PREPARING FOR NES

The New Education System (NES) is a model for whole-scale system reform. To dramatically improve outcomes for our large percentages of struggling students at HISD, we need a bold, transformative approach that puts high-quality instruction above all else.

The NES model focuses on providing students with high-quality instruction using innovative staffing and instructional models that provide more support to teachers allowing them to focus on providing the best possible instruction. The model also provides instructional coaching, rigorous principal, and teacher evaluation, differentiated compensation, Art of Thinking (AOT) courses, and classes that extend student experiences.

We are excited to meet our new Apollos as we continue to build a culture of excellence –

Together We Can, Whatever it Takes – No Excuses!
