90
UNIQUE FLO
PROGRAMS

Fantastic Learning Opportunities (FLOs) are external, voluntary, educational programs that take place outside of the traditional classroom, are aligned to the student's unique interests, and have an explicit career, college, or leadership focus.

FLO Experiences

DiscoverU equalizes access to experiential learning for under-served youth by providing a comprehensive program that exposes students to opportunities, assists them with applications and admissions, and provides financial solutions and personalized guidance through the completion of the experience.

At the district level, DiscoverU serves the HISD College, Career, & Military Readiness (CCMR) department with:

- equity-minded program consultation, design, & execution
- fully scaled logistical systems & supports designed to maximize impact around out-of-school learning
- centralized facilitation of the district's out-of-school learning partnership portfolio
- brokered scholarships & seats at high quality programs
- extensive, hands-on front line summer support to students, their families, and campus-based staff

Pre-FLO Experiences

Pre-FLO Experiences include college tours, industry trips, and cultural excursions that expose students to the world outside of the classroom. DiscoverU provides planning, logistical, and administrative support at scale to simplify and streamline the process of connecting HISD students to these real-world experiences.
