

## MEMORANDUM

November 19, 2015

TO: Board Members

FROM: Terry B. Grier, Ed.D.  
Superintendent of Schools

SUBJECT: **TITLE I, PART A STUDENT ACHIEVEMENT REPORT 2014–2015**

CONTACT: Carla Stevens, 713-556-6700

Attached is a copy of the Title I, Part A Student Achievement Report for 2014–2015. This report reflects student performance on the State of Texas Assessments of Academic Readiness (STAAR), Iowa, and Logramos and is required under Title I regulations. Differences in student performance from 2013–2014 to 2014–2015, by the total number of students tested, grade level, and subject area are presented at the campus, school office, and district levels. Student demographic data are also noted.

Some of the highlights are as follows:

- Overall, for Title I campuses in the district on the STAAR, 64 percent of students in grades 3–8 met the satisfactory standard in reading, 67 percent in math, 61 percent in writing, 60 percent in science, and 52 percent in social studies. From 2013–2014 to 2014–2015, the percentage of students meeting the satisfactory standard fell two points in reading, four points in writing, and three points in science. The percentage of students meeting the satisfactory standard remained the same in mathematics and increased by two points in social studies.
- A total of 66,118 STAAR End-of-Course exams were given to students from Title I campuses in HISD and 67 percent of those students met the satisfactory standard. The percentage of students meeting the satisfactory standard decreased in all subject areas. The exams with the highest percentages of students meeting the satisfactory standard were Algebra I at 72 percent, Biology at 84 percent, and U.S. History at 86 percent.
- The Iowa and Logramos tests were implemented for the first time in the district in 2014–2015. On the Iowa test, for Title I campuses in the district, 32 percent of students scored above the 50<sup>th</sup> national percentile rank in reading, 43 percent scored above the 50<sup>th</sup> percentile in language, 49 percent on the mathematics subtest, 39 percent on English/Language Arts, 43 percent on science, and 41 percent on the complete composite.
- On the Logramos, for Title I campuses in the district, 89 percent of students scored above the 50<sup>th</sup> percentile on reading, 84 percent scored above the 50<sup>th</sup> percentile on language, 88 percent on mathematics, 87 percent on English/Language Arts, 78 percent on social studies, 83 percent on science, and 89 percent on the complete composite.

Should you have any further questions, please contact my office or Carla Stevens in the Research and Accountability Department at (713) 556-6700.

# TITLE I, PART A STUDENT ACHIEVEMENT 2014–2015

## Executive Summary

### Program Description

The Title I, Part A program is designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and achieve, at a minimum, proficiency on challenging state academic achievement standards and assessments. The program's goal is accomplished by providing supplemental funding for educational programs to Title I, Part A schools.

Title I, Part A school programs are implemented on either a schoolwide or targeted assistance basis. According to the Guidance for the Implementation of Title I, Part A (Texas Education Agency, 2010), a schoolwide program permits a school with 40 percent or more of its students at the poverty level to use funds from Title I, Part A and other federal education program funds and resources to improve the educational program of the entire school in order to raise academic achievement for all students. This contrasts with the targeted assistance program, through which Title I, Part A funds are used only to provide supplementary educational services for eligible students who are economically disadvantaged. In 2014–2015, all Houston ISD Title I schools were designated as schoolwide campuses.

Schoolwide programs can use their Title I, Part A funds in the manner they choose as long as they engage in reform strategies that increase the amount and quality of learning and help provide a high-quality curriculum for all children and the funds are used to supplement, rather than supplant, the regular educational program. These strategies must be included in a comprehensive plan to help children meet the state's student performance standards.

### Purpose of the Evaluation Report

The purpose of this report is to evaluate the student achievement performance on the state's standardized tests and Houston ISD's norm-referenced tests for students in Title I, Part A schools. This report discusses student performance on the State of Texas Assessments of Academic Readiness (STAAR), Iowa, and Logramos tests. Results are aggregated by school, school office, and district.

