| :--- | :--- |
| FROM: | Carla Stevens <br> Assistant Superintendent, Research and Accountability |
| SUBJECT: | GIFTED AND TALENTED PROGRAM EVALUATION: 2018-2019 |

According to Section 29.123 of the Texas Education Code, the Texas State Plan for the Education of Gifted/Talented Students (G/T) forms the basis of program accountability for statemandated services for G/T students. In the Houston Independent School District, G/T students were served through one of two program designs: Board-approved Vanguard Magnet or Gifted and Talented Neighborhood. Attached is the evaluation report summarizing the effectiveness of the Vanguard Program during the 2018-2019 school year.

The state plan outlines three different performance measures that may be viewed as a continuum: In Compliance, Recommended, and Exemplary. There are five components that are addressed in the plan: Student Assessment, Program Design, Curriculum and Instruction, Professional Development, and Family-Community Involvement. For the 2018-2019 school year, HISD developed $12 \mathrm{G} / \mathrm{T}$ Standards that aligned with the Texas State Plan. The evaluation report centered on measuring the effectiveness of the Gifted and Talented Program based on the state's five components. The Gifted and Talented program supports the district's strategic direction by having an effective teacher in every classroom and instruction that is personalized to meet the learning needs for each child.

Key findings include:

- In 2018-2019, a total of 33,068 students attending 262 elementary, middle, and high schools participated in the district's Gifted and Talented Program, reflecting 17.1 percent of the district $\mathrm{K}-12$ population, a 0.2 percentage-point increase from 16.9 percent in 20172018.
- When comparing the demographic profile of those participating in the Vanguard Program to the district's demographic profile, African American, Hispanic, and economically disadvantaged students were underrepresented, while White and Asian students were overrepresented.
- The percentage of G/T students who met the Masters Grade Level Standard on the STAAR English Version for reading, mathematics, writing, and science increased in 2019 compared to 2016.
- When comparing 2016 to 2019 , student performance increased in the percent of $\mathrm{G} / \mathrm{T}$ students who met the Approaches, Meets, and Masters Grade Level Standards on the STAAR Spanish version for reading and mathematics.
- For 2019, first-time G/T testers on the STAAR End-of-Course exams scored 75 percent in Algebra I, 65 percent in biology, 47 percent in English I, 34 percent in English II, and 81 percent in U.S. History at the Masters Grade Level Standard of performance.
- For 2019, a total of 12,753 Advanced Placement (AP) exams were taken by $5,712 \mathrm{G} / \mathrm{T}$ high school students and 56.9 percent of the scores were three or higher on a scale of one to five, an increase of 1.3 percentage points from 2018.
- In 2019, 542 HISD G/T students took a total of 1,623 International Baccalaureate (IB) examinations, where 50.1 percent scored a four or higher on a scale from one to seven. This reflects an increase in participation of 56 students from 2018, as well as an increase in the number of exams scoring four or higher.
- On the fall 2018 PSAT results for eleventh grade, 2,122, or 96.1 percent, of G/T students took the PSAT, and a total of 1,459 , or 68.8 percent, met both College and Career Readiness (CCR) Benchmarks.
- For the Class of 2018, a total of $663 \mathrm{G} / \mathrm{T}$ students, or 37.1 percent, of the $2018 \mathrm{G} / \mathrm{T}$ graduating class took the ACT and 73.6 percent met the criterion established by the state of 24 or higher (composite average).
- For the Class of 2018 , a total of $1,739 \mathrm{G} / \mathrm{T}$ students, or 97.4 percent, of the $2018 \mathrm{G} / \mathrm{T}$ graduating class took the SAT and 74.5 met the CCR Benchmarks for both Evidence-based Reading and Writing (ERW) (greater than or equal to 480) and Mathematics (greater than or equal to 530).

Further distribution of this report is at your discretion. Should you have any further questions, please contact me at 713-556-6700.

# GIFTED AND TALENTED PROGRAM EVALUATION 2018-2019 

## Executive Summary

## Program Description

According to the Texas Education Code §29.121 and the Houston Independent School District (HISD) Board Policy, Gifted and Talented ( $\mathrm{G} / \mathrm{T}$ ) students are "those identified by professionally qualified persons, who perform at, or show the potential for performing at, a remarkably high level of accomplishment when compared to others of the same age, experience, or environment. These are students who require differentiated educational programs and/or services beyond those normally provided by the regular school program to realize their contribution to self and society. Students capable of high performance include those with demonstrated achievement and/or high potential ability in any of the following areas:

- Exhibits high performance capability in an intellectual, creative, or artistic area;
- Possesses an unusual capacity for leadership; or
- Excels in a specific academic field (Houston Independent School District, 2018a, p. XXIV-1)."

The Texas State Plan for the Education of Gifted/Talented Students (herein referred to as the Texas State Plan) represents the accountability plan for measuring the performance of districts in providing statemandated services to students identified as $\mathrm{G} / \mathrm{T}$ (Texas Education Agency, 2009). The State Board of Education approved revisions in September 2009. The Texas State Plan outlines three different performance measures that may be viewed as a continuum: In Compliance, Recommended, and Exemplary. All districts are required to meet the accountability measures set forth under the In Compliance category. In addition, the state plan is to serve as a guide for improving program services. To accomplish this, districts and campuses may review the recommended and exemplary measures to improve student services that are not mandated (Texas Education Agency, 2009).

The purpose of this evaluation is to comply with state mandates requiring school districts to evaluate the effectiveness of the Gifted and Talented Program annually (TEC §11.251-11.253). Consequently, this evaluation focused on the degree to which the Gifted and Talented Program operated in compliance with the policies and procedures developed by the legal and administrative authorities as well as the District's 12 G/T Standards outlined in the Gifted and Talented School Guidelines (Houston Independent School District, 2018a) (Table A-1, p. 23). The newest G/T Standard was issued on January 14, 2016 centering on the Gifted Education Plan, consisting of a written statement of academic achievement, differentiation, and curricular modifications for the student. The score card reflecting the degree to which HISD's Gifted and Talented Program adheres to the Texas State Plan is provided in Appendix B (pp. 35-39). In addition, the National Association for Gifted Children (NAGC) released their programming standards in 2010, and these have been aligned to the Texas State Plan (Johnsen, 2011). Specific measures of compliance include the following five components of the Texas State Plan:

1. Student Assessment (align to HISD G/T Standards 2, 3, 4, and 11) (Figure 1a, p. 2),
2. Service Design (align to HISD G/T Standards 1, 6, 9, 11, and 12) (Figure 1b, p. 2),
3. Curriculum \& Instruction (align to HISD G/T Standards 5 and 11) (Figure 1c, p. 2),
4. Professional Development (align to HISD G/T Standards 7, 8, and 11) (Figure 1d, p. 2), and,
5. Family \& Community Involvement (align to HISD G/T Standards 10 and 11) (Figure 1e, p. 2).

