

MEMORANDUM

August 31, 2010

TO: Board Members

FROM: Terry B. Grier, Ed.D.
Superintendent of Schools

SUBJECT: **ASSESSMENT OF STUDENT PERFORMANCE IN SPECIAL EDUCATION:
SPRING 2010**

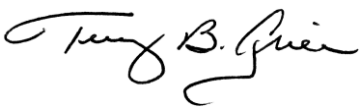

CONTACT: Carla Stevens, (713) 556-6700

Attached is a copy of the Assessment of Student Performance in Special Education report for Spring 2010. Results from the Texas Assessment of Knowledge and Skills (TAKS) are provided for students with disabilities in English and in Spanish. **The results presented are the scale scores, passing rates and percent commended for Spring 2010 compared to Spring 2009 data.** It should be noted that TAKS data in reading and math for grades 3–8 are now reported on the new vertical scale.

Some of this year's highlights are as follows:

- In 2010, there were a total of 16,503 HISD students with disabilities. This is a decrease from 2009 in which there were 16,918 HISD students with disabilities.
- The passing rate on the English TAKS for students with disabilities increased in all grades, excluding 6th and 8th, for reading and increased or remained the same for all grades in math, with significant increases (12 percentage points) in grades 7 and 10. For science, writing and social studies, passing rates increased for all grades from 2009 to 2010.
- Passing rates for students taking the TAKS-M increased significantly from 2009 to 2010 for the majority of grades and subjects. The only exceptions included 7th and 10th grade reading and 10th grade science, where the passing rates were lower than that of the previous year.

Should you have any further questions, please contact my office or Carla Stevens in Research and Accountability at (713) 556–6700.

Assessment of Student Performance in Special Education, Spring 2010

Introduction

According to the “No Child Left Behind” Act (NCLB), all students including students with disabilities must be tested annually using statewide assessments. The performance of students with disabilities must be reported at the state, district, and school levels. Therefore, this report will examine the performance of students with disabilities on the Texas Assessment of Knowledge and Skills (TAKS) including the TAKS-Accommodated, TAKS-Modified, and TAKS-Alternate in the Houston Independent School District (HISD). This report will provide demographic information for the students with disabilities served in HISD and their participation rates on state assessments, before presenting their performance results.

Table 1 provides the demographic characteristics of students with disabilities for 2009 and 2010 in HISD. The demographic characteristics of these students were retrieved from the Public Education Information Management System (PEIMS) for both years. District data comes from the PEIMS Edit+ Reports.

Students with disabilities account for approximately 10 percent of HISD's student population. In 2010, there were a total of 16,503 students with disabilities. This is a slight decrease from 2009 in which there were 16,918 students with disabilities. The majority of students with disabilities were male at 67.5 percent compared to 32.5 percent who were female. Also, in 2010, 53.2 percent of students with disabilities were Hispanic, 37.5 percent were African American, and 8.0 percent were White. Students with disabilities identified as economically disadvantaged accounted for 80.5 percent of the population in 2010. The majority of students, 51.0 percent, were diagnosed with a learning disability followed by 11.9 percent with a speech impairment, and 11.6 percent were diagnosed with mental retardation as their primary disability. Less than one percent of students had a primary disability of visual impairment, deaf-blind, traumatic brain injury, or noncategorical early childhood.

Tables 2 and 3 provide the ethnic distribution of HISD students with disabilities by primary disability for 2009 and 2010.

The majority of African American, Hispanic, and White students with disabilities were identified as having a learning disability during both school years. The percent of African American students with disabilities who were identified with a learning disability increased by 0.3 percent from 52.7 percent in 2009 to 53.0 percent in 2010. The percent of Hispanic students with a learning disability decreased from 54.1 percent in 2009 to 53.8 percent in 2010, although they still had the highest percentage of students, among the subgroups, with a learning disability at 53.8 percent, followed by African Americans at 53.0 percent, Whites with 27.8 percent and Asians with 22.3 percent. Speech impairment followed learning disability as the most identified primary disability for Hispanic (13.8 percent), and White (21.9 percent) students and was also the prominent disability for Asian students at 29.1 percent. The second most common disability for African American students was mental retardation at 13.2 percent.

