

MEMORANDUM

January 30, 2013

TO: Board Members

FROM: Terry B. Grier, Ed.D.
Superintendent of Schools

SUBJECT: **TITLE 1, PART A STUDENT ACHIEVEMENT REPORT 2011–2012**

CONTACT: Carla Stevens, 713-556-6700

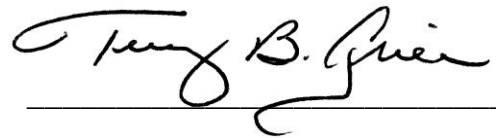

Attached is a copy of the Title I, Part A Student Achievement Report for 2011–2012. This report reflects student performance on the State of Texas Assessments of Academic Readiness (STAAR), Texas Assessment of Knowledge and Skills (TAKS), Stanford 10, and Aprenda 3 and is required under Title I regulations. Differences, by the total number of students tested, performance by grade, and by subject area are presented at the campus, school office, and district levels. Student demographic data are also noted.

Some of the highlights are as follows:

- Overall, for the district on the STAAR, students in grades 3–8 scored 63 percent correct in reading, 58 percent in math, 59 percent in writing, 66 percent in science, and 51 percent in social studies. Since STAAR was administered for the first time during the 2011–2012 school year, standards have not yet been established for grades 3–8 and comparisons cannot be made against previous school years. This report only lists the percentage of correct answers across grade levels and subject areas.
- A total of 55,960 STAAR End of Course exams were given in the district, and 68 percent of them met the satisfactory standard.
- During the 2011–2012 school year, TAKS was only administered to students in grades 10 and 11. Eighty-nine percent of students passed reading, 81 percent passed math, 81 percent passed science, and 95 percent passed social studies. Students from grade 11 outperformed students from grade 10 in math and science by approximately 20 percentage points. There were no major differences in passing rates between 2010–2011 and 2011–2012.
- On the Stanford 10, performance remained flat or dropped by one or two NCEs from 2010–2011 to 2011–2012 for each subject area. Overall for the district, reading was at 46 NCEs, math was at 53 NCEs, writing was at 48 NCEs, science was at 54 NCEs, and social science was at 48 NCEs.

- On the Aprenda 3, performance decreased by three to eight NCEs from 2010–2011 to 2011–2012 for each subject area. Overall for the district, reading was 71 NCEs, math was at 72 NCEs, writing was at 75 NCEs, science was at 71 NCEs, and social science was at 73 NCEs.

Should you have any further questions, please contact my office or Carla Stevens in the Research and Accountability Department at (713) 556-6700.

TITLE I, PART A STUDENT ACHIEVEMENT

2011–2012

Executive Summary

Program Description

The Title I, Part A program is designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and achieve, at a minimum, proficiency on challenging state academic achievement standards and assessments. The program's goal is accomplished by providing supplemental funding for educational programs to Title I, Part A schools.

Title I, Part A school programs are implemented on either a schoolwide or targeted assistance basis. According to the Title I, Part A Implementation Guide (Department of External Funding, 2005), a schoolwide program permits a school with 40% or greater of its students at the poverty level to use funds from Title I, Part A and other federal education program funds and resources to improve the educational program of the entire school in order to raise academic achievement for all students. This contrasts with the targeted assistance program, through which Title I, Part A funds are used only to provide supplementary educational services for eligible students who are economically disadvantaged. In 2011–2012, all HISD Title I schools were designated as schoolwide campuses according to the Title I, Part A Budget Manual (Department of External Funding, 2011).

Schoolwide programs can use their Title I, Part A funds in the manner they choose as long as they engage in reform strategies that increase the amount and quality of learning and help provide a high-quality curriculum for all children. These strategies must be included in a comprehensive plan to help children meet the state's student performance standards.

Purpose of the Evaluation Report

The purpose of this report is to assess the gains and evaluate the Title I, Part A student achievement performance on the state's standardized tests and HISD's norm-referenced tests. This report discusses student performance on the State of Texas Assessments of Academic Readiness (STAAR), Texas Assessment of Knowledge and Skills (TAKS), Stanford 10, and Aprenda 3. Since STAAR has only been administered for one school year and the standards were not set for grades 3–8, the STAAR results only show percent correct for 2011–2012 while the TAKS, Stanford 10, and Aprenda 3 data show comparisons between 2010–2011 and 2011–2012. Results are aggregated by school, school office, and district.

Highlights

- Overall, for the district on the STAAR, students in grades 3–8 scored 63 percent correct in reading, 58 percent in math, 59 percent in writing, 66 percent in science, and 51 percent in social studies.
- On the STAAR, Pin Oak Middle School scored the highest overall in writing (75 percent correct) and social studies (71 percent correct). Kolter Elementary scored highest in reading (82 percent correct), School at St. George Place scored highest in science (87 percent correct), and Oak Forest Elementary scored highest in math (82 percent correct). Las Americas Middle School scored the lowest overall in reading (32 percent correct) and writing (34 percent correct). High School Ahead Academy scored the lowest overall in math (31 percent correct) and social studies (29 percent correct). Pro-Vision School scored the lowest overall in science (39 percent correct).