Figure 1a-1e. Texas State Plan Continuum Score Card Summary, 2018-2019 Evaluation Results

Source: Texas State Plan Score Card, Appendix B, pp. 35-39

## Key Findings

- In 2018-2019, a total of 33,068 students attending 262 elementary, middle, and high schools participated in the district's Gifted and Talented Program, reflecting 17.1 percent of the district K-12 population, a 0.2 percentage-point increase from 16.9 percent in 2017-2018.
- When comparing the demographic profile of those participating in the Gifted and Talented Program to the district's demographic profile, African American, Hispanic, and economically disadvantaged students were underrepresented, while White and Asian students were overrepresented.
- The percentage of $\mathrm{G} / \mathrm{T}$ students who met the Masters Grade Level Standard on the STAAR English Version for reading, mathematics, writing, and science increased in 2019 compared to 2016.
- When comparing 2016 to 2019, student performance increased in the percent of G/T students who met the Approaches, Meets, and Masters Grade Level Standards on the STAAR Spanish Version for reading and mathematics.
- For 2019, first-time G/T testers on the STAAR End-of-Course exams scored 75 percent in Algebra I, 65 percent in biology, 47 percent in English I, 34 percent in English II, and 81 percent in U.S. History at the Masters Grade Level Standard of performance.
- For 2019, a total of 12,753 Advanced Placement (AP) exams were taken by $5,712 \mathrm{G} / \mathrm{T}$ high school students and 56.9 percent of the scores were three or higher on a scale of one to five, an increase of 1.3 percentage points from 2018.
- In 2019, 542 HISD G/T students took a total of 1,623 International Baccalaureate (IB) examinations, where 50.1 percent scored a four or higher on a scale from one to seven. This reflects an increase in participation of 56 students from 2018, as well as an increase in the number of exams scoring four or higher.
- On the fall 2018 PSAT results for eleventh grade, 2,122, or 96.1 percent, of $G / T$ students took the PSAT, and a total of 1,459 , or 68.8 percent, met both College and Career Readiness (CCR) Benchmarks.
- For the Class of 2018, a total of $663 \mathrm{G} / \mathrm{T}$ students, or 37.1 percent, of the $2018 \mathrm{G} / \mathrm{T}$ graduating class took the ACT and 73.6 percent met the state's college ready criterion of 24 or higher (composite).
- For the Class of 2018 , a total of $1,739 \mathrm{G} / \mathrm{T}$ students, or 97.4 percent, of the $2018 \mathrm{G} / \mathrm{T}$ graduating class took the SAT and 74.5 percent met the CCR Benchmarks for both Evidence-based Reading and Writing (ERW) (greater than or equal to 480) and math (greater than or equal to 530).
- Based on the Gifted and Talented Standards Review form returned by 125 elementary and 57 secondary campuses, there were 75 elementary core teachers at 30 campuses and 170 secondary core teachers at 23 campuses who were not $\mathrm{G} / \mathrm{T}$ trained, but taught $\mathrm{G} / \mathrm{T}$ students during the 20182019 school year.
- The percentage of items in compliance on the five components of the Texas State Plan Score Card ranged from 40 percent for curriculum and instruction to 83 percent for student assessment.

## Recommendations

1. Consider providing professional development at principals' meetings to prepare campuses in implementing the new Texas State Plan for the Education of Gifted/Talented Students so that the district will not lose state funding. The new requirements include:
a. New Public Education Information Management System (PEIMS) District Identifier with five categories for October reporting period,
b. Program Intent Code (PIC) 21 for tracking G/T funds and reporting use of G/T funds, and
c. Certify the district has a G/T plan aligned with the State Plan.
2. For a more equitable program for underrepresented groups, consider the following:
a. incorporating a performance project such as Texas Performance Standards Project (TPSP) as a component,
b. administering the full battery of the CogAT to obtain the CogAT Ability Profile for additional data to be included in the Gifted Education Plan,
c. administering the full battery of the lowa/Logramos to align program services with assessments such as science and social studies,
d. incorporating published rating scales (e.g. Hope Scale, Scales for Identifying Gifted Students (SIGS)),
e. expanding program services and assessments (i.e. language development and artistic area),
f. having parents opt-out of the program rather than opt-into the program,
g. conduct parent meetings at schools with large underserved populations to increase the level of awareness about the $\mathrm{G} / \mathrm{T}$ program, and
h. To increase referrals, provide cultural responsiveness training to increase the levels of cultural competence so that school staff are aware of the unique characteristics of underrepresented groups.
3. Consider placing students with academic potential as measured by quantitative or qualitative data into a talent pool. These students would be provided academic supports so that they could reach their potential.
4. In accordance with TEC $\S \S 11.251-11.253$ of the Texas State Plan, incorporate provisions to improve services to gifted/talented students as well as the results of this evaluation in the district and campus improvement plans.
5. Consider incorporating suggestions made by the Gifted Education Plan Survey such as providing face-to-face teacher training early in the year with specific criteria so that a meaningful Gifted Education Plan (GEP) could be created and universally used as an instructional tool as the child progresses from grade to grade.
6. Provide training for any adopted rating scale with accompanying videos or role playing so that teachers understand the unique characteristics of economically disadvantaged and English Learners who are gifted students.
7. Ensure that all employees who make district-level decisions regarding the Gifted and Talented Program meet the professional development standards outlined in the Texas State Plan. Since the board of trustees of a school district has the responsibility to ensure that the district or school complies with all applicable state educational programs (TEC §7.028), it is recommended that Board Members pursue professional development on the Texas State Plan.
8. The Elementary and Secondary G/T Training Administrator and Teacher Development Forms should be available electronically, so they could be accessed and monitored.
9. Ensure that a plan is in place to address areas that are out of compliance.

## Introduction

In the Houston Independent School District (HISD), Gifted and Talented (G/T) students are served through one of two program designs: Board-approved Vanguard Magnet or Gifted and Talented Neighborhood. Vanguard Magnet programs (K-12) are designed to serve G/T students, who excel in general intellectual ability, in combination with creative/productive thinking and/or leadership ability. Vanguard Magnet programs provide a learning continuum that is differentiated in depth, complexity, and pacing in the four core areas (reading/language arts, mathematics, social studies, and science). Students can work with their cognitive peers.

The Vanguard Magnet is provided only in Board-approved schools, and entry into Vanguard Magnet programs is competitive. In 2018-2019, the program served students at the following locations:

- Jewel Askew (K-4), Edna Carrillo, Lorenzo De Zavala, Gary Herod, Oak Forest, River Oaks, Theodore Roosevelt, William Travis, and Windsor Village elementary schools;
- Frank Black, Luther Burbank, Alexander Hamilton, and Bob Lanier middle schools;
- Thomas Horace Rogers School (K-8); and
- Andrew Carnegie Vanguard High School.

Gifted and Talented Neighborhood programs ( $\mathrm{K}-12$ ) are designed to provide services for $\mathrm{G} / \mathrm{T}$ students at their neighborhood schools or for non-zoned G/T students on a valid transfer (other than Vanguard Magnet transfers) that meet the criteria for identification established by district guidelines. Gifted and Talented Neighborhood K-12 programs provide a learning continuum that is differentiated in depth, complexity, and pacing in the four core content areas (reading/language arts, mathematics, social studies, and science). All qualified students are served in their Gifted and Talented Neighborhood program because there are no program enrollment goals or qualification distinctions (tiers) in the admission process. All G/T students on the campus are served in G/T classes with appropriately trained/qualified teachers.