Texas Assessment of Knowledge and Skills (TAKS), including the TAKS-Accommodated Form

The Texas Assessment of Knowledge and Skills (TAKS) was first administered in the spring of 2003. The TAKS measures the statewide curriculum in reading/English language arts (ELA) and mathematics for grades 3–11; in writing grades 4 and 7; in science grades 5, 8, 10, and 11; and in social studies grades 8, 10, and 11. The Spanish TAKS is administered in grades 3–5 in reading and mathematics, in grade 4 for writing, and in grade 5 for science. The TAKS included an accommodated form called TAKS (Accommodated) for students served by special education who meet the eligibility requirements for specific accommodations. The TAKS (Accommodated) form includes some format accommodations such as larger font and fewer test items per page. Also, field-test questions were not included in the TAKS (Accommodated). The TAKS (Accommodated) was available in Spanish and for all grades and subjects that are assessed with the TAKS.

Administration of the TAKS Examination to HISD Students

The TAKS Examination schedule (Table 4) lists the various subtests administered districtwide during the spring of 2010.

Analysis of TAKS Examination Results

Results for grades 3–11 from the English TAKS for reading/ELA and mathematics; writing grades 4 and 7; science grades 5, 8, 10, and 11; and social studies grades 8, 10 and 11 were examined in this report. Similarly, results for grades 3–5 from the Spanish TAKS for reading and mathematics, grade 4 for writing, and grade 5 for science are provided. All students are required to take the TAKS test with two exceptions: 1) students required to take the TAAS test to meet their graduation requirement; and 2) those that are exempt from it and are tested on an alternate instrument as dictated by their Individual Education Plan (IEP). Grades five and eight reading tests had three separate test administrations in 2010 due to the state’s Student Success Initiative: April 7, May 19 (students not previously passed), and June 30 (students not previously passed). Grades 5 and 8 mathematics also had three administrations: April 6, May 18, and June 29. The TAKS reading and math results for grades five and eight in this report reflect the first administration. Districtwide results were compared to statewide performance for all students on both the English and Spanish versions of the TAKS. For comparison purposes, two years of data were reported.

Prior to 2010, for grades 3–11, TAKS performance results were reported as percent “met standard”, which corresponded to a scale score of 2100 and percent “commended performance”, which corresponded with a scale score of 2400. This is known as a horizontal scale. However, due to limitations of the horizontal scale, Texas Education Code, Section 39.036 required the development a vertical scale for assessing student performance in reading and mathematics in grades 3–8. For 2009, both the existing horizontal scale score and the new vertical scale score were provided on the Confidential Student Report (CSR) and provided to the districts. Beginning in 2010, however, the vertical scale is the only scale provided for these subjects/grades. The vertical scale allows scores to be compared across grade levels, which is useful for tracking a student’s progress across years and for comparing performance standards across grade levels. The new scale ranges from 0–1000 and cut scores for performance levels are presented in the chart below.

Reading			Mathematics	
Grade	Met Standard	Commended	Met Standard	Commended
English-version Test				
3	483	659	500	640

4	555	694	555	692
5	623	744	627	755

*Note: a vertical scale will not be reported for TAKS writing (grades 4 and 7), science (grades 5, 8, 10, and exit level), social studies (grades 8, 10, and exit level), reading and mathematics at grade 9, and English language arts and mathematics at grade 10 and exit level

English TAKS Results for HISD and the State

The state TAKS exam results for students with disabilities who took the English version were compared to HISD districtwide results for grades 3–11. This process also included a comparison of state and HISD results in all of the TAKS content areas. The information regarding the HISD and state comparisons for reading, mathematics, writing, science, social studies, and all tests taken is presented in **Tables 5–10**. The percent of students meeting the TAKS passing standard is included in the analysis. The results of students taking TAKS (Accommodated) were included in the 2009 and 2010 TAKS performance. The percent of students earning the commended status is also included. The 2009 and 2010 results for grades five and eight reading and math are from the first administration.

Reading

State and HISD reading (grades 3–9) and English Language Arts (grades 10–11) results on the English version of the TAKS from 2010 were examined. The results from a comparative analysis of these data are presented in **Table 5**.

Note: Fifth and eighth grade reading results reflect the first administration only.

*TAKS data in reading and mathematics are now reported on the new vertical scale.