- A total of 55,960 STAAR End of Course exams were given in the district, and 68 percent of them met the satisfactory standard.
- During the 2011–2012 school year, TAKS was only administered to students in grades 10 and 11. Eighty-nine percent of students passed English language arts (ELA), 81 percent passed math, 81 percent passed science, and 95 percent passed social studies. Students from grade 11 outperformed students from grade 10 in math and science by approximately 20 percentage points. There were no major differences in passing rates between 2010–2011 and 2011–2012. Passing rates increased for grade 10 in math, science, and social studies and for grade 11 in math and science. The passing rate decreased in ELA for grade 11.
- Two schools had a passing rate of 100 percent for all TAKS subjects in 2011–2012: DeBakey High School for Health Professions and East Early College High School. The lowest overall TAKS passing rates belonged to Hope Academy (51 percent in ELA, 16 percent in math, 27 percent in science, 68 percent in social studies) and Vision Academy (71 percent in ELA, 4 percent in math, 22 percent in science, and 61 percent in social studies).
- On the Stanford 10, total performance remained flat or dropped by one or two NCEs from 2010–2011 to 2011–2012 in each subject area. Overall for the district, reading was at 46 NCEs, math was at 53 NCEs, language was at 48 NCEs, science was at 54 NCEs, and social science was at 48 NCEs.
- On the Stanford 10, Kolter Elementary School, Lanier Middle School, and Pin Oak Middle School scored consistently near the top across all subject areas. Las Americas Middle School and TSU Charter Lab School scored consistently near the bottom and less than 50 NCEs across all subject areas.
- On the Aprenda 3, total performance decreased by three to eight NCEs from 2010–2011 to 2011–2012 in each subject area. Overall for the district, reading was at 71 NCEs, math was at 72 NCEs, language was at 75 NCEs, science was at 71 NCEs, and social science was at 73 NCEs.
- On the Aprenda 3, Mading Elementary School scored the highest in reading, math, language, and science. Bastian Elementary scored the highest in social science. Hamilton Middle School scored the lowest and was the only school to score below 50 NCEs across all five subject areas.

Recommendations

1. Schools should consider allocating more Title I funds to uphold teacher quality by training them in research-based practices and interventions.
2. The district should review the practices of the highest performing Title I schools and encourage other Title I schools to adopt similar practices.
3. Benchmark test results should be used to identify students who need additional academic intervention.

Administrative Response

The purpose of the Title I, Part A Program is to ensure that all children, particularly low achieving children in the highest-poverty schools, have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and State academic assessments.

To ensure alignment with the core initiatives of the district's strategic direction, the Department of External Funding will continue to work with campuses and departments on the following practices to ensure academic achievement of all students attending Title I, schoolwide campuses:

- The Title I, Part A Program Orientation at the beginning of the school year will give campuses an opportunity to share feedback on successful strategies used to increase test scores.
- Work with the Parent Engagement Department to implement early literacy parent involvement activities on campuses.
- Monitor closely the use of Title I funds on campuses; guide Title I schoolwide campuses in providing additional tutorials and intervention programs that will address the academic weaknesses indicated in the Title I, Part A Student Achievement Report.
- Work closely with Human Resources to lower the percentage of non-highly qualified teachers on Title I school wide campuses:
 - Identify teachers that are not highly qualified; provide professional development for these teachers utilizing Title I funds that are set aside for teachers to achieve success on the Texas Examinations of Educator Standards (TExES) program.
 - Provide support to campus administrators to discourage hiring non-highly qualified teachers.
- Teacher Development Specialists, positions funded by the Title I, Part A Program, will work with teachers and principals to review performance data and development plans, and to identify teachers' strengths and prioritize most pressing development needs to increase student achievement.

In conclusion, the Department of External Funding will continuously provide support, guidance and resources to all Title I, Part A schoolwide campuses to ensure Title I schools are in compliance with state and federal mandates as well as assist campuses in maximizing the uses of their Title I funds to increase student academic achievement.

Introduction

The Title I, Part A program developed out of the Elementary and Secondary Education Act (ESEA) from 1965 and the No Child Left Behind Act (NCLB) from 2001. The Title I, Part A program is designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and achieve, at a minimum, proficiency on challenging state academic achievement standards and assessments. The program's goal is accomplished by providing supplemental funding for educational programs to Title I, Part A schools, which have a high percentage of students living in poverty.

Supporting Research

Research dating back to Coleman's study *Equality of educational opportunity* (1966) has consistently shown that there is a strong correlation between students' socioeconomic status and academic performance. For this reason, Title I funds are given to schools in high-poverty environments with hopes that the additional funds can enrich their educational programs and raise academic performance. There are many indicators of academic growth and improvement, but student test results are the most commonly accepted. After NCLB went into effect, early research done by the U.S. Department of Education (2007) showed that student achievement on state assessments increased in most states between 2002 and 2005 but not at a rate fast enough to reach 100% proficiency by 2013–2014. Data in this report corroborate this prediction. While many students are making performance gains, the gap between low-income and high-income students is not necessarily shrinking (Center on Education Policy, 2010). Although this report focuses on the Title I program, these trends are not solely dependent on Title I funds as there are numerous factors that affect student performance.