The Gifted and Talented Neighborhood program is designed for G/T students who excel in general intellectual ability, in combination with creative/productive thinking and/or leadership ability. The Texas Education Agency (TEA) requires that all kindergarten students can apply for Gifted and Talented Neighborhood during the fall semester, and if qualified, are provided services by March 1 of their kindergarten year. To address the different needs of the participating schools, decisions regarding the instructional delivery model are made at the campus level (Houston Independent School District, 2018a).

## Other Program/School Options

Other educational opportunities available to all students as well as those identified as $\mathrm{G} / \mathrm{T}$ included:

- Montessori program Grades K-8,
- International Baccalaureate Primary Years Programme (IBPYP) Grades K-5,
- International Baccalaureate Middle Years Programme (IBMYP) Grades 6-10,
- Pre-International Baccalaureate (Pre-IB) Classes Grades 9-10,
- International Baccalaureate (IB) Degree Programme Grades 11-12,
- AP Spanish Language for Native Spanish Speakers Grade 8,
- Pre-Advanced Placement (Pre-AP) program Grades 6-10,
- College Board Advanced Placement (AP) program Grades 9-12,
- Dual Credit Grades 9-12, and
- High School for Performing and Visual Arts (HSPVA) Grades 9-12.

## Methods

## Data Collection and Analysis

Quantitative and qualitative data were collected from a variety of sources including student demographic databases, program documentation, professional development data files, and student performance data files. Basic descriptive statistics were employed to analyze the data. Appendix C (pp. 40-42) describes the methods used in detail.

## Data Limitations

For a detailed description of the limitations in using OneSource, the Gifted and Talented Standards Review, and the Public Education Information System (PEIMS) data files, see Appendix C, pp. 41-42.

## Results

What program options were provided to G/T students during the 2018-2019 school year, and how did implementation compare to the G/T Standards?

- In HISD, $33,068 \mathrm{G} / \mathrm{T}$ students were served through two different program designs, Vanguard Magnet or Gifted and Talented Neighborhood. Out of 279 schools in HISD, 262 campuses identified G/T students based on Fall PEIMS Snapshot data. Of the 262 campuses with G/T identified students, 247 campuses offered a Gifted and Talented Neighborhood program (K-12) and 15 campuses offered a Vanguard Magnet program (K-12).
- For 2018-2019, 26,370, or 80 percent, of G/T students participated in the Gifted and Talented Neighborhood program (K-12) compared to 6,698, or 20 percent, of G/T students who participated in the Vanguard Magnet program (Figure 1).

Figure 1. Number of G/T Students by Program Design, 2018-2019

- According to the Texas State Plan, $\mathrm{G} / \mathrm{T}$ students served in the regular classroom need to work together as a group (minimum of 3) (Texas Education Agency, 2009). For 2018-2019, there were 94 campuses that identified fewer than three G/T students for at least one grade level. When comparing 2014-2015 to 2018-2019, there was an increase in the number of campuses that had fewer than three G/T students for at least one grade level from 68 to 94 . It is not clear if and/or how services were provided for these students (Figure 2).
- In 2018-2019, the number of schools serving G/T students with fewer than three $\mathrm{G} / \mathrm{T}$ students by grade level ranged from 3 middle schools to 77 elementary schools (Figure 2). A list of $\mathrm{G} / \mathrm{T}$ enrollment by campus, and grade level, is provided in Appendix D, pp. 43-48.

Figure 2. Number of Schools with Fewer than 3 G/T Students Identified for at Least One Grade Level, 2014-2015 to 2018-2019

Sources: Fall PEIMS Snapshot, 2014 to 2018

- Campuses were required to send a Gifted and Talented Standards Review form to their School Support Officer and the Gifted and Talented Department showing their instructional delivery model for approval. Data from 155 out of 232 elementary and middle schools were compiled to determine how schools planned to implement their G/T instructional model. Out of the 155 elementary and middle schools that submitted a Gifted and Talented Standards Review Worksheet, 148 campuses (79 percent) used cluster classes, 20 campuses ( 11 percent) used homogeneous classrooms, 17 campuses ( 9 percent) used a combination of cluster and homogeneous classrooms, and three campus indicated they did not implement either model ( 2 percent). Campuses could implement more than one model.
- Based on the Gifted and Talented Standards Review form returned by 125 elementary and 57 secondary campuses, there were 75 elementary teachers at 30 campuses and 170 secondary teachers at 23 campuses who were not $\mathrm{G} / \mathrm{T}$ trained, but taught $\mathrm{G} / \mathrm{T}$ students during the 2018-2019 school year.

What evidence was there that the instruments and procedures for G/T identification met the standards in the Texas State Plan, and how will implementation of the G/T Standards continue to ensure equity of opportunity?

## G/T Enrollment

- For the 2018-2019 school year, a total of 33,068 students were identified as G/T compared to the district enrollment of 193,365 (Grades K-12). In 2006-2007, a total of 24,376 students were identified as $G / T$ compared to the district enrollment of 186,907 . The $G / T$ percentage for the district has increased from 13.0 percent in 2006-2007 to 17.1 percent in 2018-2019 (Table A-2, p. 24).
- The G/T percentages increased from 2006-2007 to 2018-2019 at all grade levels except grades 1112 , where $G / T$ percentages declined 1.9 percentage points for eleventh grade and 1.1 percentage points for twelfth grade (Table A-2).
- The increase in the percentage of G/T kindergarten students for 2018-2019 reflects the implementation of a 4-year old assessment program for which entering kindergarten students from neighborhood schools were assessed in the spring of 2018. When these students enrolled in the district during the 2018-2019 school year, the students identified as G/T were coded on the PEIMS database for the fall and the schools received funding (Table A-2).
- The percentage of qualified 4-year old students identified from neighborhood schools increased from 27.0 percent in 2008 to 35.0 percent in 2019 , and magnet schools decreased from 45.0 percent in 2009 to 39.0 percent in 2019. Percentages for both programs increased by three percentage points from 2018 (Appendix E, pp. 49-50 and Figure 3). However, percentages for both programs dropped by 10 percentage points from 2017, which may be attributed to campus personnel and budgetary constraints.
- In 2018-2019, a total of 24 Gifted and Talented Neighborhood or early childhood centers and 10 Vanguard Magnet campuses participated in the entering kindergarten assessment program (Appendix E).

Figure 3. Percentage of Assessed 4-year Old Students Entering Kindergarten who Qualified for the Gifted and Talented Program, 2007-2008 to 2018-2019

Sources: Gifted and Talented Department, Summary of Entering Kindergarten Data file, 2018-2019; Vanguard Program Evaluation Report, 2017-2018
Note: The results for Longfellow ES were not included in the G/T Neighborhood totals because they were not available.

