

# Metal, Nonmetal, Metalloid Venn Diagram Overview

Name \_\_\_\_\_

Date \_\_\_\_\_

## Essential Questions

*How can we use physical properties to identify a substance as a metal, nonmetal, or metalloid?*

## Objectives

*Classify substances as metals, nonmetals or metalloids based on their physical properties*

Directions: Compare metals, nonmetals, and metalloids according to their physical properties. Fill in the Venn diagram using terms you have learned throughout this unit to describe each category.