Method

Data Collection

Student data were obtained using a variety of sources. The Public Education Information Management System (PEIMS) database is the statewide data collection and reporting system operated by the Texas Education Agency (TEA) and includes extensive information on students. Student demographics by ethnicity and Title I status were taken from the October 2010–2011 and 2011–2012 PEIMS snapshot files.

Student performance on STAAR, TAKS, Stanford 10, and Aprenda 3 were extracted from these respective tests' databases. Although students are allowed to re-take the STAAR and TAKS as needed, this report only considered the first administration.

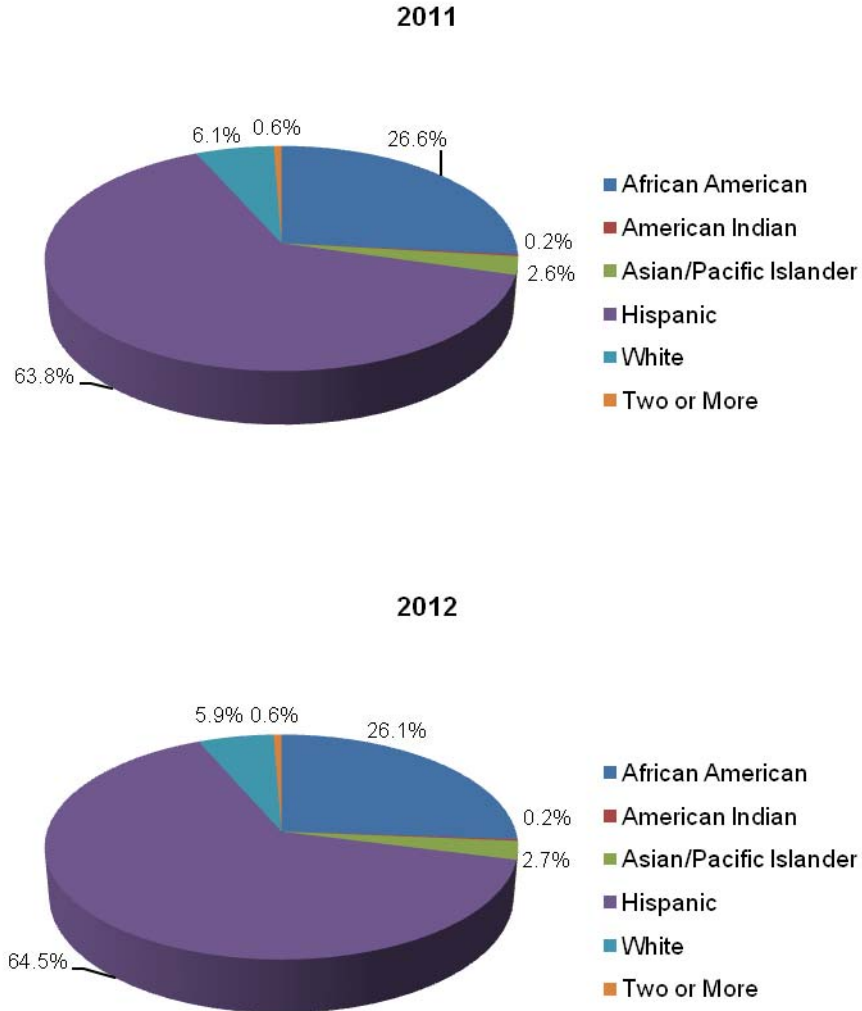

In the 2011–2012 school year, there were 258 Title I, Part A campuses as compared to 276 Title I, Part A campuses in the 2010–2011 school year. Schools with a change in Title I status from 2010–2011 to 2011–2012 are shown in **Table 1** (page 5). The 258 campuses from 2011–2012 consisted of eight early childhood centers, 152 elementary schools, 46 middle schools, 41 high schools, and eleven combined grade schools. All were designated as schoolwide campuses.

Table 1: 2011–2012 Title I Status Changes		
Status		Schools
2010–2011	2011–2012	
Non Title I	Title I	DeAnda Elementary School (New)

		Stevenson Elementary School
		WALIPP

Four schools, which were designated Title I campuses in 2010–2011 (Briarmeadow Elementary School, The Rice School, International High School at Sharpstown, and Carter Woodson Middle School), merged with existing schools to become Briarmeadow Charter School, The Rice School, Sharpstown International School, and Woodson School respectively. All of these merged schools were again designated Title I campuses for 2011–2012.

