

ARNALDO ELIGIO

It is my privilege to serve as a faculty member of Baylor College of Medicine at Ryan. I received my Bachelor in Secondary Education degree, Major in Mathematics at Bulacan State University in the City of Malolos, Philippines. I hold teaching certification for both Mathematics 4-8 and Mathematics 7-12. In addition to my passion for teaching, I also enjoyed listening to music, playing guitar, travelling, and visiting parks and scenic places. I am looking forward to guiding my students in their quest for knowledge in Mathematics and challenge them to continue their pursuit of STEM program.
