### Student Weekly Learning Targets

By the end of this week, the student will have written a piece on whether or not to re-open theatres in Texas as part of the re-opening process.

### Tuesday-Friday

The student will write an opinion piece regarding re-opening theatres during the current crisis (see details below). The student is expected to spend 30 minutes a day completing the task.

The student will send responses to their teacher digitally, if possible (via email, the HUB, or any other digital platform the teacher is using to communicate with them):

Please write a 3-5 page response to the following set of questions:

As of Friday, May 1 movie theatres in Texas have been allowed to re-open, but only operate at 25% capacity (meaning a given movie theatre can sell 25% of the seats for any given movie). **Should theatres (such as The Alley, Stages, The Hobby Center) be allowed to re-open with audiences at no more than 25% capacity too? If you were in charge of a theatre company, and you were allowed to re-open at 25% capacity, would you do so? Why or why not? What would you most fear by re-opening or not re-opening?**

Bear in mind that costs for live theatre are higher than they are for a movie theatre because of the amount of people that it takes to get a play on its feet for the public. Also consider how you would enforce social distancing even with only 25% of the audience in your building for a show.

### Student-Produced Weekly Product

By the end of this week, the student will have written a piece on whether or not to re-open theatres in Texas as part of the re-opening process.
