Foundations of Teaching for Learning: Learners and Learning

The Foundations of Teaching for Learning programmer is for anyone who is teaching in any subject and any context - be it at school, at home or in the workplace. With dynamic lessons taught by established and respected professionals from across the globe, this eight-course programmer will see you develop and strengthen your skills in teaching, professionalism, assessment, and more. As you carry on through the programmer, you will find yourself strengthening not only your skills, but your connection with colleagues across the globe. A professional development opportunity not to be missed.

Syllabus

- The lives of children
- How children learn
- Engaging with students
- The power of the peer group
- Learning that travels
- Four key thinkers