- The number of HISD students with disabilities that participated in the 2010 TAKS reading/ELA test decreased from 5,282 in 2009 to 4,991 in 2010. Grade 8 experienced the largest decrease with 118 fewer students taking the test in 2010. Increases in participation were seen at grades 10 and 11 with 27 and 81 more students taking the test in 2010, respectively.
- On the 2010 TAKS reading/English Language Arts tests, the state outperformed HISD in all grades for percent passing. For percent commended, with the exception of third graders, HISD students were outperformed or matched by the state.
- A gap analysis of the percent passing the 2010 TAKS reading test results between the state and HISD revealed the largest difference of nine percentage points for grades seven and nine while the smallest gap was at grades three and four with just a one-percentage-point difference for each. The district closed the gap with the state at grades three, four, six, eight and ten.
- In reviewing the HISD results for the 2010 TAKS reading/English Language Arts tests, third graders outperformed all other grades with 79 percent of the students meeting the standard.
- When comparing the district's passing rates from 2009 to 2010 at the state passing standard, scores increased for most grades. The only grades that did not show improvement were the sixth and eighth grades. The greatest increase, nine percentage points, was at the seventh grade level where the passing rate went from 36 percent to 45 percent over the past year.
- In terms of students earning the commended status on the 2010 TAKS reading/English Language Arts tests, the state reported a range of one percent commended in grade 10 to 25 percent commended in grade three. HISD reported a range of one percent commended in grade 10 to 26 percent commended in grade three.

Mathematics

State and HISD mathematics (grades 3–11) results on the English version of the TAKS for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 6**.

Note: Fifth and eighth grade mathematics results reflect the first administration only.

*TAKS data in reading and mathematics are now reported on the new vertical scale.

- On the 2010 TAKS mathematics test, HISD outperformed the state at grades three, four and five, while the state had higher numbers at all remaining grade levels for percent met standard.
- A gap analysis of the percent passing the 2010 TAKS mathematics test results between the state and HISD revealed the largest difference between HISD and the state of 10 percentage points at grade six, while the smallest gap was at grade 10 where a four-percentage point difference was seen.
- For the spring 2010 TAKS mathematics test, the state's scores at the passing standard ranged from 28 percent for ninth grade to 70 percent for both third and fourth grades. The HISD scores at this same standard ranged from 22 percent in grade nine to 74 percent in grade four.
- When comparing the district's mathematics passing rates from 2009 to 2010, at the state passing standard, scores increased or remained the same for all grades tested with grades seven and ten showing the most significant increase of 12 percentage points each.
- Grade four for HISD and grade five for the state reported the greatest percentage of commended students on the mathematics test with 19 percent each.

Writing

State and HISD writing results on the English version of the TAKS for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 7**.

- For the spring 2010 TAKS writing test, HISD outperformed the state on percent passing in grade four but not grade seven. The state outperformed HISD in fourth grade for percent commended, and in seventh grade HISD matched the state. For average scale score, HISD's fourth graders matched the state while seventh graders were outperformed by the state.
- The state's scores at the passing standard were 72 percent for fourth grade and 72 percent for seventh grade. The HISD scores at this same standard were 74 percent for grade four, up eight percentage points from 2009, and 67 percent for grade seven, up 13 percentage points from 2009.

Science

State and HISD results on the English version of the TAKS for science for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 8**.

Table 8: State and HISD English TAKS Results for Science (Grades 5, 8, 10 & 11) for Students with Disabilities: Spring 2009 and 2010

	Texas	13,400	14,011	47	62	3	4	2089	2133

- For the spring 2010 TAKS science test, the state outperformed HISD on the percent passing for all grades with the exception of grade 5 where HISD outperformed the state.
- The state outperformed HISD at all grades tested for percent commended and average scale score. Grade five reported the greatest percentage of commended students on the science test for both HISD and the state, with 24 and 25 percent commended, respectively.

Social Studies

State and HISD results on the English version of the TAKS for social studies for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 9**.

- For the spring 2010 TAKS social studies test, the state outperformed HISD in all grades for percent passing, with the exception of grade 8 where the district matched the state.
- The district showed improvements at each grade level from 2009 to 2010 with grade eight showing an improvement of 16 percentage points.

All Tests Taken

State and HISD results on the English version of the TAKS for all tests taken at each grade for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 10**. All tests taken cannot be calculated for grades with multiple administrations.

