

## MEMORANDUM

August 8, 2012

TO: Board Members

FROM: Terry B. Grier, Ed.D.  
Superintendent of Schools

CONTACT: Carla Stevens, 713-556-6700

SUBJECT: **SUPPLEMENTAL EDUCATIONAL SERVICES PROVIDERS REVIEW 2011–2012**

HISD students on Title I campuses who failed to make adequate yearly progress (AYP) for three consecutive years (Stage 2 School Improvement) were given an opportunity to seek external tutoring services. Supplemental Educational Services (SES) were made available by the district to increase student academic achievement. Tutoring services consisted of academic assistance in the areas of mathematics, reading, language arts, and science. These services were offered by state-approved providers who attested to keeping intervention methods consistent with the content and instruction used by the district and with the State's academic content standards. According to the No Child Left Behind Act, these services were required to be high-quality, research-based, specifically designed to increase student academic achievement, and offered outside of the regular school day (*Title I, Section 1116(e)(12)(C)*).

Students in grades 1–12 qualifying for free and reduced lunch status (economically disadvantaged) were eligible to participate in the SES programs. Parents of eligible students were notified by the Department of External Funding that supplemental educational services were available. Parents were then given an opportunity to select a provider whom they felt best met the needs of their children. Agreements were made between parents and providers to ensure that students attended the programs. The providers committed to produce information to the district on the status of students' academic achievement.

Data were collected to determine the level of improvement of 2011–2012 participating SES students based on their performance on the Texas Assessment of Knowledge and Skills (TAKS) for grades 10–11, and Stanford Achievement Test Series, Tenth Edition (Stanford 10) for the past two years (2010–2011 and 2011–2012) for grades 1–8. Stanford 10 for grades 9–12 were not considered because this test was not administered in these grades during both years. It should be noted that participation in the program will not be completed until the end of summer, so the results presented herein are only based on participation through July 12, 2012. Students identified for analysis were enrolled at Title I campuses that failed to make AYP for a minimum of three consecutive years. The students in this report received services from SES providers during the 2011–2012 school year. The Department of External Funding provided the names and identification numbers of students who received services from the selected providers, the schools they attended, and the number of hours they attended.

**Table 1** provides a list of the SES providers, ranked by students served in 2011–2012. A total of 63 providers offered tutoring services to 8,798 students and each student received an average of 16.3 hours of tutoring. Six providers, Tutors With Computers LLC, Academic Myriad, A+ Learning Academy Inc., Apex Academics LLP, Focus First Tutoring, and Stacey Simmons: Promise Tutorial provided services to just over half of the students served and 27 providers provided service to 90 percent of the students served. Tutors With Computers LLC served the highest number and percentage of students at 1,656 and 18.4 percent respectively. The total budget allocated for the SES program was \$13.4 million and expenditures through July 12, 2012

totaled \$8.4 million. On a cost per student basis, expenditures through July 12, 2012 were approximately \$953.

**Figure 1** presents information on student participants by school. Participants attended 18 HISD schools including one elementary school, six middle schools, 10 high schools, and one combined school. Four high schools: Lee, James Madison, Westbury, and Phillis Wheatley, accounted for just over half (52.7 percent) of the tutored students.

**Table 2** presents Stanford 10 NCE comparisons for student participants from grades 1–8 for 2010–2011 in comparison to 2011–2012 for 52 providers with student level Stanford data for the two years. Shaded cells represent improved NCEs. These observations should be interpreted with caution as the number of student participants is fewer than 10 for 25 of the providers. Overall, participants for ten providers showed gains on all four Stanford subtests, 15 providers showed gains on three subtests, 11 providers showed gains on two subtests, eight showed gains on one subtest, and eight showed no gains on any subtest. Gains were most frequently noted for reading (32 providers), followed by language (30 providers), science (29 providers), and mathematics (24 providers).

**Table 3** presents TAKS comparisons for student participants in grades 10 and 11 for 2010–2011 in comparison to 2011–2012 for 52 providers with student level TAKS data for the two years. Again, these observations should be interpreted with caution as the number of student participants is fewer than 10 for 21 of the providers. Participants for 20 providers showed gains on all three TAKS subtests, 16 showed gains on two subtests, six showed gains on one subtest, and 10 had no gains on any subtest. Gains were most frequently noted for mathematics (37 providers), followed by science (36 providers), and English Language/Arts (25 providers).

**Table 4** presents summary data for the SES providers serving 90 percent of the student participants. Students tutored by three providers, Group Excellence, Ltd., Fostering Stars Learning & Resource Center, Inc., and Charlyn Auzenne, M. Ed: Knowledge to Succeed, showed gains on all four Stanford subtests and all three TAKS subtests. Student participants for seven providers achieved gains on six of seven subtests for the Stanford 10 and TAKS.

Should you have any further questions, please contact my office or Carla Stevens in Research and Accountability at 713-556-6700.
