

The HIPPY Advisory Board is composed of different community and educational entities from the Houston Greater area.

As HIPPY Advisory Board members, we are committed to empowering our parents at home to serve as their child's first teacher. We equip them with unique tools and techniques that will help them prepare their children for success in school and beyond.

The responsibilities of the HIPPY Advisory Board Members are to:

- Promote HIPPY within the community.
- Assist in the procurement of funds to sustain the HIPPY program.
- Provide input and advice regarding planning, implementation, and problem-solving for the HIPPY program.
- Assist with program needs such as special events, guest speakers, etc.
- Assist in promoting cooperative working relationships with resource agencies, community and volunteer groups, and other early childhood/family support programs.

The group meets quarterly with the HIPPY Leadership, staff, and parents to analyze the program progress and to develop innovative parental involvement, retention, and recruiting strategies to maximize the benefits of the HIPPY program to our diverse communities.