The 2011–2012 Title I schools had a total enrollment of 189,838 students, an increase of 691 students from 2010–2011. Hispanic students make up the largest demographic group at 64.5 percent. This percentage increased slightly from 2010–2011 when Hispanic students made up 63.8 percent of the students from these 258 campuses (**Figure 1**, page 6).

Figure 1: Student Demographics for 2011–2012 Title I Schools, 2010–2011 and 2011–2012

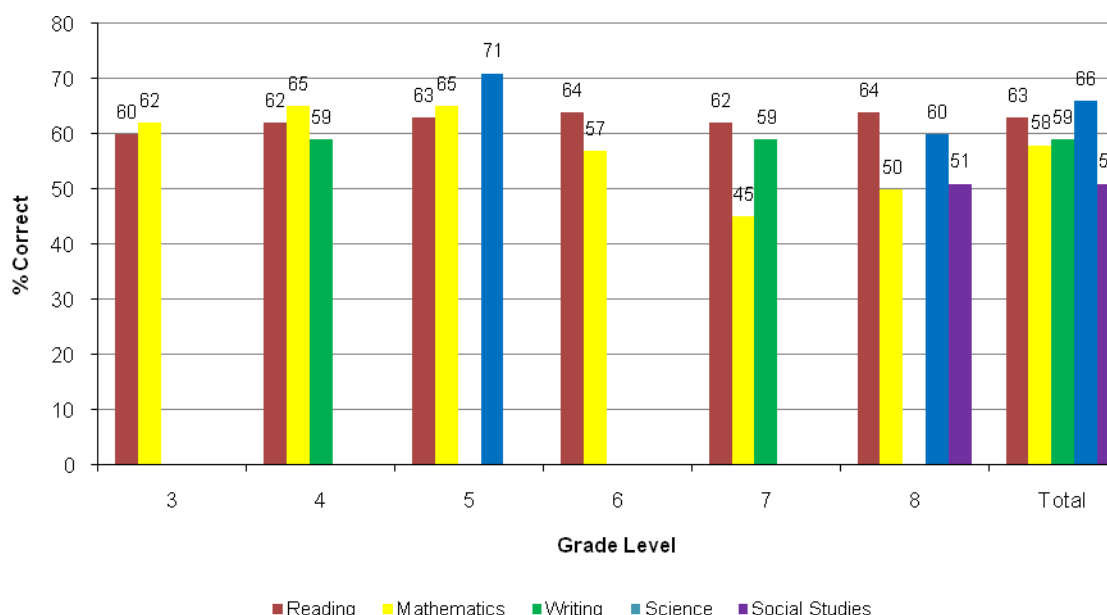

Data Limitations

By relying on PEIMS for student enrollment information, it is possible that students served by Title I, Part A who enrolled after the first submission are not counted in the analysis. Where information was not available, notes were inserted as appropriate.

Results

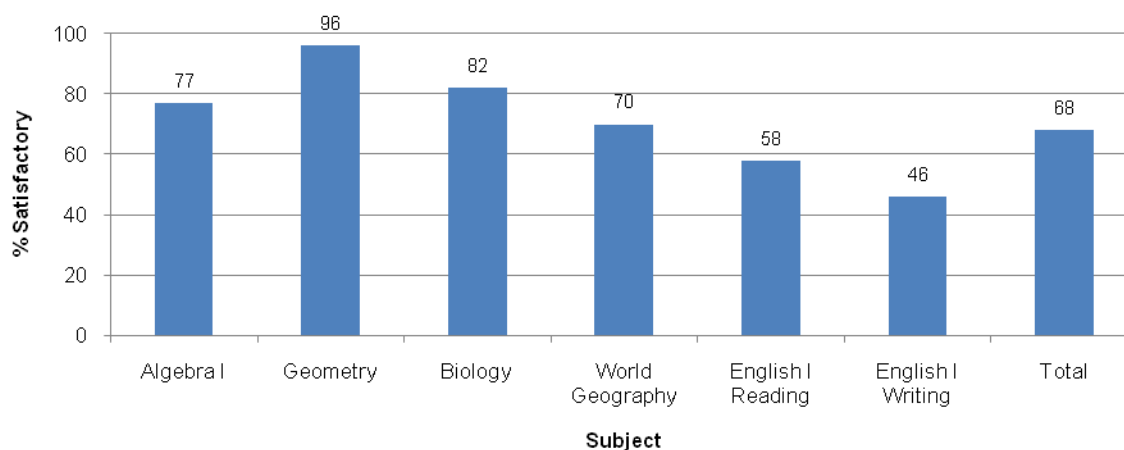

- Overall for the district on the STAAR, students in grades 3–8 scored 63 percent correct in reading, 58 percent in math, 59 percent in writing, 66 percent in science, and 51 percent in social studies. Since STAAR was administered for the first time during the 2011–2012 school year, standards had not yet been established for grades 3–8 at the time of this report and comparisons cannot be made against previous school years. This report only lists the percentage of correct answers across grade levels and subject areas (**Figure 2**, page 7).

