

Dance Careers

Dance has been part of society as long as civilization exist. People are involved in dance as a career, as a recreational and/or social activity, and as a way to learn about the world, history, and culture. Many young dancers dream about a career as an artist, but the dance profession is not only about performing on the stage. Careers in dance can be in business management and administration, education and training, health/wellness and science, media and communication, hospitality and tourism, marketing, entertainment, design, and performing arts.
