Dear HISD Parent,

State law in Texas requires that students in pre-K through 4th grade be assigned to a class with an enrollment of no more than 22 students per teacher. This law does not apply to physical education or fine arts classes.

Each school district in Texas is required to review its class size enrollment by October 1st to determine whether there are classes that do not meet the requirements of Texas Education Code section 25.112 regarding class sizes in pre-K through 4th grade. If District review indicates that any class for pre-K through 4th grade exceeds the class size limit recommendation, the District must submit a request for exception under the Texas Education Code.

This letter is to notify you that the District will be applying for a class size waiver exception for your child's classroom. While we make every effort to maintain class sizes in alignment with this statute, factors beyond our control may impact our maintaining the 22 to 1 class size limit. This exception is being requested for our campus for this classroom due to the reason indicated below:

- ☒ Facilities limitations preventing adding an additional class.
- ☐ Teacher availability for specific grade and program type.
- ☐ Unanticipated growth in enrollment at certain grade levels
- ☐ Financial Hardship making it impractical to hire additional teachers.

Other: _____

We will do our best to eliminate the need for further exceptions as we plan for next school year. Thank you for your support of our school.

Sincerely,

Vanessa Flores