- The percentage of G/T students identified at the state level increased slightly from 7.6 percent in 20142015 to 8.0 percent in 2018-2019. Comparisons to the state include Early Childhood students in the enrollment counts. Therefore, the percentages are lower than those calculated using only kindergarten through grade 12 (Figure 4, p. 9).
- The percentage of $\mathrm{G} / \mathrm{T}$ students identified at the district level ranged from 14.9 percent for 2015-2016 to 15.8 percent in 2018-2019; the G/T percentage for the district exceeded that of the state by 7.8 percentage points for 2014-2015, 2017-2018, and 2018-2109, and by 7.3 percentage points in 20152016 and 2016-2017 (Figure 4).

Figure 4. State and District Percentage of G/T Enrollment (Early Childhood included), 2014-2015 to 2018-2019

Sources: PEIMS Standard Reports: 2014-15 to 2018-19

- African American students comprised 23.1 percent of the total HISD population in grades $\mathrm{K}-12$ in 20182019. These students represent 11.2 percent of the $\mathrm{G} / \mathrm{T}$ population reflecting an underrepresentation of African American students by 11.9 percentage points (Table A-3, p. 25).
- Hispanic students comprised 62.0 percent of the total HISD population in grades $\mathrm{K}-12$. These students represent 53.9 percent of the $\mathrm{G} / \mathrm{T}$ population reflecting an underrepresentation of Hispanic students by 8.1 percentage points (Table A-3).
- While economically disadvantaged students comprised 78.8 percent of the total HISD population in grades K-12, these students represent 53.0 percent of the $\mathrm{G} / \mathrm{T}$ population reflecting an underrepresentation of economically disadvantaged students by 25.8 percentage points (Table A-3)
- Since 2006-2007, underrepresentation has decreased for Hispanic, male, Bilingual, Economically Disadvantaged, and Special Education students by at least one percentage point (Table A-3).
- African American and Hispanic students apply for Vanguard Magnet schools at disproportionately lower rates than they are represented in the HISD kindergarten and entering sixth grade populations (Table A-4, p. 26).
- For kindergarten applicants, 58 percent of African American and 59 percent of Hispanic students who were identified as G/T during the universal assessment in 2018-2019, accepted and enrolled in an HISD school for the 2019-2020 school year. As of October 16, 2019, 100 percent of all students who accepted and enrolled in the district were identified as G/T on the Chancery Student Management System (Table A-5, p. 27).
- For sixth grade, 31 percent of African American and 55 percent of Hispanic students who were identified as G/T during the universal assessment in 2018-2019, accepted and enrolled in an HISD school for the 2019-2020 school year. As of October 16, 2019, 100 percent of all students who accepted and enrolled in the district were identified as G/T on the Chancery Student Management System (Table A5).
- When comparing the racial/ethnic percentages of G/T students in the Vanguard Magnet program only with those districtwide, the data indicate that Hispanic and African American students are underrepresented in the program as a whole; whereas, White and Asian students are overrepresented (Table A-6, p. 28).
- When examining the racial/ethnic composition of $G / T$ students by Vanguard Magnet school, the percentage of African American students ranged from 1.3 percent at DeZavala Elementary School to 42.3 percent at Windsor Village Elementary School. For Hispanic students, the percentages ranged from 13.5 percent at River Oaks Elementary School to 97.4 percent at DeZavala Elementary School. The percentage of White students ranged from 0.6 percent at Burbank Middle School to 62.4 percent at Travis Elementary School, while the percentage of Asian students ranged from 0.0 percent at DeZavala Elementary School and Burbank Middle School to 52.9 percent at TH Rogers ES/MS (Table A-6).
- A total of 37.4 percent of the Vanguard Magnet students were economically disadvantaged, although this figure varied across campuses from a low of 6.2 percent at Travis Elementary School to a high of 95.3 percent at Burbank Middle School (Table A-6).
- Demographic characteristics comparing the G/T student population of the district to the state shows similar patterns of inequity for African American, Hispanic, and economically disadvantaged students for the 2018-2019 school year. There is an overrepresentation of Asian and White students and an underrepresentation of African American, Hispanic, and economically disadvantaged students for both the district and the state (Figures 5A and 5B, p. 11).
- When comparing the district to the state, HISD falls within 2 percentage points when comparing the differential for Asian, Hispanic, and White students for 2018-2019; the district's differential for economically disadvantaged and African American students exceeds the state by 5 percentage points (Figure5B).

What evidence exists to document positive student performance trends for students participating in the gifted program?

## STAAR

According to HISD Vanguard (G/T) Standard 8-Student Success (Expectations), G/T students were expected to perform above grade level on an achievement test. This was operationalized by looking at the percentage of students that scored at the Masters Grade Level Standard on the State of Texas Assessments of Academic Readiness (STAAR) (Tables A-7A and A-7B, p. 29).

- Figures 6a-6e (p. 12) summarize the percentage of G/T students in grades $3-8$ scoring at the different performance standards on the STAAR English Reading, Mathematics, Writing, Science, and Social Studies exams from 2016 to 2019.
- The percentage of G/T students who met the Masters Grade Level Standard for reading, mathematics, writing, and science increased in 2019 compared to 2016. G/T students who met the Masters Grade Level standard on the STAAR Social Studies decreased.

Figure 6e. G/T Science

Sources: TEA-ETS STAAR Student Data Files, Various Years
Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions. Data may differ slightly from data previously reported. For grades and subjects with multiple administrations, first administration results are used. Excludes STAAR Alt. 2 Test. 2016 Gifted and Talented status determined by April $15^{\text {th }}, 2016$ snapshot from Chancery SMS.

- Figures 7a-7c (p. 13) summarize the percentage of $\mathrm{G} / \mathrm{T}$ students in grades $3-5$ scoring at the different performance standards on the STAAR Spanish Reading, Math, and Writing exams. When comparing 2016 to 2019, student performance increased in the percent of G/T students for reading and mathematics for students who met the Approaches, Meets, and Masters Grade Level Standards on the STAAR Spanish Version for reading and mathematics (Table A-8A and A-8B, p. 30).

Figures 7a-7c. Spanish G/T STAAR 3-5 Results, 2016-2019

Figure 7c. G/T Writing

Source: TEA-ETS STAAR Student Data Files, Various Years
Note: Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions. Data may differ slightly from data previously reported. For grades and subjects with multiple administrations, first administration results are used. Excludes STAAR Alt. 2 Test. 2016 Gifted and Talented status determined by April $15^{\text {th }}$, 2016 snapshot from Chancery SMS.

- When comparing 2016 to 2019, the percentage of G/T students who met the Masters Grade Level Standard increased on the Algebra I, Biology, English I, English II, and U.S. History STAAR EOC exams (Figures 8a-8e, p. 14).
- For 2019, the lowest percentage of students meeting the Masters Grade Level Standard was associated with both English I and English II exams, where 47 percent and 34 percent, respectively, of G/T test-takers scored at the Masters Grade Level (Figures 8d and 8e).
- U.S. History reflected the exam for which the highest percentage of $\mathrm{G} / \mathrm{T}$ students scored at the Masters Grade Level (81 percent), and 100 percent of G/T students scored at the Approaches Grade Level on the U.S. History End-of-Course exam for the third year in a row (Figure 8c and Table A-9A and A-9B, p. 31).