### Highlights

- Overall, for Title I campuses in the district on the STAAR, 64 percent of students in grades 3–8 met the satisfactory standard in reading, 67 percent in math, 61 percent in writing, 60 percent in science, and 52 percent in social studies. From 2013–2014 to 2014–2015, the percentage of students meeting the satisfactory standard fell two points in reading, four points in writing, and three points in science. The percentage of students meeting the satisfactory standard remained the same in mathematics from 2013–2014 to 2014–2015 and increased by two points in social studies.
- A total of 66,118 STAAR End-of-Course exams were given to students from Title I campuses in HISD and 67 percent of those students met the satisfactory standard. The percentage of students meeting the satisfactory standard decreased in all subject areas from 2013–2014 to 2014–2015. The exams with the highest percentages of students meeting the satisfactory standard were Algebra I at 72 percent, Biology at 84 percent, and U.S. History at 86 percent.
- The Iowa and Logramos tests were implemented for the first time in the district in 2014–2015. On the Iowa test, for Title I campuses in the district, 32 percent of students scored above the 50<sup>th</sup> national

percentile rank in reading, 43 percent scored above the 50<sup>th</sup> percentile in language, 49 percent on the mathematics subtest, 39 percent on ELA, 39 percent on social studies, 43 percent on science, and 41 percent on complete composite.

- On the Logramos, for Title I campuses in the district, 89 percent of students scored above the 50<sup>th</sup> percentile on reading, 84 percent scored above the 50<sup>th</sup> percentile on language, 88 percent on mathematics, 87 percent on ELA, 78 percent on social studies, 83 percent on science, and 89 percent on complete composite.

## Recommendations

1. The district should review the practices of the highest performing Title I schools and encourage other Title I schools to adopt similar practices.
2. Benchmark test results should be used to identify students who need additional academic intervention.
3. Additional interventions such as tutoring should be used more heavily at consistently low-performing schools.
4. Additional resources can also be directed toward the subject areas and grade levels that had lower performance results.

## Administrative Response

The Improving Basic Programs Operated by Local Education Agencies effort in Title I, Part A of the Elementary and Secondary Education Act (ESEA), as amended by the No Child Left Behind Act (NCLB), provides supplemental funding to state and local education agencies. This funding pays for resources to assist schools with high concentrations of students from low-income families. These resources improve education quality and help ensure that all children in low-income environments meet the state's student performance standards. Title I, Part A provides support to schools, to aid in the implementation of either a schoolwide program or a targeted assistance program. Title I, Part A programs use effective methods and instructional strategies that are grounded in scientific research.

The Department of External Funding will continue to work with campuses and departments (as listed below), to address the aforementioned recommendations, and thus, increase the academic achievement of all students attending Title I, Part A schoolwide campuses. The recommendations are as follows:

1. The district should review the practices of the highest performing Title I schools and encourage other Title I schools to adopt similar practices. The External Funding Department response includes:
  - Providing campuses an opportunity to share feedback on successful strategies used to increase test scores during the Title I, Part A Program orientation at the beginning of the school year.
  - Partnering with the Family and Community Engagement Department on supporting campuses in creating a campus atmosphere that fosters the following components of parent involvement that positively contribute to student achievement: Parenting, Communicating, Volunteering, Learning at Home, Decision Making, and Collaborating with the Community.
2. Benchmark test results should be used to identify students who need additional academic intervention. The External Funding Department responds by requiring identified schools to participate in the Focus and Priority federal grant program, for which the following criteria exist:

