

# SDMC

May 13, 2019

## Minutes

### Planning

- Early start/end time has not been approved. District has come back several times for more information. Hopefully, we know by the end of the week.
- We are eliminating some athletics.

### Budget

- Budget was revised and will be cutting not 2-3 but 1-2 positions instead. The budget will be short.
- If we are out of IR, we will drop out of Achieve 180. We will lose the funding for interventionist, the nurse, and the counselor. We need to add positions and fill if the budget changes.
- Teacher will lose the stipend
- We may likely need to cut more if the Achieve 180 is cut.
- Teacher concerned that our rating will go down if the budgets are cut and the help is taken away

### Curriculum

- STAAR Testing is done! We need to complete AP testing.

### Professional Development

- We will continue with the career pathways again.
- Principal chooses from the list of approved candidates but has not heard about it yet.
- We should have the same positions for next year.
- We are short funds for PD for the summer due to the reduction of food sales.

### School Organization

- Faculty meeting is for next years policies – have the policy included for the open space
- Open Space—uniform & dress code, hall sweeps/tardy, PLC, 50 minute lesson cycle, classroom management
- Other hot topics or open space activities: threshold, cell phones, laptop policy & chargers—a policy for students to have laptops and charged, role of classroom management—when to call for help and what to handle yourself

### Other/Questions
