

What's Your Future Career?

CTE Month Activity

Pathful Explore is an exploration and planning platform that prepares students for college and/or career. With a combination of interactive tools, assessments, and real-world exploration, students can discover diverse career pathways and chart their individualized path.

(CTE provides this resource to all 6-12th grade students in the district).

Proposal:

Students log in to the Pathful Explore platform from the Digital Resources page in Canvas.

Once on the platform, select *Assessments* from the *Tools* menu.

The Assessments page features four different assessments, which are career interest surveys.

Students should click on the *Career Cluster Interest Survey*.

CAREER CLUSTERS INTEREST SURVEY (CCIS)

This Survey matches a person's interests to career clusters based on the activities they most enjoy.

The students will be presented with instructions, and they can begin the 102-question assessment.

The questions are answered using a smiley face Likert Scale rating.

When finished, students will learn their top-three career clusters based on the answers they provided. They can explore career videos based on their assessment results.

Teachers and administrators can run a report to view the results.