Figure 8e: G/T English II EOC

Sources: ETS-STAAR EOC Student Data Files, 6/21/2018; District and School Results for STAAR End-of-Course Assessments, Spring 2017
Note: All points reflect the most current data available and may differ slightly from data previously published. Excludes STAAR Alt. 2 Tests, First-time testers only, Spring administration results are used. Due to the removal of STAAR L and A in 2017, 2016 results have been updated to include STAAR L and A test versions. Approaches Grade Level Standard is the Level II. For 2016, it is phase-in 1 for students who took at least one EOC prior to the December 2015 administration, and the Approaches Grade Level Standard is applied to any student who took their first-ever EOC during the December 2015 administration or later.

## Advanced Placement

- The number of G/T high school students taking AP tests increased by 92.1 percent from 2,974 in 2007 to 5,712 in 2019, and the percentage of $\mathrm{G} / \mathrm{T}$ students taking AP tests increased by 23.3 percentage points from 38.7 percent in 2007 to 62.0 percent in 2019. While this is the largest number of $\mathrm{G} / \mathrm{T}$ students taking AP tests, the rate is lower than the rate of 67.9 percent in 2012 (Figure 9, p. 15 and Appendices F-1 and F-2, pp. 51-52).

Figure 9. Number of G/T High School Students Taking AP Exams and Participation Rates, 2007 to 2019

Sources: 2019 College Board AP data file; 9/11/2019; HISD Research and Accountability, Vanguard Program Evaluation Report, 2017-2018
Note: $N=$ number of $G / T$ students taking at least one AP test. G/T identification code was missing for 46 students. G/T enrollment rates reflects only enrollment for schools participating in AP testing.

- The number of AP exams taken by G/T students increased from 6,416 exams in 2007 to 12,753 exams in 2019, and the percentage of AP exams scored three or higher was flat from 57.0 percent in 2007 versus 56.9 percent in 2019 (Appendices $\mathrm{F}-1$ and $\mathrm{F}-2$, pp. 51-52 and Figure 10, p. 16).
- When comparing AP results prior to the implementation of the HISD G/T Standards in 2007 to 2019, the participation rates have increased from 38.7 percent to 62.0 percent, while the AP exams scoring three or higher have remained the same ( 57.0 percent in 2007 to 56.9 percent in 2019) (Appendices $\mathrm{F}-1$ and $\mathrm{F}-2$ and Figures 9 and 10).
- For 2019, a total of 12,753 Advanced Placement (AP) exams were taken by $5,712 \mathrm{G} / \mathrm{T}$ high school students and 56.9 percent of the scores were three or higher on a scale of one to five, an increase of 1.3 percentage points from 2018 (Appendices F-2, Figures 9 and 10).

Figure 10. Number and Percentage of G/T AP Exams Scored 3 or Higher, 2007 to 2019

Sources: 2019 College Board AP data file, 9/11/2019; HISD Research and Accountability, Vanguard Program Evaluation Report, 2017-2018
Note: $\mathrm{N}=$ number of exams with a score of 3 or higher

International Baccalaureate (IB)

- In May of 2019, 542 HISD G/T students took a total of 1,623 International Baccalaureate (IB) examinations, where 50.1 percent scored a four or above on a scale from one to seven. This reflects an increase in participation of 56 students from 2018, but, reflects a decrease in performance of 6.4 percentage points (Table A-10, p. 32 and Figure 11, p. 17).
- For 2019, 22 Bellaire, 3 Chavez, 16 Heights, and 28 Lamar high schools' G/T students earned an IB diploma. The number of G/T students earning an IB diploma decreased districtwide from 78 in 2018 to 69 in 2019. Chavez High School produced their first diplomates in 2019 (Table A-11, p. 32).
- For 2019, Lamar High School offered students the opportunity to earn a Career-related Programme diploma (CP). The CP curriculum was designed for students interested in career-related education. Districtwide, out of 79 Candidates, 7 students completed the Career-related Programme in 2019 reflecting a decrease from 2018. For G/T students in 2019, 1 out of 8 candidates completed the Careerrelated Programme (Table A-11).

Figure 11. Percent of IB Tests Taken by G/T Students Scored at 4 or Higher, Spring 2014-2019

Sources: International Baccalaureate Organization Candidate Results, 2019; Vanguard Program Evaluation Report, 2017-2018 $\mathrm{N}=$ Number of Exams taken by G/T Students across all 3 schools. Chavez High School began IB testing in 2019.

## PSAT, ACT, and SAT

- On the fall 2018 PSAT results for eleventh grade, 2,122 , or 96.1 percent, of $G / T$ students took the PSAT, and a total of 1,459 , or 68.8 percent, met both College and Career Readiness (CCR) Benchmarks (Appendix G, p. 53 and Figure 12).

Figure 12. G/T Participation and Performance on the PSAT (Fall 2018), ACT, and SAT, 2016-2018

Sources: PSAT data file, 2018; ACT data file, 2017-2018; SAT data file 2017-2018; Graduation data file, 2017-2018; Chancery Demographics data files, 05-01-17, 05-07-18, 10-29-18

Notes: ERW=Evidence-based Reading and Writing

- Out of 34 campuses that tested five or more G/T eleventh grade students on the fall 2018 PSAT, twelve campuses had at least 70 percent of their G/T eleventh grade students reach both ERW and mathematics CCR Benchmarks (Appendix G).
- For the Class of 2018, a total of $663 \mathrm{G} / \mathrm{T}$ students, or 37.1 percent, of the $2018 \mathrm{G} / \mathrm{T}$ graduating class took the ACT and 73.6 percent met the criterion established by the state of 24 or higher (composite average) (Appendix H-1, p. 54 and Figure 12, p. 17).
- For the 2018 G/T graduating class, nine of the 16 high schools with at least five testers had a mean composite score of 24 or higher on the ACT (Appendix $\mathrm{H}-1$ ).
- For the Class of 2018, a total of $1,739 \mathrm{G} / \mathrm{T}$ students, or 97.4 percent, of the $2018 \mathrm{G} / \mathrm{T}$ graduating class took the SAT and 74.5 met the CCR Benchmarks for both ERW ( $>=480$ ) and Math ( $>=530$ ) (Appendix H-2, p. 55 and Figure 12).
- Out of 32 campuses that tested five or more G/T students, twelve high schools had at least 70 percent of their G/T students meet the CCR Benchmarks for both ERW and Math on the SAT (Appendix H-2).

