

## MEMORANDUM

December 5, 2008

TO: School Board Members

FROM: Abelardo Saavedra  
Superintendent of Schools

SUBJECT: **TITLE I, PART A PARENT INVOLVEMENT REPORT 2007–2008**

CONTACT: Carla Stevens, 713-556-6700

### Background

The Title I, Part A Parent Involvement Program is designed to provide engaging opportunities, training, and information for parents that will help them assume a more meaningful role in improving student achievement, and to increase their effectiveness when participating in the planning, design, implementation, and evaluation of the Title I, Part A programs. The Houston Independent School District (HISD) Title I, Part A parental involvement participation data were limited to parental involvement participation in the following areas: parent/teacher conferences, parent education, family literacy, parent literacy, parent planning, and parent volunteering. Parent/teacher conferences consisted of the number of parents, by school, that participated in conferences with their children's teachers. Parent education participation identified parents who have received services such as GED or ESL instruction. Family literacy participation included other family members who attended activities that promoted student achievement. Parents who attended activities that promoted student achievement were recorded as parent literacy. These activities included: family math, reading, science nights, and parenting-skills workshops. Parent planning identified the participation of parents in the campus planning process. Parent volunteering consisted of parents who participated in organized parental support in a variety of capacities.

For the 2007–2008 school year, parents of 83,311 students participated in the Title I, Parent Involvement program which represented 42.4 percent of all Title I, Part A students enrolled. HISD served a total of 271 Title I, Part A schools during the 2007–2008 school year. Of the schools served, there were 185 elementary, 49 middle, one combined, and 36 high schools. While the majority were schoolwide campuses, eight were targeted assisted (**Appendix A**).

The percentage of parental involvement was calculated by dividing the number of students who had parental involvement coded on their student Chancery Parent Involvement data screens by the total number of students enrolled based on the 2007–2008 PEIMS ADA Summer Collection (Resubmission). Students could be coded in multiple categories. Parental Involvement category percentages were calculated at the school, region, and district levels. Enrollment collection was changed from the fall resubmission data used in the 2006–2007 report to reflect the cumulative enrollment in the schools, regions, and the district.

### Findings

- **Figure 1** reflects the majority of Title I, Part A parental involvement activities were identified as parent conference. Over 39.3 percent were identified as educational enrichment activities for families and parents including education, family literacy, and parent literacy.

- In the area of parent conferencing, the South Region exceeded all regions with 90.6 percent. The Central Region exceeded the other regions in family literacy (20.2 percent) and parent literacy (13.5 percent). The East Region exceeded in education (24.6 percent). The Alternative Region exceeded in planning (36.3 percent) and in volunteering (20.8 percent) (**Figure 2 and Appendix A**).
- When looking at the specific types of parental involvement at the district and regional levels, it is apparent that the conference was the main form of involvement. The lowest areas of participation were parent literacy and planning (9.2 and 9.6 percent, respectively) (Appendix A).
- Mary Scroggins Elementary School and T. H. Rogers Middle School had the highest level of parental involvement participation (98.5 percent). Several schools showed no parental involvement participation (**Appendix B**).
- An extraction of data from the Chancery Student Management System (SMS) indicated that 258 campuses showed parental involvement data. Chancery allows the user to code a student's record whose parents have been involved. Additionally, the user is then encouraged to identify how the parent was involved. In many cases, this action was not exercised. The following schools did not indicate any parental coding:

**Elementary**

- Rufus Cage
- Lucile Gregg
- Kandy Stripe Academy
- Joseph Rhoads
- TSU Charter

**Middle**

- Briar Meadow
- Project Chrysalis
- W.A.L.I.P.P.

- Additionally, the following schools coded at least one parent being involved, but did not code the activity in which the parent participated.

**Elementary**

- Bellfort Academy
- Highland Heights
- Walnut Bend

**Middle**

- Thomas Edison

**High**

- East Early College
- Liberty

**Conclusion**

Overall, Title I student enrollment during the 2007–2008 school year was 196,274. Of this number, 83,311 students' parents participated in parent involvement activities which reflects a rate of 42.4 percent. Compared to the 2006–2007 school year, the number of students with parents involved increased; however, the increase was not reflected in the parent involvement categories. Although, there were increases in parent education (1.0 percent) and parent literacy

(0.1 percent), these gains did not account for the higher total number of students whose parents were involved during the 2007–2008 school year, compared to 2006–2007.

The Title I Districtwide percentage rates in all the categories, except conferencing, appeared to be low. The Central Region schools led in the area of family literacy (20.2 percent) and parent literacy (13.5 percent).

### **Recommendations**

Additional attention should be considered for parent literacy programs. Based on the percentage of limited English proficient students in HISD, 29.7 percent, there is a substantial need for schools to offer such programs.

Parental planning with the schools appears to require more effort. Increasing parental planning activities can increase parents' support of the children and the success of the school.

Additionally, attention is required to ensure that the Title I, Part A Parent Involvement Program elements are completely coded. Approximately one quarter of the students coded with parental involvement did not have codes for specific activities.

Should you have any further questions, please contact my office or Carla Stevens in Research and Accountability at (713) 556-6700.
