Parent Needs Survey

HISD's Wraparound Services Department will be conducting a Parent Needs Survey Assessment. The purpose of this survey is to identify the most pressing non-academic challenges facing students and families within the district.

Wraparound Services supports are offered at every HISD campus in which its primary function is to connect students and their families with community resources that facilitates students' ability to learn in school. Wraparound Services can assist with access to a variety of non-academic supports, including access to physical and mental health professionals, food, housing, and more.

This survey will be available now. All parents with a valid email address on file will receive an email asking them to complete the survey. The survey is also linked below. The information collected from this survey will help the Wraparound Services Department better support the academic development of all students through targeted non-academic supports.

This survey will ask a series of questions about the following topics:

1. Healthcare
2. Stress and mental health
3. Regular Expenses (housing, food, and clothing)
4. Home Academic Context (someone to help with homework, books, internet)
5. Educational Activities (tutoring, mentoring, after-school programs)

Answers to these questions will help the Wraparound Department develop programs and services that better meet the needs of all students and families across HISD.

All information provided will be kept strictly confidential. The survey should take about 10 to 15 minutes to complete. If you need more information or assistance in completing the survey, contact the campus wraparound specialist.

Thank you for taking the time to complete this survey!
