

Waltrip Counselors Are Here For You!

Parents and Students:

All Waltrip High School students have been enrolled into a Guidance Course through the HUB, along with their regular course load, to allow counselors and students to communicate with each other during this unprecedented time. Most Waltrip teachers and staff are using the HUB and Microsoft Teams to post assignments. Counselors will use the HUB Guidance course to post social-emotional resources, academic reminders, and to contact students as needs arise for planning purposes such as Course Requests for the 20-21 school year. Students may reach out to their counselors through this HUB Guidance Course via "Messages" and/or through school email.
