring this program to our amazing high schools.

The JA Company Program empowers high school students to **create, launch, operate** and **grow** their own startups, and students learn **business, leadership**, and **inter-personal skills** in the process. Students also participate in a host of business competitions with leading organizations, like Rice University, University of Houston, HCC, Microsoft, and Texas A&M, as well as specialized trainings and workshops.

This session will also feature a **panel interview** with three remarkable teen CEOs who have led their startups well, in the midst of a challenging pandemic climate.

Our Junior Achievement Company CEOs are:

Temilola Ogunola - CEO of Diverse Is Not A Curse (Harmony School of innovation - Katy ISD)

Joe Maddux - CEO of Bulldog Apparel (Heights High School, Houston ISD)

Kayla Awadin - CEO of EVO (Elkins High School, Fort Bend ISD)

CTE High School Teachers

Overview

Career and Technical Education participants will view interviews presented by Workforce Solutions. The interviews provide relevant information for CTE students planning for potential careers, thinking about what they want to do, job growth, as well as education and training requirements. These live interviews can help your CTE students have the necessary tools to make informed decisions about both career and educational opportunities.

CAREER & TECHNICAL EDUCATION SYMPOSIUM

JUNE 15, 2021

Embracing the Education Revolution

It's been an unprecedented year in education. CTE teachers have juggled various modes of teaching and learning. Students have struggled with learning CTE concepts remotely. In the meantime, we've had to revolutionize and modernize our practices on the fly. Looking back, we've learned, grown, and become more flexible. Looking forward, the goal of the 2021 Region 4 Career & Technical Education Symposium is to take all the good we've learned during this unconventional year to reach, teach, and prepare more students for post-high school success.

Special opening address by Kirven Tillis, CTE Coordinator at Barbers Hill ISD!

KEYNOTE SPEAKER

Jaime Casap

Jaime Casap served as the education evangelist at Google for more than 14 years and was the second member of Google for Education team. In that time, Casap launched Google's GSuite tools into higher education and K - 12. He also launched Chromebooks into education and was the creator of Google for Education Transformation Framework. Casap is now partnering with school systems around the world, helping them to build transformational practices in their classrooms.

ALSO FEATURING

Dr. Scott Muri

Dr. Scott Muri, superintendent of Ector County School District and former superintendent of Spring Branch ISD, will share the insights he has gleaned about career and technical education during the time of pandemic, from an administrator's perspectives.

Marty G. DeLeon

Marty G. DeLeon, attorney with the law firm of Escamilla & Poneck will speak about the changes in CTE from a legislative viewpoint.

Register Today!

WHEN: June 15, 2021 | 8:30 a.m.-12:30 p.m.
WHERE: Virtual via Zoom
WHO: Campus Administrators, Career and Technical, Central Office Administrators, Counselors K-12, CTE Administrators

SESSION ID: 1597877

CREDIT: 3 CPE

FEE: \$100

#R4CTE

ATTN: HISD Automotive Instructors

Registration is now OPEN for the [2021 Virtual ASE Instructor Training Conference](#) - the ***LARGEST*** Automotive Instructor Training Conference in the nation! Get up to **22.5 hours of technical update training**, connect with industry peers, and much more! The conference will be held Monday, July 26th through Friday, July 30, 2021 with separate training tracks for Auto, Truck, and Collision Repair Instructors. [Reserve your spot today!](#)

Conference Fee (this includes access to all training sessions):

- \$150 for instructors from ASE-accredited programs
- \$225 for instructors from non-accredited programs

You can pay by credit card, purchase order, or check.

Instructions are in the registration form.

Three 90-minute sessions each day will be live-streamed via GoToWebinar. If you register by July 26th and miss a session, you will be able to view a recording through August 31st, 2021. You will receive a certificate of attendance for every session you view (live or recorded). All sessions count toward the Foundation's 20-hour annual update training requirement. Please contact Dr. Stacey Whitmore by email at swhitmo1@houstonisd.org or call (713) 556-8202 directly for questions.

CS Discoveries Workshops & CS Principles Workshops July 26, 2021 - July 30, 2021

Professional Learning Virtual Workshop for Computer Science Middle and High School Teachers

At this time, the [Rice University School Mathematics Project](#) is planning to offer virtual CS Discoveries and CS Principles local summer and in-person academic year workshops in the 2021-2022. Summer 2021 workshops will be in June / July 2021.

The program includes:

- An in-person five-day summer workshop, which will fully prepare educators to utilize [Code.org](#) curricula and teacher support systems.
- Four one-day workshops (or eight virtual sessions) during the school year when teachers will reconvene for ongoing training and just-in-time support.
- Additional opportunities for online and face-to-face networking and collaboration with peers throughout the year.

Funding Opportunities:

Computer Science Discoveries and Principles workshops are offered at no cost to qualifying teachers accepted into the program. If you don't meet the requirements to attend at no cost, the program is still only \$1,500 per Texas teacher, which is a 50% discount off the national cost thanks to our generous supporters at [Code.org](#).

Texas Computer Science courses, including those aligned to CS Discoveries (Fundamentals of CS) and CS Principles, have recently moved to CTE, and qualify for weighted funding. Teachers should check with their administrators to see if these funds are available to support their involvement in this Professional Learning Program. There are also scholarships available for those who qualify. The program fee includes teaching materials, workshop supplies five in-person or virtual (if it is unsafe for in-person) summer workshop days and four in-person or eight virtual follow-up sessions during the academic year. Additional travel costs (i.e., mileage and lodging costs) are not covered by the fee.

[Code.org](#) curriculum, online student learning platform, and access to support from the teacher and [Code.org](#) community are available to all schools' year round at no cost.

If you are interested in CS Fundamentals, please contact us directly (contact info is below) to set up / schedule a workshop.

See Frequently Asked Questions about CS Discoveries [here](#) and CS Principles [here](#).