## Advanced Courses, Graduates, and Gifted Educational Plan (GEP)

- According to HISD Gifted and Talented Standard 6-Curriculum and Instruction, an array of challenging learning experiences in each of the four foundation curricular areas should be provided. This was operationalized by looking at enrollment in International Baccalaureate Middle Years Programme (IBMYP) or Pre-Advanced Placement (Pre-AP) or Advanced Placement (AP) courses. When comparing 2007 to 2019, the percentage of G/T middle school students enrolled in at least one of these advanced class decreased from 98.7 percent to 95.4 percent, but the actual number of G/T students taking advanced courses increased by 73.5 percent, from 5,285 to 9,167 (Table A-12, p. 33).
- For high school, to evaluate Gifted and Talented Standard 6, those students enrolled in at least one advanced class were considered. Advanced courses consisted of the following: Pre-AP/AP, Pre-IB/IB, Honors, or Dual Credit. When comparing 2007 to 2019, the percentage of G/T high school students enrolled in at least one advanced class increased from 90.7 percent to 92.6 percent. Moreover, the actual number of $G / T$ students taking advanced courses increased by 20.9 percent (Table A-13, p. 33).
- Using a four-year longitudinal cohort methodology for the Class of 2018, 98.5 percent graduated, 0.2 percent continued in high school, <0.1 percent received the Texas Certificate of High School Equivalency, and 1.2 percent dropped out of school (Table A-14, p. 34). Comparable results were demonstrated for graduates over the past three years.
- On January 14, 2016, the Board Approved the Gifted Education Plan. For the 2018-2019 school year, Gifted Education Plans (GEP) were completed for 18,132 students or 54.8 percent of the district's G/T students. A total of 1,772 student entries centered on leadership, 2,551 on creativity, 5,871 on reading/language arts, 5,248 on math, 3,635 on science, and 2,997 on social studies. Students may have had more than one area included on their GEP (Table A-15, p. 34).
- A total of 320 respondents completed the Gifted Education Plan Survey that was administered to district personnel providing instruction to G/T students or involved in G/T education. Sixty-nine percent of the respondents indicated they completed a Gifted Education Plan (GEP) for the 2018-2019 school
year, 12.5 percent indicated they had not completed a plan, 3.1 percent didn't finish, and 15 percent indicated it was not applicable (Appendix I, pp. 56-58).
- On the GEP survey, 35.0 percent of respondents indicated the GEP they created was not useful with a rating of 1 or 2 and 30.2 percent indicated it was very useful with a rating of 4 or 5 on a scale of 1 to 5 (Appendix I, pp. 56-58).
- When respondents were asked if they used the GEP as an instructional tool, 42 percent of the respondents indicated they had used the GEP as an instructional tool and/or explained how it had been used, while 39 percent indicated they had not used the GEP as an instructional tool and 11 percent stated the question was not applicable (Appendix I).

What evidence indicated that personnel involved in the Gifted and Talented Program met the standards of the Texas State Plan regarding professional development and certification?

- For 2018-2019, a total of 6,313 educators (unduplicated) completed at least one $G / T$ professional development (Appendix J, pp. 59-61).
- For 2018-2019, 10,953 educators (duplicated) completed one or more of the $80 \mathrm{G} / \mathrm{T}$ professional development opportunities offered (Appendix J).
- For 2018-2019, a total of 5,891 educators completed six or more hours meeting the annual state mandate, and 1,411 educators completed 30 or more hours (Appendix J).
- Based on the Gifted and Talented Standards Review form returned by 125 elementary and 57 secondary campuses, there were 75 elementary core teachers at 30 campuses and 170 secondary core teachers at 23 campuses who were not $\mathrm{G} / \mathrm{T}$ trained, but taught $\mathrm{G} / \mathrm{T}$ students during the 20182019 school year.
- Based on the 2018-2019 HISD Gifted and Talented Standards Review, counselors and other administrators at 13 elementary schools and principals at 18 elementary schools did not have G/T training certificates on file.
- Based on the 2018-2019 HISD Gifted and Talented Standards Review, counselors and other administrators at 11 secondary schools and principals at 8 secondary schools did not have G/T training certificates on file.
- Student Assessment and the Gifted and Talented Department provided pre-testing materials. There were 88 schools that indicated their kindergarten teachers made use of these materials with their students prior to the Universal CogAT administration.
- Out of 125 elementary schools that submitted a Gifted and Talented Standards Review, 78 percent of respondents indicated that most or all of their $\mathrm{G} / \mathrm{T}$ students had at least one entry in their Gifted Education Plan (GEP).
- Out of 34 middle school campuses that submitted a Gifted and Talented Standards Review, 59 percent of respondents indicated that most or all of their G/T students had at least one entry in their Gifted Education Plan (GEP).

To what extent did the district encourage community and family participation in services designed for G/T students?

- Parents serving on the Campus Shared Decision-Making Committee (SDMC) provided input regarding the G/T Standards Review(s) that would be implemented on the campus.
- On April 23, 2019, a district-wide G/T Expo was held for sharing advanced products with parents, students, and the community at Delmar Fieldhouse from 5:30-7:00 pm.
- Based on the percentage of items in compliance on the Texas State Plan Score Card, of the five components, percentages ranged from 40 percent for curriculum and instruction to 83 percent for student assessment (Appendix B, pp. 35-39; Figures 1a-1e, p. 2).
- For the Student Assessment Component on the Texas State Plan, the district conducts a universal assessment in kindergarten and fifth grade for students who are not identified as G/T and uses both quantitative and qualitative measures for identifying students; however, the district is not fully aligned with the program services offered and the assessments administered.

## Discussion

Over the past twelve years, the implementation of the HISD Gifted and Talented Program has varied across the district from the program design, rigor, opportunities to work with G/T peers, strategies for serving G/T students, to curriculum and instruction, professional development, and communicating with parents about program implementation. To help program personnel identify areas of strengths and weaknesses in the program, a Texas State Plan Score Card was developed. The strongest component of the five components in the Texas State Plan centered on Student Assessment. The district conducts two universal assesments for students who are not already identified as $\mathrm{G} / \mathrm{T}$, one in kindergarten and one in fifth grade. This is a program strength as there are not gatekeepers for identification.

Program services offered are not fully aligned to the assessments, and that is a concern. For example, there are currently no districtwide arts, science or social studies assessments on the G/T matrix. Moreover, adopting a published teacher rating instrument that is reliable and valid would enhance the district's ability to provide services aligned to student needs. For example, the Scales for Identifying Gifted Students includes seven scales: 1) general intellectual ability; 2) language arts; 3) mathematics; 4) science 5) social sutdies; 6) creativity; and 7) leadership.

The district developed HISD's Vanguard G/T Standards in 2007 that were aligned to the Texas State Plan to ensure that highly able students were identifed and served, and to provide consistency regarding implementation across schools. These standards have been modified over the last twelve years of implementation. With the creation of a new Texas State Plan for the Education of Gifted and Talented Students, the district needs to be proactive in ensuring that state standards are met or that a plan is in place with action steps on how to meet the new standards.