- For the spring 2010 TAKS performance results for all tests taken, the state outperformed HISD at five of the grades tested for percent passing but were outperformed by the district at grades three and four. In grades three and seven, HISD outperformed the state for percent commended, equaled the state for grades four, six, and ten, and were outperformed by the state in grades nine and eleven.
- Grade three reported the highest percentage of students passing for both HISD and the state with 66 and 65 percent of students passing, respectively.
- The 2010 HISD percent passing results showed no change or had increases from 2009 in all six grades for which All Tests Taken is reported for both years.

Spanish TAKS Results for HISD and the State

The TAKS exam results for students with disabilities who took the Spanish version statewide were compared to HISD districtwide results for grades three through five. 2010 was the first year that sixth grade was not included in the Spanish administration of the TAKS. The information regarding the HISD and state comparisons for reading, mathematics, writing, and science is presented in the next few sections. District data presented for 2009 are taken from the corrected electronic file provided by the testing contractor on **June 23, 2008**. Also, the results of students taking TAKS (Accommodated) were included in the 2009 and 2010 TAKS performance.

Reading

State and HISD reading results on the Spanish version of the TAKS for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 11**.

Note: Third and fifth grade reading results reflect the first administration.

(*) Fewer than five students tested.

- On the 2010 Spanish TAKS reading test, HISD students with disabilities in grade three outperformed their state counterparts as measured at the state passing standard and the opposite was true for grade four. Comparative data for HISD was not available for grade five.
- In terms of commended status on the reading test, HISD students with disabilities outperformed their counterparts in the state in grade three but the reverse was true in grade four.

Mathematics

State and HISD mathematics results on the Spanish version of the TAKS for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 12**.

Table 12: State and HISD Spanish TAKS Results for Mathematics (Grades 3–5) for Students with Disabilities: Spring 2009 and 2010

	Texas	157	115	20	24	5	2	1919	560

Note: Fifth grade reading results reflect the first administration only.

(*) Fewer than five students tested.

- HISD students with disabilities outperformed their state counterparts on the 2010 Spanish TAKS mathematics test for the percent passing at the state standard in grade three but were outperformed by the state in grade four. HISD third graders reported the highest percent passing the standard at 56 percent compared to 45 percent passing for the state.
- In grade three, HISD students with disabilities outperformed their state counterparts on the Spanish TAKS mathematics test for commended status, while the state's fourth graders outperformed HISD's. Again, comparison data for grade five are not available for HISD.

Writing

State and HISD writing results on the Spanish version of the TAKS for 2010 were examined for fourth grade. The results from a comparative analysis of these data are presented in **Table 13**.

Table 13: State and HISD Spanish TAKS Results for Writing (Grade 4) for Students with Disabilities: Spring 2009 and 2010

- On the 2010 Spanish TAKS writing test, HISD and the state had 67 and 72 percent of fourth graders meeting the standard, respectively. However, HISD fourth graders outscored their state counterparts in the percentage of commended students at 12 percent compared to 11 percent for the state.

Science

State and HISD writing results on the Spanish version of the TAKS for 2010 were examined for fifth grade. The results from a comparative analysis of these data are presented in **Table 14**.

- At the state level, performance levels for the Spanish TAKS science test increased slightly in 2010 for percent passing, percent commended and average scale scores.
- Comparison data for grade five are not available for HISD.

All Tests Taken

State and HISD results for all tests taken on the Spanish version of the TAKS for 2010 were examined. The results from a comparative analysis of these data are presented in **Table 15**. All tests taken cannot be calculated for grades with multiple administrations of any subject.

- In 2010, on the Spanish TAKS test, HISD students were outperformed their state counterparts on all tests taken in the third grade, but the opposite was true for grade four for percent passing.
- HISD matched the state for percent commended in both grades in which data were available.

Texas Assessment of Knowledge and Skills-Modified (TAKS-M)

The TAKS-M is an alternate assessment based on modified academic achievement standards for students receiving special education services who meet eligibility criteria. Some of the modifications of the TAKS-M includes fewer test items, reduced number of answer choices, Verdana font and a larger point size, more white space, simplified sentence structure, vocabulary, and graphics, and deleted extraneous information.

