

Overall Scores/Ratings

Overall scores and ratings are based on a weighted average of domain scores. In some cases, special provisions may modify the scores that factor into the weighted average or change the final rating.

Scale scores, overall scores, and letter grades will not be assigned in 2021.

Overall Score Components and Weights

Component	Weight
Better of: Domain 1: Academic Achievement OR Domain 2: School Progress*	70%
Domain 3: Closing the Gaps	30%

*If the score from either Domain 1 or 2 is 90-100 and the score from the other domain is 0-59, then an 89 will be used for the Domain 1 or 2 component of the overall score.

What are the targets for overall scores?

Overall scores are computed from scaled scores, so no additional scaling is necessary.

Overall Score	Rating
90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
0 – 59	F

The overall rating will be modified in the following cases:

- If 3 of the 4 scaled scores computed across the domains (Domain 1, Domain 2: Part A, Domain 2: Part B, Domain 3) are 0-59, then the overall score cannot exceed 59 unless the one score over 59 is in Domain 1.
- An AEA campus may earn up to 10 bonus points on its overall score based on the graduation plan types of its graduates and STAAR EOC retest performance. Full details are given in Chapter 5 of the accountability manual.
- If any campus in a district receives a D or F rating, then the highest overall score the district may earn is an 89.

Overall Score Example: Campus

Components and Scaled Scores			
Domain 1	Domain 2: Part A	Domain 2: Part B	Domain 3
55	78	62	48

Component	Score	Weight	Points Earned
Better of Domain 1 and 2	78	70%	54.6
Domain 3	48	30%	14.4
Total			69

With an overall scaled score of 69, this campus will receive a D rating.

Overall Scores/Ratings

Overall scores and ratings are based on a weighted average of domain scores. In some cases, special provisions may modify the scores that factor into the weighted average or change the final rating.

Scale scores, overall scores, and letter grades will not be assigned in 2021.

Overall Score Example: Campus (One domain 0-59, one domain 90-100)

Components and Scaled Scores			
Domain 1	Domain 2: Part A	Domain 2: Part B	Domain 3
55	91	58	62

Component	Score	Weight	Points Earned
Better of Domain 1 and 2	89*	70%	62.3
Domain 3	62	30%	18.6
Total			80.9

*Reduced to 89 because the Part A score is 90-100 while the Part B score is 0-59.

With an overall scaled score of 81, this campus will receive a B rating.

Overall Score Example: Campus (3 of 4 measures below 60)

Components and Scaled Scores			
Domain 1	Domain 2: Part A	Domain 2: Part B	Domain 3
59	78	54	48

Component	Score	Weight	Points Earned
Better of Domain 1 and 2	78	70%	54.6
Domain 3	48	30%	14.4
Total			69

With an overall scaled score of 69, this campus would receive a D rating except 3 of the 4 scores (59, 78, 54, 48) are less than 60 so the overall score is reduced to 59 and the campus receives an F rating.
