

WHAT IS A CAPPED GRADE/PROGRAM?

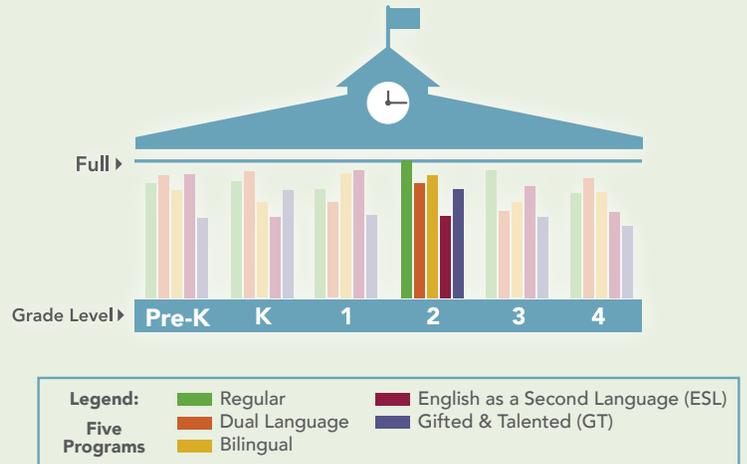

For Prekindergarten – 4th Grade

When a program in a grade level is capped at a school, that program is at its class size limit.

Example: At this school, 2nd grade regular is capped, but other programs in 2nd grade have seats available. Even though seats are available in 2nd grade, your child would need to meet the qualifications for a program other than “regular.”

- If the student qualifies for a program other than “regular,” they will be enrolled at their zoned school.
- If the student does not qualify, they will be transferred to the designated hub school.
- If you are unsure whether your student qualifies for a program, your child’s zoned school can give you more information about testing and other requirements.

CAPPED GRADE/PROGRAM

Note: Programs listed are not available at all campuses.

ZONED SCHOOL

HUB SCHOOL

3

- If a program in a grade level is capped at a school (as in the example above), there is a designated hub, or overflow, school with available space. Personnel at the zoned school will determine the designated hub school and initiate the **capped school** student transfer.
- Campus personnel will direct the family to the designated hub school, confirm space, and initiate the student transfer.

- HISD provides transportation to capped transfer students. Parents can drop off and pick up their student at the zoned school. Please allow up to two weeks for bus pick-up and drop-off to begin.
- The HISD transportation team will bus the student to and from the hub school.

- When the family arrives at the designated hub school, school personnel will complete the enrollment process.
- Houston ISD is committed to keeping siblings together. Regardless of capping circumstances, every effort is made to keep siblings at the same school.

Students who have pre-registered during the summer and are in attendance on the first day of school will have a spot at their zoned school. Once school has started, if the program in a grade level is capped at a school, the zoned school will initiate a transfer to the hub school.