- FOCUS SCHOOLS: Title I schools ranked by the widest gaps in reading/math performance in one or more of the seven federal student ethnicity groups and safeguard targets of 75 percent.
  - PRIORITY SCHOOLS: Title I schools with the lowest achievement on reading/math system safeguards at all student levels, Title I high schools with graduation rates less than 60 percent, and/or TTIPS grantees.
3. Additional interventions such as tutoring should be used more heavily at consistently low-performing schools. The External Funding Department response includes:
- Providing campuses with adequate budget information that aligns with the guidelines and policies of the Title I Part A, Program as well as maximizes the use of Title I, Part A, funds to upgrade the entire educational program.
  - Monitoring closely the use of Title I funds on campuses and guiding Title I schoolwide campuses in providing additional tutorials and intervention programs that will address the academic weaknesses indicated in the Title I, Part A Student Achievement Report.
4. Additional resources can also be directed toward the subject areas and grade levels that had lower performance results. The External Funding response includes:
- Working closely with Human Resources to lower the percentage of non-highly qualified teachers on Title I schoolwide campuses by:
    - Identifying teachers that are not highly qualified and providing professional development for those teachers utilizing Title I funds (Highly Qualified) that are set-aside for teachers to achieve success on the TExES.
    - Providing support to campus administrators to discourage hiring of non-highly qualified teachers.
    - Hiring, promoting, or transferring only highly qualified Core Academic Teachers into full-time classroom positions.
    - Developing Individualized Certification Plans for non-highly qualified teachers to achieve highly qualified status.
  - Encouraging the school's use of an intervention teacher—an allowable Title I, Part A campus position—to improve student performance in specific subject areas or a Teacher Development Specialist—a district position funded by the Title I, Part A Program—to work with teachers and principals to review performance data and development plans, and to identify teachers' strengths and prioritize most pressing development needs to increase student achievement.

In conclusion, the Department of External Funding will continuously provide support, guidance, and resources to all Title I, Part A schoolwide campuses to ensure Title I schools are in compliance with state and federal mandates as well as assist campuses in maximizing the use of their Title I funds to increase student academic achievement.

## Introduction

The Title I, Part A program developed out of the Elementary and Secondary Education Act (ESEA) from 1965 and the No Child Left Behind Act (NCLB) from 2001. The Title I, Part A program is designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and achieve, at a minimum, proficiency on challenging state academic achievement standards and assessments. The program's goal is accomplished by providing supplemental funding for educational programs to Title I, Part A schools, which have a high percentage of students living in poverty.

### Supporting Research

Research dating back to Coleman's study *Equality of Educational Opportunity* (1966) has consistently shown that there is a strong correlation between students' socioeconomic status and academic performance. For this reason, Title I funds are given to schools in high-poverty environments with hopes that the additional funds can enrich their educational programs and raise academic performance. There are many indicators of academic growth and improvement, but student test results are the most commonly accepted. After NCLB was implemented in 2001, early research done by the U.S. Department of Education (2007) showed that student achievement on state assessments increased in most states between 2002 and 2005 but not at a rate fast enough to reach 100% proficiency by 2014–2015. Data in this report corroborate this prediction. While many students are making performance gains, the gap between low-income and high-income students is not necessarily shrinking (Center on Education Policy, 2010). Although this report focuses on the Title I program, these trends are not solely dependent on Title I funds as there are numerous factors that affect student performance.

## Method

### Data Collection

Student data were obtained using a variety of sources. The Public Education Information Management System (PEIMS) database is the statewide data collection and reporting system operated by the Texas Education Agency (TEA) and includes extensive information on students. Student demographics by ethnicity and Title I status were taken from the October 2013–2014 and 2014–2015 PEIMS snapshot files.

Student performance at Title I schools on STAAR, STAAR EOC, Iowa, and Logramos assessments were extracted from the relevant test databases. The data for STAAR includes non-special education students, who were tested in English or Spanish on the regular test version (STAAR L, A, and Alt2 results were excluded). Although students are allowed to re-take the STAAR as needed, this report only considered the first administration. STAAR EOC results in the 2013–2014 and 2014–2015 data include first-time testers and re-testers. Please note that, while 2014–2015 grades 3–8 campus-level mathematics results are reported, they were excluded from the 2015 state accountability system. The component tests included in the Iowa/Logramos assessments included reading, language, mathematics, English language arts, social studies, and science; based on the composite tests, complete composite scores were calculated.

