HISD STUDENT CONTINUUM OF CARE

REIMAGINING COMPREHENSIVE SERVICES FOR THE WHOLE STUDENT

HISD departments and campuses are working together differently to better serve our students, creating stronger systems of support across the District.

Step 1
Identify student needs

Step 2
Meet immediate needs

Step 3
Plan to address long-term or unmet needs

Step 4
Continue to follow up and assess student needs

HISD’s continuum of care model reimagines how we serve and support all students. We recognize that every student deserves a best-in-class education, and providing comprehensive support will help them to become active members of the community, better preparing them for 2035 and beyond.
