PURPOSE: Discussion will focus on interior and exterior materials.

AGENDA:

- Review building exterior
- Presentation of exterior materials
- Review building interior
- Presentation of interior materials

DISCUSSION:

1. VLK reviewed the site plan and floor plans.
2. VLK presented exterior materials. The brick colors presented were “Maganese Ironspot” and “Glacier White”. The lab areas were “Maganese Ironspot” and all other brick was “Glacier White.” These brick will help create a “corporate” look.
3. VLK presented examples of other buildings with similar color schemes.
4. VLK presented exterior renderings.
 - a. Main entry: The front entry had a large canopy for student cover at the front door.
 - b. Courtyards: More green spaces should be incorporated in the courtyard.
 - c. Exterior glazing study: VLK should proceed with incorporating the glazing study to all labs. Glazing at other areas may be reduced to offset the cost.
5. VLK presented interior materials. Floors were mostly neutral colors since the furniture and accent walls will be bright colors. The Central Media Lounge would be stained concrete. The users would like the concrete stain to be a brighter color. The users would like orange to be incorporated as a paint wall accent in addition to the grey, blue, and green that were presented.
6. VLK presented interior renderings. Lori suggested that the jump-seats at the Large Group Room be black instead of bright colors. Lori suggested an additive bid alternate for jump-seats that attach to the wall at the Learning Commons.
7. The users suggested incorporating a design feature in the courtyard that recognizes the first graduating class.
8. The design team will continue to develop details of the design. Future meetings will include further developed renderings.

ACTION ITEMS:

- 1-1 Review the comments noted above and revise the design accordingly (VLK)

NEXT PAT MEETING: September 10, 2015 at 3:30 PM; BP Lounge

Please review the meeting minutes and submit any changes or corrections to the author.
After five (5) calendar days, the minutes will be assumed to be accurate.