Student outcome measures by campus indicate that program implementation is inconsistent and the rigor of the program varies widely throughout the district. There are campuses that have not identified a critical mass of $\mathrm{G} / \mathrm{T}$ students on their campus (i.e. less than three at a grade level), and some that schedule the $\mathrm{G} / \mathrm{T}$ students so that they do not have an opportunity to work with their peers. At the secondary level, gifted and talented students are primarily served through taking Pre-AP/AP and Pre-IB/IB courses. Since the rigor
of these courses varies across the district, a better monitoring system needs to be developed with formative feedback on rigor, training, scheduling, and assessments available to campuses so that G/T students are being equitably served.

Campuses should address G/T professional development opportunities for 30 hours and for the 6-hour G/T update in their school improvement plans to ensure all teachers of $\mathrm{G} / \mathrm{T}$ students meet the state requirement. The district should also consider targeted training regarding the teacher recommendation form used in the matrix along with characteristics of gifted students in poverty and EL students, since these underserved populations differ in how they express their G/T traits (Slocumb \& Olenchak, 2006). The district should also consider adminstering the full-battery of the CogAT since each student receives a CogAT Ability Profile which provides instructional strategies for student success that can be part of a student's Personalized Gifted Education Plan.

Over the past five years, the percentage of students identified as G/T in HISD (15.4 percent in 2014-2015 to 15.8 in 2018-2019) and the state ( 7.6 percent in $2014-2015$ to 8.0 percent in 2018-2019) have increased. District G/T percentages have exceeded state G/T percentages over the past five years, with the largest differential occurring for the following school years: 2014-2015, 2017-2018, and 2018-2019 (7.8 percentage points). These data indicate that the district has an overrepresentation of students in the Gifted and Talented Program, especially when previously published state documentation established that districts should have between three and eight percent of the students identified as G/T (Texas Education Agency, 2002). Moreover, according to the National Association for Gifted Children (NAGC, n.d.), approximately six to ten percent of U.S. children in grades $\mathrm{K}-12$ are gifted.

According to the Texas Education Agency's study, Equity in Gifted Education, (Slocumb \& Olenchak, 2006, p. 8), "equity exists when the various population groups are reflected in the same proportions as they are represented in the larger population." Therefore, if 60 percent of the district's population is comprised of Hispanic students, then 60 percent of the identified G/T students should be Hispanic. Based upon this research, African American and Hispanic students are underrepresented and White and Asian students are overrepresented. If socioeconomic status is taken into account, all of the racial/ethnic groups that are disproportionately economically disadavantaged are underrepresented. However, since 2006-2007, underrepresentation has decreased for African American, Hispanic, male, bilingual, economically disadvantaged, and special education students. Moreover, the gap has narrowed for White students.

Program personnel should decide what G/T services need to be offered and select appropriate assessement instruments to identify those students. Consideration should be given to providing G/T students in poverty with language development services. One size does not fit all in terms of G/T services offered (Slocumb \& Olenchak, 2006).

The Department of Research and Accountability has conducted an annual evaluation of the Gifted and Talented Program for the past fifteen years (Department of Research and Accountability, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, and 2018). Data collected from previous evaluations have been used at the administrative and campus levels.

The district continues to move in a positive direction with regard to Family-Community Involvement with the expansion of the Texas Performance Standards Project (TPSP), and the continuation of the G/T Expo. Moreover, the planned changes in the program regarding retaining the G/T designation in fifth grade, expanding content areas in which gifted students can receive support, and developing Personalized Gifted Education Plans are promising steps. The Gifted and Talented Program provides the educational
foundation for our future leaders. However, for the program to reach its full potential, state, district, and school-level support are essential. The commitment on the part of the district to support a program that challenges students reaffirms their strategic intent, which is to make HISD the educational system of choice.

Appendix B (Continued)

## Appendix C Methods

## Data Collection

Student data were obtained using a variety of sources. For the current academic year, demographic and enrollment data for G/T students were extracted from the PEIMS and Chancery databases. Race was extracted from the fall PEIMS snapshot using the original PEIMS ethnicity discrete categories for comparability to previous years. The program description, entry procedures, and student eligibility criteria were extracted from the current HISD School Guidelines, and the District and School Profiles (Houston Independent School District, 2018a and 2018b). Additional documentation including data for the Entering Kindergarten Assessment Program, G/T Standards Review, Professional Development Course listings, G/T Expo, and student performance data, was provided from the manager and coordinators in the Gifted and Talented Department. At the G/T Expos, students were interviewed.

Information with respect to training in HISD was provided by the Department of Human Resources Information Systems (HRIS) from July 1, 2018 to June 30,2019. The HRIS database had the capability to track employee professional development on the individual level, including attendance and completion for each training session. The Gifted and Talented Department provided a list of $\mathrm{G} / \mathrm{T}$ courses.

The percentage of G/T students in the district and the state was extracted from the PEIMS Standard Reports, Student Program and Special Populations Reports from 2013-2014 to 2018-2019 (Texas Education Agency, 2019a, 2018, 2017, 2016, 2015, and 2014). Texas Enrollment was calculated from the Enrollment in Texas Public Schools, 2018-2019 report published by the Texas Education Agency (TEA) (Texas Education Agency, 2019b).

## Academic Performance

Advanced Placement (AP) test performance data for 2019, along with demographic information supplied by the students, were reported to HISD for each participating campus by the College Board via an electronic data file on September 11, 2019. Student-level data were matched to a Chancery extract from May 13, 2019, to identify those students who were $\mathrm{G} / \mathrm{T}$. Students who were not matched were not included in the analysis.

Performance data of HISD students on IB examinations and diplomas awarded were obtained from International Baccalaureate (IB) score reports. Participation and performance were reported by district and school. For the district and individual schools, the number and percent of students scoring a four or better were reported. A score of four or better allowed an IB exam to be used as one of four measures required for the Distinguished Achievement Program.

PSAT performance data for 2018 and a Chancery extract from 10/29/2018 with enrollment for eleventh grade students were extracted to analyze the number and percent of eleventh grade students who tested and met the college and career readiness benchmarks on the ERW ( $\geq 460$ ) and mathematics $(\geq 510)$ tests. The methodology for calculating the College and Career Readiness (CCR) Benchmarks was revised by the College Board in 2015. SAT and ACT data for 2017-2018 were extracted from student test files as well as 2017-2018 graduation data. The number and percent of G/T test-takers, and the number and percent of G/T students scoring a 1180 or higher on the total score or meeting both CCR benchmarks (ERW $\geq 480$ and mathematics $\geq 530$ ) on the SAT and/or a 24 or higher composite on the ACT or meeting the individual CCR benchmarks (English $\geq 18$, reading $\geq 22$, mathematics $\geq 22$, and/or science $\geq 23$ ) and/or all four CCR benchmarks were analyzed to determine participation and performance.

## Appendix C (Continued)

## Data Analysis

Basic descriptive statistics were employed to analyze the data. For enrollment by grade level and campus, frequencies were calculated. For survey items, the responses for each category were tabulated and/or percentages calculated. Due to rounding, some totals may not equal 100 percent. HISD and state policy is not to report grouped scores for fewer than five students.