In the 2014–2015 school year, there were 261 Title I, Part A campuses as compared to 259 Title I, Part A campuses in the 2013–2014 school year. Schools with a change in Title I status from 2013–2014 to 2014–2015 are shown in **Table 1** (page 5). The 261 campuses from 2014–2015 consisted of 11 early childhood centers, 151 elementary schools, 40 middle schools, 42 high schools, and 17 combined grade schools. All were designated as schoolwide campuses.

Table 1: 2014–2015 Title I Status Changes		
Status		Schools
2013–2014	2014–2015	
Non-Title I	Title I	Condit Elementary School
		Middle College High School HCC – Gulfton (New)
		Middle College High School HCC – Fraga (New)
Title I	Closed	Dodson Elementary School

The 2014–2015 Title I schools had a total enrollment of 201,862 students, an increase of 4,170 students from the 2013–2014 school year. Hispanic students made up the largest demographic group at 64.4 percent (**Figure 1**).

**Figure 1: Student demographics for Title I schools, 2013–2014 and 2014–2015**

Figure 1 (continued)

Source: PEIMS fall snapshot, 2013 and 2014

### Data Limitations

By relying on PEIMS for student enrollment information, it is possible that students served by Title I, Part A who enrolled after the fall snapshot are not counted in the analysis. Where information was not available, notes were inserted as appropriate.

### Results

- Overall, for 2014–2015 Title I campuses in the district on the STAAR, 64 percent of students in grades 3–8 met the satisfactory standard in reading, 67 percent in math, 61 percent in writing, 60 percent in science, and 52 percent in social studies. From 2013–2014 to 2014–2015, the percent of students meeting the satisfactory standard fell two points in reading, four points in writing, and three points in science. The rate of students meeting the satisfactory standard from 2013–2014 to 2014–2015 remained constant in math and increased by two points in social studies. Social studies performance continues to lag behind student performance in other subject areas (**Figure 2**).
- On the 2014–2015 STAAR grades 3–8, among Title I schools, Young Women’s College Preparatory Academy performed the highest on reading (98 percent satisfactory) and writing (98 percent satisfactory). The Mandarin Chinese School performed the highest on math (99 percent satisfactory). On the science test, Project Chrysalis Middle School performed the highest, with 94 percent of students meeting the satisfactory standard. Energized for STEM Middle School Southeast and Wharton Dual Language Academy tied for top performance on social studies, with 100 percent of students meeting the satisfactory standard (**Appendix A**, pp.13–18).

- Among the low performers, Las Américas Middle School scored the lowest on reading (two percent satisfactory) and writing (four percent satisfactory). On the math test, Inspired for Excellence Academy West had the lowest performance (26 percent satisfactory). High School Ahead Academy performed the lowest on science (six percent satisfactory) and social studies (four percent satisfactory).

**Figure 2: Grades 3–8 STAAR English and Spanish percent satisfactory for Title I schools, 2013–2014 and 2014–2015**

Source: Cognos, STAAR 3–8 Test, September 3, 2015

- A total of 66,118 STAAR End-of-Course (EOC) exams were given to students from Title I campuses in HISD and 67 percent of those students met the satisfactory standard. The percentage of students meeting the satisfactory standard decreased in all subject areas from 2013–2014 to 2014–2015. Specifically, performance decreased by one percentage point on the Biology exam, by two percentage points on both the Algebra I and English I exams, by three percentage points on the English II exam, and by four percentage points on the U.S. History exam. As in 2013–2014, in 2014–2015 the exams with the lowest percentages of students meeting the satisfactory standard were English I at 49 percent and English II at 52 percent (**Figure 3**).
- On the STAAR EOC, among Title I schools, Challenge High School, DeBakey High School for Health Professions, East Early College High School, and Eastwood Academy for Achievement scored consistently at or near 100 percent, across all subjects (**Appendix B**, pp.19–25).