According to the Texas Education Agency (TEA), in order to determine eligibility, students must first meet the following description, “Students receiving special education services who have a disability that significantly affects academic progress in the grade-level curriculum and precludes the achievement of grade-level proficiency within a school year will be assessed with TAKS-M.” Then the ARD committee determines if a student’s knowledge and skills in one or more subject areas can best be assessed with TAKS-M, if the student meets all of the following participation criteria. The student:

- needs extensive modifications and/or accommodations to classroom instruction, assignments, and assessments to access and demonstrate progress in the grade-level TEKS,
- demonstrates academic progress in such a way that even if significant growth occurs during the school year, the ARD committee is reasonably certain that the student will not achieve grade-level proficiency as demonstrated by multiple valid measures of evidence,
- meets some but not all of the participation criteria of TAKS-Alternate, and
- requires an alternate form of TAKS which is more closely aligned with instructional modifications in order to demonstrate knowledge of the grade-level TEKS.

The TAKS-M was available for all grades and subjects tested on the English version of TAKS. However, Spanish versions of TAKS-M were not available. In addition, standard setting did not occur until August 2008, after the assessment was administered. Passing standards for TAKS-M were only set for NCLB-required grades and subjects. Standard setting for the remaining subjects and grades occurred after the spring 2009 administration of the TAKS-M.

Therefore, in 2009, TAKS-M results were only provided for the following grades and subjects: mathematics at grades 3-8, and 10; reading at grades 3-8; ELA at grade 10; and science at grades 5, 8, and 10. However, in 2010 TAKS-M results were provided for all grades and subjects.

Reading

State and HISD reading (grades 3–8) and English Language Arts results on the TAKS-M from 2009 (grade 10) and 2010 (grades 10–11) were examined. The results are presented in **Table 16**.

- There were a total of 5,908 HISD students with disabilities that were tested on the 2010 TAKS-M reading test. This is an increase from 2009 in which only 4,869 HISD students with disabilities that were tested. The number of HISD students who participated ranged from 367 in grade eleven to 814 in grade five.
- On the reading TAKS-M, HISD third and fifth graders experienced the highest percent of students meeting the standard with 87 percent, while eleventh grade had the lowest at 60 percent. The state outperformed HISD at all grades in meeting the standard.
- The percent of HISD students meeting the commended standard ranged from six percent in grade eleven to 27 percent in grade three. HISD outperformed or matched the state on the percent commended in four of the grades tested (3–6) while the state's performance was better in five grades (7–11).

- With the exception of grades seven and ten, HISD showed improvement on passing rates at each grade tested from 2009 to 2010.

Mathematics

State and HISD mathematics results on the TAKS-M from 2009 and 2010 were examined. The results are presented in **Table 17**.

- There were a total of 5,765 HISD students with disabilities that were tested on the 2010 TAKS-M mathematics test. This is compared to 4,854 HISD students tested on the TAKS-M in 2009. However, grades nine and eleven were not tested in 2009. Participation decreased at each grade level with the exception of third grade. The number of students who participated ranged from 399 in grade 11 to 760 in grade five.
- HISD third and fourth graders experienced the highest percent of students meeting the passing standard with 85 percent, while ninth grade had the lowest at 42 percent. With the exception of grades three, four and five, the state outperformed HISD in meeting the standard in 2010.
- The percent of HISD students meeting the commended standard ranged from one percent in grade 9 to 29 percent in grade four. HISD outperformed the state on the percent commended in grades three through six. HISD was outperformed by the state in the remaining five grades.
- On the 2010 TAKS-M mathematics test, HISD showed improvements in passing rates at all grades with two years of data and by as much as 10 percentage points for grade 10.

Science

State and HISD science results on the TAKS-M from 2009 and 2010 were examined. The results are presented in **Table 18**.

- There were a total of 1,988 HISD students with disabilities who participated on the 2010 TAKS-M science test. This is a decrease from 2009 in which 2,134 students tested. The number of HISD students ranged from 362 in tenth grade to 838 in fifth grade.
- The fifth grade experienced the highest percentage of HISD students meeting the passing standard with 61 percent, while tenth grade had the lowest at 32 percent. The state outperformed HISD in grades eight and ten in meeting the standard. In grade five, HISD outperformed the state.
- The percent of HISD students meeting the commended standard ranged from three percent in grade eight to 16 percent in grade five. HISD outperformed the state for percent commended and average scale score in grade five, but was outperformed by the state in grades eight and ten.

Texas Assessment of Knowledge and Skills-Alternate (TAKS-Alt)

The TAKS-Alt is an assessment based on alternate academic achievement standards and is designed for students with significant cognitive disabilities who meet the participation requirements. The TAKS-Alt is not a traditional paper-and-pencil or multiple-choice test. Teachers observe students as they complete teacher-designed activities that link to the grade-level TEKS curriculum through prerequisite skills. Teachers then score student performance using the TAKS-Alt rubric and submit results and documentation through the TAKS-Alt online system. The TAKS-Alt is available for all grades and subjects tested on TAKS.

