

Hello BCMA Family,

My name is Reuben Nicholas and I'm a native Houstonian. I'm a product of the HISD inner city public school system and I have been an educator for 13 years. I am excited to be joining BCMA as a 6th grade Science teacher. Being an Adjunct Math Professor at San Jacinto College, HISD ABRAZO mentor for new HISD teachers, middle and high school HISD teacher, selected as a member of the District Math Textbook Selection Committee and math tutor has allowed me to analyze the learning difficulties and learning styles of a diverse student population.

I'm an alumnus of Tulane University where I double majored in Mathematics and Cellular and Molecular Biology. I obtained my Master's Degree in Educational Management from the University of Houston at Clear Lake and my certifications include Principal EC-12, Grades 8-12 Mathematics, Grades 4-8 Math/Science, and an Academic Online Teaching Certification. I have been involved in numerous middle and high school activities such as Walk for Success, 21st Century After School Programs, Prepared 4 Life, Motivating Minds Tutorial Program and have loved every minute of my educational journey. Again, thanks for welcoming me to the BCMA family and I look forward to working with everyone to produce the best and brightest students in the country! See you soon Team BCMA!!
