IMPORTANT INSTRUCTIONS FOR STUDENTS!!

We understand that students come to 9th grade with different strengths and needs. For this reason, we ask students to complete the packet before the beginning of the school year!

• Students should try to answer all the questions; you must show all work.
• Khan Academy video tutorials may be very helpful to you. HISD has aligned Khan Academy with Algebra I, are available by clicking this link: http://www.houstonisd.org/cms/lib2/TX01001591/Centricity/Domain/8050/Khan_Acad_Video_Algmt_Alg1.pdf
• Finally, honor and integrity is at the heart of a Westside Wolf! Smart wolves never cheat. You are only hurting yourself by attempting to copy someone else’s work. This packet is to help you be ready for Algebra II, and help your teachers know what you can do.
• Need face-to-face help with packet? Go to tutorials the first week of school!
• There will be an assessment over this material on or before 2 week of school.
• All student that are not newly enrolled must have their summer packets complete by the end of the first week of school.
• Students who enrolled at Westside High School on or after the first day of school, must submit their summer packet within two weeks of their enrollment date at Westside.