According to TEA, “Students receiving special education services who have the most significant cognitive disabilities and are unable to participate in the other statewide assessments even with substantial accommodations and/or modifications will be assessed with TAKS-Alt.” The ARD committee may determine that a student’s knowledge and skills can best be assessed with TAKS-Alt if the student meets all of the following participation criteria.

The student:

- requires supports to access the general curriculum that may include assistance involving communication, response style, physical access, or daily living skills,
- requires direct, intensive, individualized instruction in a variety of settings to accomplish the acquisition, maintenance and generalization of skills,

- accesses and participates in the grade-level Texas Essential Knowledge and Skills (TEKS) through activities that focus on prerequisite skills,
- demonstrates knowledge and skills routinely in class by methods other than paper-and-pencil tasks, and
- demonstrates performance objectives that may include real life applications of the grade-level TEKS as appropriate to the student's abilities and needs.

Reading

State and HISD reading (grades 3–9) and English Language Arts (grades 10–11) results on the TAKS-Alt from 2009 and 2010 were examined. The results are presented in **Table 19**.

- A total of 1,224 HISD students with disabilities participated on the 2010 TAKS-Alt reading assessment. This is a slight increase from last year in which 1,090 students were tested. The number of HISD students ranged from 112 in grade nine to 171 in grade three.
- On the TAKS-Alt reading test, the state outperformed HISD in all grades, except ninth and eleventh where the district matched or exceeded the state, for percent passing. The state's scores at the passing standard ranged from 91 percent to 93 percent. The HISD scores at this same standard ranged from 80 percent for third grade to 94 percent for eleventh grade.
- For commended performance, HISD outperformed the state in grades six and eleven and matched the state in grades seven and ten.
- Grades three and six (15%) for the state and grade six (22%) for HISD reported the greatest percentage of commended students on the reading test.

Mathematics

State and HISD mathematics results on the TAKS-Alt from 2009 and 2010 were examined. The results are presented in **Table 20**.

- A total of 1,223 HISD students with disabilities participated on the 2010 TAKS-Alt math assessment. This is a slight increase from last year in which 1,095 students were tested. The number of HISD students ranged from 111 in grade nine to 171 in grade three.
- On the TAKS-Alt mathematics test, the state outperformed HISD in six of the nine grades for percent passing. The state's scores at the passing standard ranged from 91 percent for tenth grade to 95 percent for fifth grade. The HISD scores at this same standard ranged from 82 percent for third grade to 95 percent for eleventh grade.
- For percent commended, HISD outperformed or matched the state at grades six through eight, ten and eleven.
- Grade three (21%) for the state and grade six (27%) for HISD reported the greatest percentage of commended students.

Writing

State and HISD writing results on the TAKS-Alt from 2009 and 2010 were examined. The results are presented in **Table 21**.

	Texas	2,628	2,829	83	93	5	12

- A total of 276 HISD students with disabilities participated on the 2010 TAKS-Alt writing assessment; a slight increase from 2009 in which 245 students were assessed.
- On the TAKS-Alt writing test, the state outperformed HISD on percent passing and percent commended in both fourth and seventh grades.
- The state's scores at the passing standard were 93 percent for both fourth and seventh grades. The HISD scores at this same standard were 83 and 86 percent for grades four and seven, respectively, both showing improvement from 2009.

Science

State and HISD science results on the TAKS-Alt from 2009 and 2010 were examined. The results are presented in **Table 22**.

	Texas	2,148	2,322	81	95	6	14

- A total of 526 HISD students with disabilities participated on the 2010 TAKS-Alt science assessment, up from 469 in 2009. The number of HISD students ranged from 115 in grade eleven to 157 in grade five.
- On the TAKS-Alt science test, the state outperformed HISD on percent passing in grades five, eight and ten but matched HISD in grade eleven. HISD outperformed the state for percent commended in grade eight, matched the state in grade ten but was outperformed by the state in the remaining two grades.
- The state's scores at the passing standard ranged from 94 percent for tenth grade to 96 percent for eighth grade. The HISD scores at this same standard ranged from 90 percent for fifth grade to 95 percent for eleventh grade, all showing improvements from the previous year.

