

COVID-19 Testing Sites

- » Getting tested at Houston Health Department-affiliated sites is **FREE**, and does not require proof of residency, citizenship or insurance. Some testing partners bill insurance. Contact your provider to make sure the testing partner is in network.

Who should get tested

- People who have **symptoms of COVID-19**.
- **Fully vaccinated people** who have close contact with a person with COVID-19 should be tested 5–7 days after their last exposure.
- People who are not fully vaccinated should get tested immediately when they find out they are a close contact. If their test result is negative, they should get tested again 5–7 days after their last exposure or immediately if symptoms develop.

View a Google Map of HHD-affiliated testing sites.

In addition to health-department-affiliated sites, testing is available at doctor offices, clinics, pharmacies, and providers.