**Figure 3: STAAR End of Course percent satisfactory for Title I schools, 2013–2014 and 2014–2015**

**Note: 2013–2014 and 2014–2015 data include first-time testers and re-testers.**

Source: Cognos, STAAR EOC Test, August 31, 2015

- On the Iowa, for Title I campuses in the district, 32 percent of students scored at or above the 50<sup>th</sup> percentile for reading, 43 percent for language, 49 percent for mathematics, 39 percent for ELA, 39 percent for social studies, 43 percent for science, and 41 percent for complete composite. Refer to **Figure 4** for Iowa results by grade level.
- On the Iowa among Title I schools, Baylor College of Medicine Academy at Ryan, the Mandarin Chinese School, Oak Forest Elementary School, and Travis Elementary School scored consistently near the top across all subject areas. Las Américas Middle School and Harper Alternative School scored consistently near the bottom with below seven percent of students scoring above the 50<sup>th</sup> percentile across all subject areas (**Appendix C**, pp. 26–31).

**Figure 4: Grades 1–8 lowa non-special education performance for Title I schools: 2014–2015**

Source: Riverside Houghton Mifflin Harcourt Iowa file, 2015

- On the Logramos, for Title I campuses in the district, 89 percent of students scored at or above the 50<sup>th</sup> percentile for reading, 84 percent for language, 88 percent for mathematics, 87 percent for language arts, 78 percent for social studies, 83 percent for science, and 89 percent for complete composite. Refer to **Figure 5** (p.10) for Logramos results by grade level.
- On the Logramos among Title I schools, Crockett Elementary School, Lyons Elementary School, and the Rice School scored consistently at or above 95 percent across all subject areas (**Appendix D**, pp. 32–35).

**Figure 5: Grades 1–8 Logramos non-special education performance for Title I schools: 2014–2015**

Source: Riverside Houghton Mifflin Harcourt Logramos file, 2015

## Discussion

Title I funds, on their own, cannot improve student achievement. The funds need to be applied toward academic interventions and initiatives that are proven to be effective based on empirical data. Therefore, the accountability requirements for schools to report their data and meet set standards are necessary and

helpful in ensuring progress for Title I schools. Since the goal of the Title I program is to provide equal academic opportunities for schools serving a high percentage of students living in poverty, this report must be used in conjunction with other reports that detail the interventions being used.

Based on the data in this report, Title I schools should consider applying more resources toward preparing students for the social studies STAAR given in grade 8. Traditionally, social studies had the highest passing rate across the TAKS subtests, but the STAAR social studies had the lowest percentage in both 2013–2014 and 2014–2015 (50 percent and 52 percent, respectively) of Title I students meeting the satisfactory standard compared to the totals for other subject areas (at least 60 percent). Performance on the science and writing subtests also declined from 2013–2014 to 2014–2015. Additionally, performance in reading declined over the past year, overall and in all grades except third and fifth. More resources should be directed at improving passing rates in reading for Title I students.

More resources should also be directed toward preparing students for the STAAR End of Course exams in both English I and English II. Compared to other subject areas, the English exams had a lower percentage of Title I students meeting the satisfactory standard (49 and 52 percent, respectively). Performance across all subject areas of the STAAR EOC exams decreased, as compared to last year.

On the IOWA, for all grade levels, except first, the percentage of students scoring at or above the 50<sup>th</sup> percentile was below 50 percent on the reading subtest, which means that Title I students are performing below grade level in reading. The percentage of students scoring at or above the 50<sup>th</sup> percentile for most of the other subject areas was also below 50 percent, with a few exceptions, most notably, in mathematics. More effective interventions in these subject areas and grade levels are needed for Title I students. While Logramos performance was generally higher than IOWA performance, efforts and resources should still be directed here so that decreases are not seen.

Ethnicity	Total Unduplicated (N)		
	2014	2015	(+/-)
African American	165	227	62
American Indian	0	0	0
Asian/Pacific Islander	8	7	-1
Hispanic	198	215	17
White	13	10	-3
Two or More	0	2	2
Total Enrollment	384	461	77

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "\*\*\*" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.
