October 18, 2020

Dear West Briar Parents and Families:

As we embark on the return to face-to-face instruction, I wanted to provide a safety update as our school opens its doors for the first day of in-person learning on Monday, October 19.

Our school is committed to providing quality education for every student we serve — whether our families choose to have instruction delivered virtually or in person. All campus-based employees and students must follow infection and high-touch area protocols. We are following all district protocols for health screenings, personal protective equipment, and physical distancing measures.

Should we receive a report of a presumed or confirmed COVID-19 case or exposure for any student or staff member on our campus, you will be notified immediately. Out of an abundance of caution, we would then transition to virtual learning for all students while a thorough cleaning and disinfection of the campus is conducted, and exposed individuals are identified.

The district is following Centers for Disease Control and Prevention guidelines regarding the cleaning, sanitation, and disinfection of district facilities. Once cleaning is complete, you will receive notification of the scheduled return to in-person operations.

For a complete outline of safety policies and procedures, please refer to [HISD's Communicable Disease Plan](#).

Sincerely,

Gabriel Lopez, Principal

West Briar Middle School