Figure 2: Grades 3–8 STAAR English or Spanish Percent Correct, Spring 2012

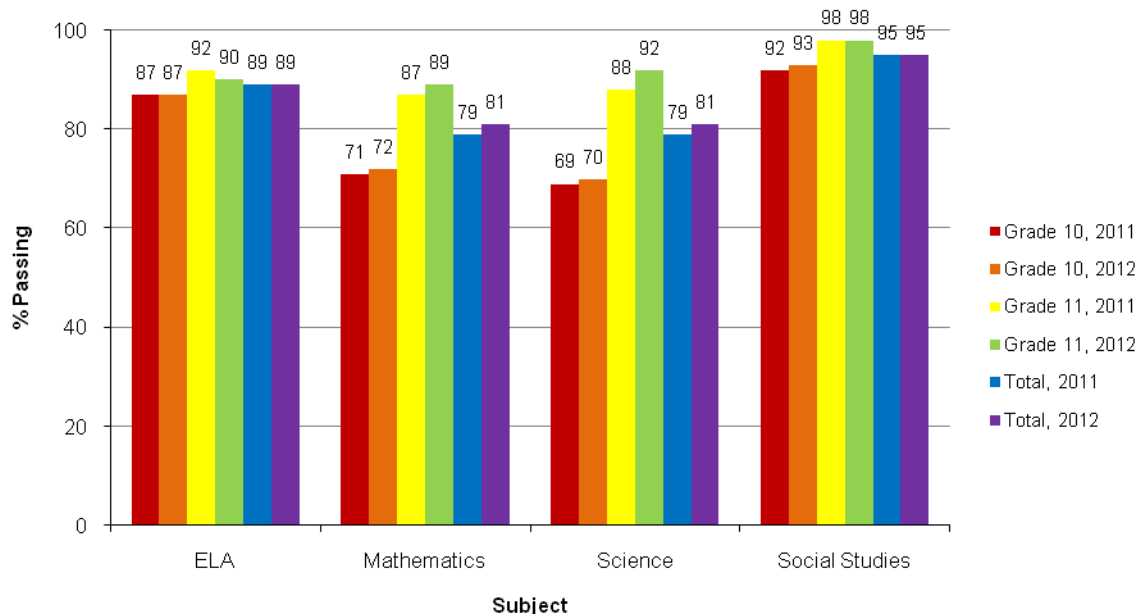

- On the STAAR, Pin Oak Middle School scored the highest overall in writing (75 percent correct) and social studies (71 percent correct). Kolter Elementary scored highest in reading (82 percent correct), School at St. George Place scored highest in science (87 percent correct), and Oak Forest Elementary scored highest in math (82 percent correct). Las Americas Middle School scored the lowest overall in reading (32 percent correct) and writing (34 percent correct). High School Ahead Academy scored the lowest overall in math (31 percent correct) and social studies (29 percent correct). Pro-Vision School scored the lowest overall in science (39 percent correct) (see school level tables beginning on page 15).
- A total of 55,960 STAAR End of Course exams were given in the district, and 68 percent of them met the satisfactory standard (**Figure 3**).

Figure 3: STAAR End of Course Percent Satisfactory, Spring 2012

- During the 2011–2012 school year, TAKS was only administered to students in grades 10 and 11. Overall, eighty-nine percent of students passed English language arts (ELA), 81 percent passed math, 81 percent passed science, and 95 percent passed social studies. Students from grade 11 outperformed students from grade 10 in math and science by approximately 20 percentage points. There were no major differences in passing rates between 2010–2011 and 2011–2012. Passing rates increased for grade 10 in math, science, and social studies and for grade 11 in math and science. The passing rate decreased in ELA for grade 11 (Figure 4).

