## Congratulations! Westside Futures Academy Class of 2020

We are proud to congratulate the following Futures Academy of Health Science students on receiving their Associate's degree from Houston Community College last weekend. Through a collaboration with Houston Community College, these Westside students completed extra after-school and summer classes during their sophomore and junior years and

earned dual high school and college credits in many of their courses.

This special program is designed to expand college and career readiness options for our students, and offers enrichment opportunities as they prepare for Health Science careers. The program is coordinated by Dean Stephanie Matlock.

## End of Year Mini-Parade for CBVI Students & Partners

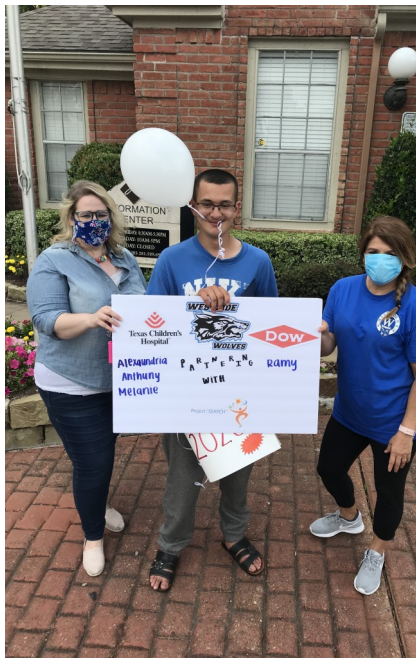

In lieu of their beloved annual luncheon and award ceremony, Westside's Community Based Vocational Instruction (CBVI) coordinator, Mrs. Sylvia Romo, and her colleague, Ms. Mollet, organized an end-of-year mini-parade for their students and community partners.

Mrs. Romo and Ms. Mollet surprised students at their homes to celebrate their hard work this year and to congratulate those moving on to transition programs next year.

The caravan also stopped by area businesses to thank some of their community partners for hosting CBVI student training at their sites.

Way to go, students! And special thanks to our local businesses for their continued support of this awesome program, including Kroger, Potbelly, Chick-Fil-A and TJ Maxx!

Kudos to Mrs. Romo and Ms. Mollet for creating a socially-distanced event to recognize Westside's CBVI students.

### Help teachers equip students with computer science skills

The Microsoft Philanthropies TEALS (Technology Education and Literacy in Schools) Program connects technical volunteers with high schools to team teach computer science (CS) alongside classroom teachers. By increasing the number of CS teachers, the TEALS Program gives high school students the opportunity to participate in equitable high-quality CS education.

volunteers from  
**750** companies

 **625**

### Volunteers are the backbone of TEALS

TEALS volunteers are essential to inspiring the coders and creators of tomorrow. They work directly with students while coaching teachers to lead courses on their own. Anyone with a CS background and a passion for giving back can apply.

"I learned so many things from my CS class I wouldn't have gotten from books or on my own. Our TEALS volunteers were actual programmers who shared what they were working on."
