

The HUB Library is designed to hold a comprehensive collection of “learning objects” for use as part of the teaching and learning process. Learning objects in the HUB Library can be anything from adopted instructional materials (i.e., our digital textbooks) to activities and resources that teachers create and share.

Searching for Content in the Library	
	<ol style="list-style-type: none"> 1. Click on the Library link in the site toolbar. 2. Click on the Search tab at the top of the page.
	<ol style="list-style-type: none"> 3. Enter any keywords you are looking for in the Find Content box. 4. To narrow the search for content to a specific publisher, use the Library pulldown menu. 5. Click Search to get your results. 6. To add a resource to your personal library, click the green plus sign next to it.

Frequently Asked Questions

Why can't I find anything in the Library for the textbook I am using for my class?

As HISD adopts new instructional materials, the district is requiring publishers to work with our HUB team to provide materials in a form that allows us to load them in the HUB Library. You can expect to see additional publishers and textbook content as we continue our digital transformation.
