

**Student Data Privacy, Safety and Internet Security Report**

**About:** Study Stack is an online tool to help with memorization tasks through a variety of online flashcard activities. Students may use an existing stack, or create one of their own.

**Study Stack Does:**

- Comply with COPPA, CIPA and FERPA as long as teacher secures parental consent for children under the age of 13.
- Require only a username and password to use the site.

**Study Stack Does Not:**

- Encrypt information in transit.
- Remove all user information from the server upon account deletion.