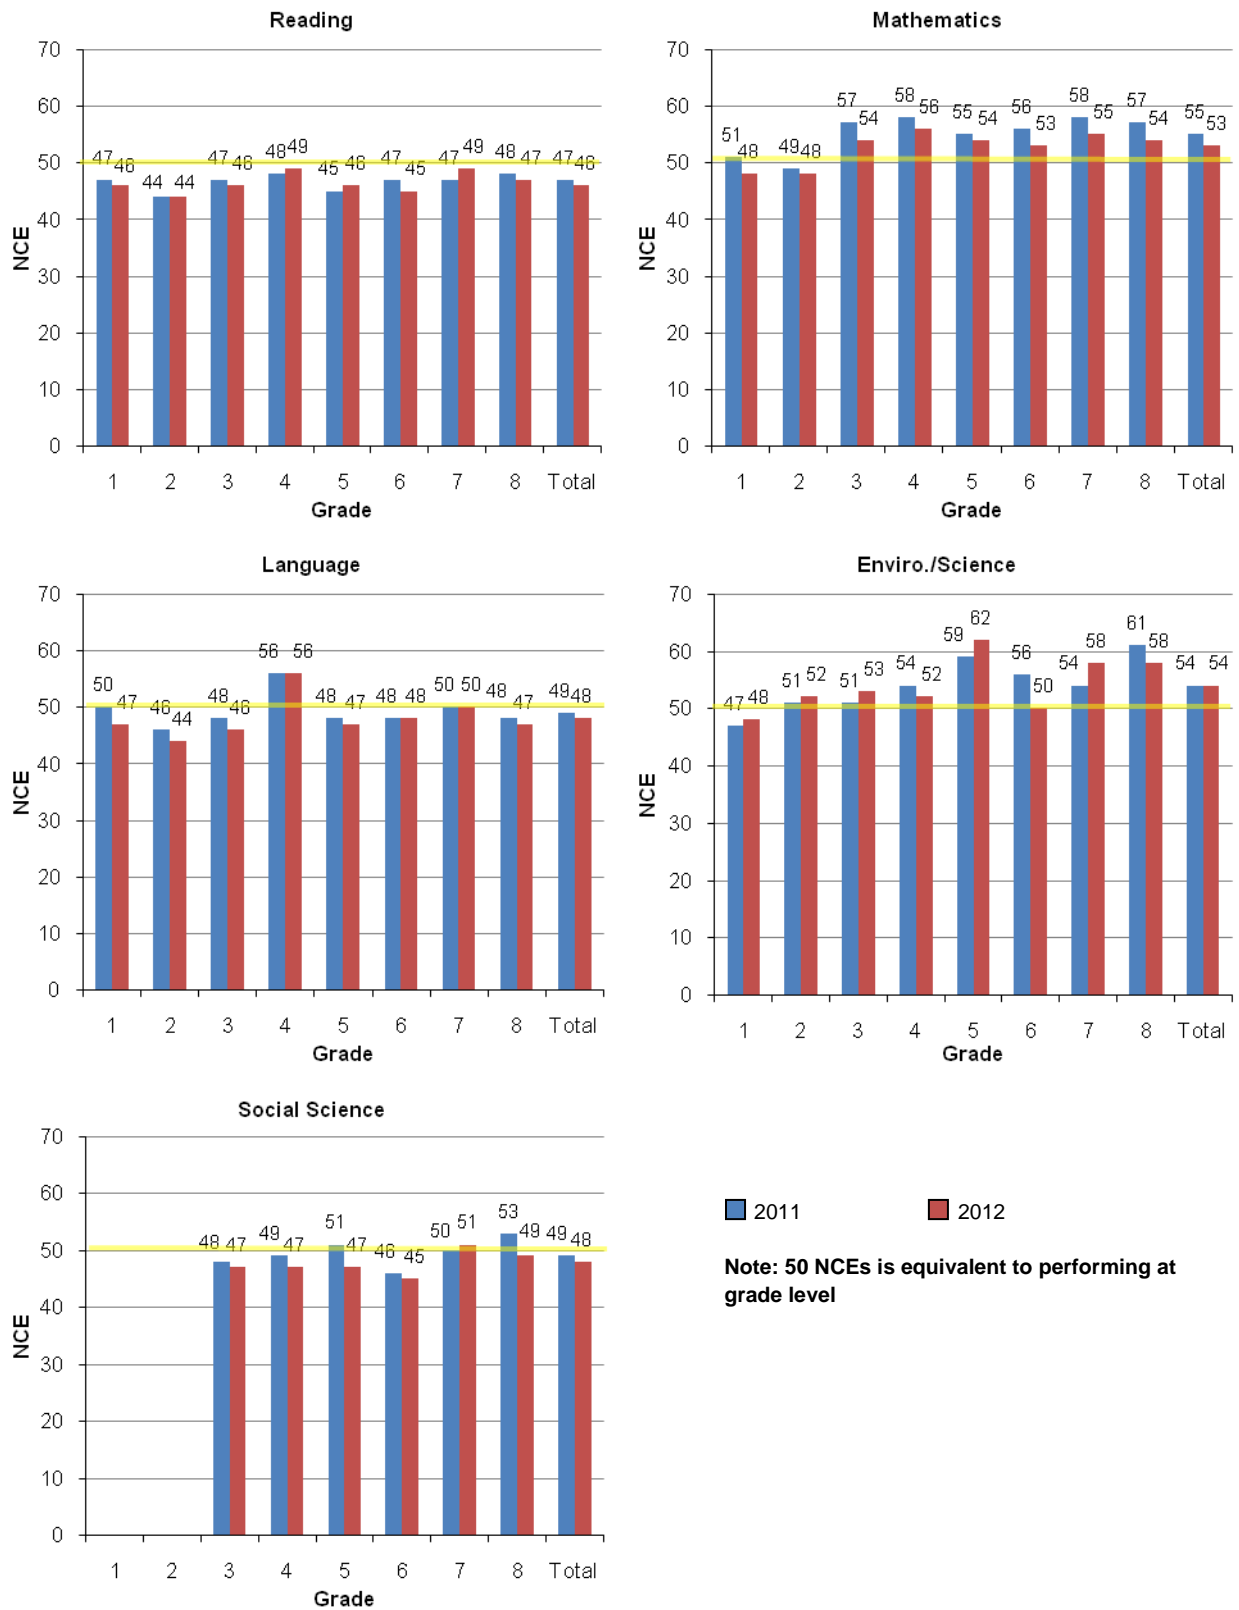

Figure 4: Grades 10–11 TAKS Percent Passing, 2010–2011 and 2011–2012

Note: The objective for 2011–2012 was 87% passing in ELA and 83% in math.

