## Math, Science & Technology Center

Rupak Gandhi, Principal

May 21, 2015

Sam Houston Math, Science & Technology Center Students and Parents:

I have sad news to report to you. On Wednesday night, three of our current Sam Houston students were involved in a car accident. Today, one of our 11th-grade students – Luis Soliman Arias – passed away from his injuries. Three other students were injured. Thankfully, they are continuing to recover.

As you can imagine, this is a terribly difficult time for our school community. Additional counselors were available today to provide support to students and staff and answer any questions they might have. They will remain on campus Friday and will be available for as long as they are needed.

We encourage you to take this opportunity to speak with your student about this situation. Please contact the school if he or she needs additional help, but is unwilling to ask on his or her own.

Our hearts go out to the friends and family of these students, as well as to our school community. He was a great student who will be missed, and we ask that you keep his family in your thoughts.

Should you have any questions or concerns, please do not hesitate to contact our school office at 713-696-0200.

Sincerely,

Rupak Gandhi, Principal  
Sam Houston Math, Science & Technology Center
