

FIELD ELEMENTARY SCHOOL

J. Hendrickson, Principal

PARENT SURVEY

Parents are encouraged to complete the survey to select either face-to-face or virtual instruction.

- September 21-25 – Timeline when parents can make the selection through the HISD Connect Parent Portal.
- The district's Communications Department created a video that provides a glimpse of how schools may look when face-to-face instruction resumes. The video is available in English and Spanish. Below are the video links:
English: <https://youtu.be/BtL7zzlIB6M>
Spanish: <https://youtu.be/O8YaQHWdEiw>
- Below is a link to the HISD's 2020-2021 Reopening Plan:

What will schools look like for face-to-face instruction?

The school will make every attempt to provide:

- Certified teachers will provide instruction in the classroom. In the case of virtual learning, certified in-district teachers will deliver online instruction. It is the school's best intention to have students remain with their current teacher(s); however, this is not a guarantee. This will be determined once we have the numbers for students returning for face-to-face and those continuing virtual learning.
- Physical distancing will be enforced with reduced class sizes (10 – 15 student per classroom based on applicable room size).
- Physical distancing signage placed around the campus.
- Personal protective equipment (PPE) will be used according to district guidelines.
- Health screening will be used for employees.
- Masks to be worn properly by students and staff
- Social activities and campus movement will be limited.
 - ◆ Teachers will rotate classrooms.
 - ◆ At this time, the school will not have an after-school program.
 - ◆ Students will attend library and ancillary classes in the appropriate areas with social distancing.
 - ◆ Planning for recess is still in the process. If formal recess is held (outside the classroom), the school plans to utilize additional personnel for monitoring.
 - ◆ Class restroom breaks will be scheduled, allowing time between classes for sanitation procedures.
 - ◆ Water fountains will not be used. The district is planning to provide bottled water to the campus; however, we encourage students to bring their own water container, if so desired.
- Both face-to-face students and virtual students will utilize their electronic devices to access digital platforms (i.e. the HUB, digital resources, etc.). Students receiving face-to-face instruction will be taught in person by their teachers; however, we will continue to utilize some of the digital platforms for learning.
- The school will develop and implement a pick-up and drop off plan utilizing the number of students returning to the classroom (i.e. staggered times, various pick-up/drop off points; etc).