- Grade five for the state and grade eight for HISD reported the greatest percentage of commended students on the science test with 19 percent and 24 percent commended, respectively.

Social Studies

State and HISD social studies results on the TAKS-Alt from 2009 and 2010 were examined. The results are presented in **Table 23**.

- A total of 369 HISD students with disabilities participated on the 2009 TAKS-Alt social studies assessment, up from 344 in 2009. The number of HISD students ranged from 115 in grade eleven to 137 in grade eight.
- For the TAKS-Alt social studies test, the state outperformed HISD on percent passing in grades eight and ten but the opposite was true for grade eleven. For percent commended, HISD outperformed the state in grades ten and eleven.
- The state's scores at the passing standard were 95 percent for eighth grade, 93 percent for tenth grade, and 94 percent for eleventh grade. The HISD scores at this same standard were 91 percent for grades eight and ten and 95 percent for grade eleven, showing increases by as much as 19 percentage points for grade eight.
- Grade eight for the state and HISD reported the greatest percentage of commended students on the science test with 19 percent and 18 percent commended, respectively.

All Subjects Assessed

State and HISD all subjects assessed results on the TAKS-Alt from 2009 and 2010 were examined. The results are presented in **Table 24**.

- On the 2010 TAKS-Alt for all subjects assessed, with the exception of grades nine and eleven, where the district matched or exceeded the state's performance, the state outperformed HISD for percent passing at the other seven. The state's scores at the passing standard ranged from 87 percent to 92 percent. The HISD grades' scores at this same standard ranged from 78 percent to 94 percent.
- For all subjects assessed, HISD outperformed the state for percent commended in three of the nine grades tested on the TAKS-Alt in 2010 but the opposite was true for the remaining six grades.
- Grade six for both the state and HISD reported the greatest percentage of commended students on all subjects assessed with 13 percent and 20 percent commended, respectively.

Discussion

Overall, TAKS scores for HISD students with disabilities increased, across subjects, from 2009 to 2010. For reading, the percentage of students with disabilities meeting the state passing standard increased from 51 percent in 2009 to 56 percent in 2010. For mathematics, the overall passing percentage increased from 38 to 45 percent. Similarly, for writing, the percentage of students with disabilities meeting the passing standard in 2010 was 70 percent, up from 59 percent in 2009. For science and social studies, the passing percentage increased from 39 to 45 percent and 64 to 75 percent, respectively. TAKS Modified and TAKS Alt passing rates also improved from 2009 for each subject across all grades tested. Detailed data by grade and across grades for the district and schools for each TAKS version are provided in the remaining pages of this report.

For grades and subjects with multiple test administrations, the first administration results are used.

For 2009, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS and TAKS-A for all grades and all subjects.

For 2010, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS, TAKS-A, and LAT, except for Reading and Mathematics in grades 5 and 8 where LAT results are not included.

In 2010, Vertical Scale Scores have been implemented by TEA for grades 3-8 in Reading and Mathematics for TAKS, TAKS-A, and LAT.

For grades and subjects with multiple test administrations, the first administration results are used.

For 2009, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS and TAKS-A for all grades and all subjects.

For 2010, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS, TAKS-A, and LAT, except for Reading and Mathematics in grades 5 and 8 where LAT results are not included.

In 2010, Vertical Scale Scores have been implemented by TEA for grades 3-8 in Reading and Mathematics for TAKS, TAKS-A, and LAT.

For grades and subjects with multiple test administrations, the first administration results are used.

For 2009, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS and TAKS-A for all grades and all subjects.

For 2010, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS, TAKS-A, and LAT, except for Reading and Mathematics in grades 5 and 8 where LAT results are not included.

In 2010, Vertical Scale Scores have been implemented by TEA for grades 3-8 in Reading and Mathematics for TAKS, TAKS-A, and LAT.

For grades and subjects with multiple test administrations, the first administration results are used.

For 2009, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS and TAKS-A for all grades and all subjects.

For 2010, the TAKS data (other than TAKS-M and TAKS-Alt) consist of TAKS, TAKS-A, and LAT, except for Reading and Mathematics in grades 5 and 8 where LAT results are not included.

In 2010, Vertical Scale Scores have been implemented by TEA for grades 3-8 in Reading and Mathematics for TAKS, TAKS-A, and LAT.
