

Ricardo Elegarle

Math Teacher – 8th Grade, Geometry

Email: relegarl@houstonisd.org

I am honored and excited to be a member of the Faculty at Baylor College of Medicine at Ryan.

I received my Bachelor in Education with a major in Mathematics from the University of the City of Manila in the Philippines. I also completed the academic requirements for the Master of Science in Mathematics Education in the same university. Aside from Math, I am also fascinated with the synergy and complexity in the field of science and engineering. It leads me to pursue my studies and earned my second degree in Electrical Engineering from Mapua Institute of Technology in the Philippines. The numerous programs offered for professional advancement in teaching has afforded me the opportunity to earn graduate units in Physics for the Master Teacher Science Institute from the University of Texas at Austin.

I hold a teaching certification in Middle School and Secondary Math, Science Composite, and Physics/Mathematics.

When I am not busy doing Math, I enjoy singing, listening to music, watching live concerts, and traveling to historical destinations and other heritage sites.

I look forward to helping and guiding my students at BCMAR in their pursuit of learning and exploring Mathematics that will take them to the next level in their educational journey.