- Two schools had a passing rate of 100 percent for all TAKS subjects in 2011–2012: DeBakey High School for Health Professions and East Early College High School. The lowest overall TAKS passing rates belonged to Hope Academy (51 percent in ELA, 16 percent in math, 27 percent in science, 68 percent in social studies) and Vision Academy (71 percent in ELA, 4 percent in math, 22 percent in science, and 61 percent in social studies) (see school level tables beginning on page 15).
- On the Stanford 10, total performance remained flat or dropped by one or two NCEs from 2010–2011 to 2011–2012 in each subject area. Overall for the district, reading was at 46 NCEs, math was at 53 NCEs, language was at 48 NCEs, science was at 54 NCEs, and social science was at 48 NCEs (Figure 5, page 9).

Figure 5: Grades 1–8 Stanford 10 Non-Special Education NCEs, 2010–2011 and 2011–2012

- On the Stanford 10, Kolter Elementary School, Lanier Middle School, and Pin Oak Middle School scored consistently near the top across all subject areas. Las Americas Middle School and TSU Charter Lab School scored consistently near the bottom and less than 50 NCEs across all subject areas (see school level tables beginning on page 15).
- On the Aprenda 3, total performance decreased by three to eight NCEs from 2010–2011 to 2011–2012 in each subject area. Overall for the district, reading was at 71 NCEs, math was at 72 NCEs, language was at 75 NCEs, science was at 71 NCEs, and social science was at 73 NCEs (**Figure 6**).

Figure 6: Grades 1–8 Aprenda 3 Non-Special Education NCEs, 2010–2011 and 2011–2012

