TELPAS

Issue #1

What You Need to Know!

Madison HS Marlins

It’s all about showing GROWTH!

The latest updates

When completing the TELPAS assessment, it is important to know what the goal for TELPAS is. There is no such thing as “passing”, you do not “pass with a 70”. The language proficiency levels or scores for TELPAS range from Beginning, Intermediate, Advance, and Advanced High. The goal for TELPAS is to show **GROWTH!**

Meaning, when you take TELPAS one year, and your rating is an Intermediate language proficiency level, the goal for you when you take TELPAS the next year is to at least earn a score of Advance language proficiency level, which is one level higher than the Intermediate. Again, it is all about **GROWTH!**

What is TELPAS?

The latest updates to help you be successful

The Texas English Language Proficiency Assessment System (TELPAS) assesses the English language. All Emergent Bilingual students participate in the TELPAS assessment in grades Kindergarten through grade 12.

Student performance of students is measured by the **TELPAS’** four language domains: **Listening, Speaking, Reading, and Writing**. Each of the language domains (parts) of the assessment are in alignment with the Texas English Language Proficiency Standards (ELPS). Just like the State of Texas Assessments of Academic Readiness (STAAR) assess the Texas Essential Knowledge and Skills (TEKS), the TELPAS assesses the English Language Proficiency Standards (ELPS).

The proficiency rating for each of the domains is converted to a domain score, from 1 (Beginning), 2 (Intermediate), 3 (Advanced) to 4 (Advanced High). Each domain score is multiplied by the weight—0.25—and then summed to obtain the TELPAS composite score.

Now remember, the goal for TELPAS is for students to grow from one proficiency level to the next. It’s all about what? It’s all about **GROWTH!**

Tips for Listening

The latest updates

Madison Marlins

Press the “Play” option to listen to all instructions. Pause the recording and play back if needed to carefully understand what it asks you to do. Listen to understand!

Tips for Reading

The latest updates

Madison Marlins

Reading requires a lot of deep thinking and analyzing. Always take notes as you read, use context clues to determine meaning of unfamiliar words and always go back to the text story.

Tips for Writing

The latest updates

Madison Marlins

The Writing component will now be part of the Reading assessment. When writing, focus on using academic vocabulary and text evidence directly from the passage. Cite text evidence!

Madison Marlins

Tips for Speaking

The latest updates to help you be successful

The Speaking domain part of the TELPAS assessment is made up of questions where you have to orally speak into the microphone headset to record your response.

Questions are based on the two Speaking domain Reporting Categories (RCs). RCs are the following:

Speaking	Reporting Category 1: Provide and summarize information	16
	Reporting Category 2: Share opinions and analyze information	20
	Total	36

So, what are some tips to strengthen your Speaking domain performance? Here are a couple to learn and follow:

1. Read and listen carefully to what you are asked to respond to

2. Re-play (listen again) to the audio to ensure you understand what you are asked to respond to

3. Write down your thoughts and response before you record your voice, response
4. Record your response into the microphone of your headset speaking loud and clear

5. Speak in complete sentences and use as much academic content vocabulary as you can related to the topic

6. Play and listen your recorded response. If you would like to re-record your response, you may do so

7. Keep in mind, if you press to re-record, the computer will automatically begin to record, so be ready to speak as soon as you press the record option

When do you take it?

The TELPAS assessment is completed in the early part of the Spring semester of every school year. Schools are given an assessment window where they can test the students’ language proficiency using the TELPAS assessment.

Please know that the TELPAS assessment is not timed, so take as much time as you need!

After completing the TELPAS assessment, schools receive students’ scores. The LPAC then meets to review students’ language proficiency level to check for growth and discuss placement for the upcoming school year.

Important Updates & Dates

- August 29-September 30: Summit K12 Pre-Test
- October 31-November 11: Summit K12 Interim Test

Summit K12 is a digital tool in Canvas, Digital Resources that helps students increase the English language acquisition.

Madison Marlins

Who takes it?

The latest updates

All Emergent Bilingual (EB) students in all grades K-12 participate in the TELPAS assessment. Emergent Bilingual students are students who are in the process of learning the English language and speak another language, such as Spanish.

EB students are identified during their first school year in a Texas school by the campus’ **Language Proficiency Assessment Committee (LPAC)**.

Let’s get one thing clear, being an Emergent Bilingual is an asset, as you are in the process and journey to being bilingual!

Remember, it’s all about what? It’s all about **GROWTH!**