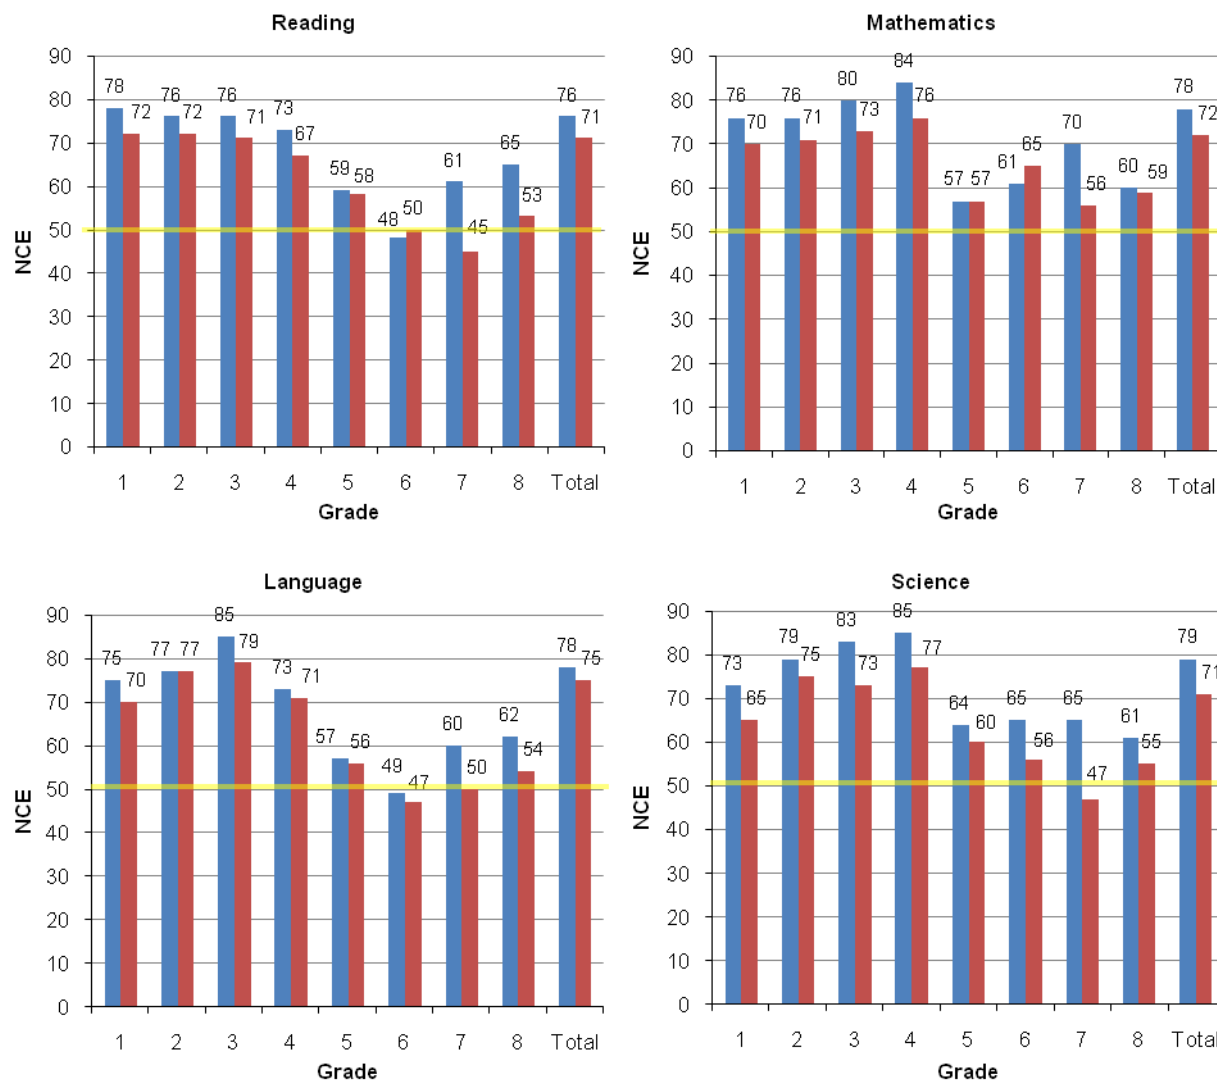

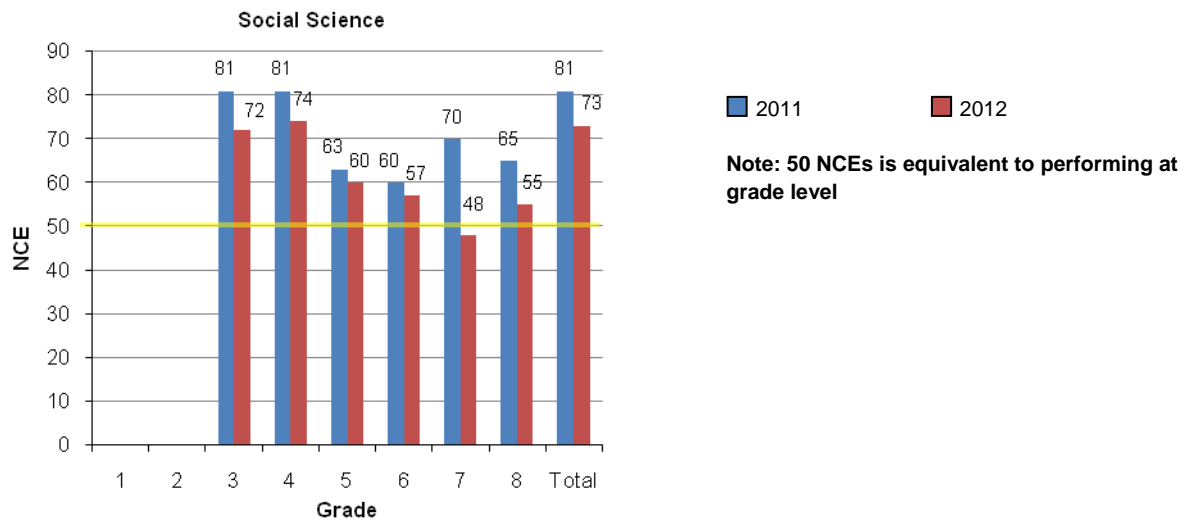

Figure 5 (continued)

- On the Aprenda 3, Mading Elementary School scored the highest in reading, math, language, and science. Bastian Elementary scored the highest in social science. Hamilton Middle School scored the lowest and was the only school to score below 50 NCEs across all five subject areas (see school level tables beginning on page 15).

Discussion

Title I funds, on their own, cannot improve student achievement. The funds need to be applied toward academic interventions and initiatives that are proven to be effective based on empirical data. Therefore, the accountability requirements for schools to report their data and meet set standards are necessary and helpful in ensuring progress for Title I schools. Since the goal of the Title I program is to provide equal academic opportunities for schools serving a high percentage of students living in poverty, this report must be used in conjunction with other reports that detail the interventions being used.

Based on the data in this report, Title I schools should consider applying more resources toward preparing students for the STAAR End of Course exams in history, reading, and writing. Compared to other course subjects, these had a lower percentage of students (below 60 percent) meeting the satisfactory standard.

In general, students' scores correlate between STAAR, Aprenda 3, and Stanford 10. On the STAAR, the grade levels and course subjects with the lowest percent correct were grade 7 math (45 percent correct), grade 8 math (50 percent correct), and grade 8 social studies (51 percent). On the Stanford, most grade levels scored below 50 NCEs on average in reading, language, and social science. Schools may also consider directing additional resources to improve performance in these areas.

Two or More	1	1	0
Total Enrollment	352	299	-53

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "*" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "***" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.