G/T participation rates in AP testing for each campus were calculated by dividing the number of $\mathrm{G} / \mathrm{T}$ students tested by the G/T PEIMS enrollment for grades 9-12. AP/IB performance was calculated by dividing the number of $\mathrm{G} / \mathrm{T}$ AP/IB test-takers scoring a three/four or higher by the total number of $\mathrm{G} / \mathrm{T}$ AP/IB tests taken.

G/T PSAT participation rates for each campus were calculated by dividing the number of G/T students tested by the G/T PEIMS enrollment for grade 11. Performance on the PSAT was measured by dividing the number of G/T students meeting the College Readiness Benchmark of 142 by the total number of G/T students tested in grade 11.

SAT and/or ACT participation was analyzed by using an unduplicated count of G/T ACT and/or SAT testtakers and dividing by the G/T graduates for that year. SAT performance was measured using the College Board benchmarks. For the SAT, the number of students meeting the College and Career Benchmarks for both the Evidence-based Reading and Writing (>=480) and Mathematics (>=530) was divided by the total number of $\mathrm{G} / \mathrm{T}$ students tested. For the ACT, the number of students meeting the composite score of 24 or higher was divided by the number of $\mathrm{G} / \mathrm{T}$ students tested.

The State of Texas Assessments of Academic Readiness (STAAR) Grades 3-8 changed in 2017 to administering only two versions of the STAAR exam. Therefore, STAAR administration results from 2016 have been updated to include STAAR L and A test versions. In 2017, the performance standard labels changed to Does Not Meet Grade Level, Approaches Grade Level, Meets Grade Level, and Masters Grade Level.

Four-year longitudinal completion rates were calculated using the 2015-2016, 2016-2017, and 2017-2018 data files. The data files were then matched to Chancery demographic files and PEIMS files to include G/T status. Students without a G/T indicator were not included in the analysis. The denominator consisted of the following students: graduated, dropped out, received Texas Certificate of High School Equivalency, and continued in high school. Each category was divided by the denominator to calculate a rate.

## Data Limitations

Using the PEIMS database presents an undercount of identified students because students identified after the PEIMS fall snapshot date will not be included. For example, HISD conducts a universal assessment for identifying G/T students in kindergarten. Once identified, they must be served by March 1st. The results of the assessment falls after the PEIMS fall snapshot date. However, the identified students are coded as G/T using the Chancery Student Management System (SMS). It is important to use both PEIMS and Chancery to gain a holistic understanding of the $\mathrm{G} / \mathrm{T}$ program.

Limitations exist since some professional development activities were not tracked by the district because campuses may have hired their own trainer, or teachers may have attended training at the AP Summer Institute at Rice University, and the training was not recorded by the district, resulting in an undercount.

## Appendix C (Continued)

On the Gifted and Talented Standards Review, if duplicate data were submitted, the latest version was used in the analysis. If a school name wasn't provided, the entry was not included in the analysis.

Vanguard Magnet enrollment counts for $\mathrm{G} / \mathrm{T}$ students were extracted using the $\mathrm{G} / \mathrm{T}$ field indicator on the PEIMS fall snapshot and may result in different enrollment counts from using the Magnet field in the Chancery data file.

## Appendix I

Gifted Education Plan (GEP) Survey, 2018-2019

1. What is your position?

| Table l-1. Position in HISD for 2018-2019 |  |
| :---: | :---: |
| N Responses | \% Response |
| 226 | 70.6 G/T Teacher |
| 40 | 12.5 Administrator |
| 51 | 15.9 Other |
| 3 | 0.9 Skipped |
| 320 | 100.0 Total Respondents |
| Survey Monkey Data file, downloaded on 8/22/2019; $\mathrm{N}=317$ |  |
| Table l-1a. Emergent Categories for "Other" |  |
| N Responses | Response |
| 38 | Teacher (Bilingual, Dual Language, Foreign Language, Special Education, Ancillary, ESL, Regular) |
| 8 | Coordinator (G/T, IAT, Magnet) |
| 3 | Counselor |
| 1 | Interventionist |
| 1 | CTC |
| 51 | Total |

Survey Monkey Data file, downloaded on 8/22/2019; Answered N=51
2. Did you create a Gifted Education Plan (GEP) for each of your G/T identified students for the 2018-2019 school year?

Figure I-1. Percentage of Respondents Creating a GEP

Survey Monkey Data file, downloaded on 8/22/2019; $N=320$
3. On a scale of 1 (Not Useful) to 5 (Very Useful), rate the level of usefulness of the Gifted Education Plan you created for each of your G/T students.

| $\mathbf{1}$ (Not Useful) | $\mathbf{2}$ | $\mathbf{3}$ | $\mathbf{4}$ | $\mathbf{5}$ (Very Useful) | N/A |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $21.5 \%$ | $13.5 \%$ | $17.6 \%$ | $16.4 \%$ | $13.8 \%$ | 17.3 |

Survey Monkey Data file, downloaded on 8/22/2019; N=312, N=8 blank

## Appendix I (Continued)

4. On a scale of 1 (Not Useful) to 5 (Very Useful), how useful were the resources found on the SharePoint in helping you complete the Gifted Education Plan?

| $\mathbf{1}$ (Not Useful) | $\mathbf{2}$ | $\mathbf{3}$ | $\mathbf{4}$ | $\mathbf{5}$ (Very Useful) | N/A |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $13.3 \%$ | $11.4 \%$ | $22.9 \%$ | $15.2 \%$ | $15.6 \%$ | 21.6 |

Survey Monkey Data file, downloaded on 8/22/2019; N=315, N=5 blank

## 5. How have you used the Gifted Education Plan as an Instructional tool?

The top four categories encompassed $66 \%$ of the responses. Forty-two percent of the respondents indicated that they used the GEP as an instructional tool and/or explained how it was used, while 39\% indicated they did use the GEP as an instructional tool, and $11 \%$ stated that the question was not applicable.

| Table l- 5. | Emergent Categories for Using the GEP as an Instructional Tool |  |
| :---: | :---: | :--- |
| $\mathbf{N}$ | $\%$ |  |
| 104 | $39 \%$ | Not Used/No/Scheduling/Compliance/Useful for Receiving Teacher |
| 34 | $13 \%$ | Yes |
| 32 | $12 \%$ | Lesson Plans/Drive Instruction |
| 28 | $11 \%$ | N/A |
| 27 | $10 \%$ | Projects/Enrichment/Workstations/PBL/Independent Work/Grouping/Student Interest |
| 27 | $10 \%$ | Strengths/weaknesses, Monitor progress/growth/goals, Don't Know, Increased |
| 20 | $8 \%$ | Awareness of G/T Needs |

Survey Monkey Data file, downloaded on $8 / 22 / 2019 ; \mathrm{N}=230, \mathrm{~N}=90$ blank; Blue shaded areas indicated teachers used the GEP as an instructional tool, $\mathrm{N}=113,42 \%$.
6. What recommendations would you make to improve the use of the Gifted Education Plan?

| N | \% | Response |
| :---: | :---: | :---: |
| 39 | 18\% | N/A |
| 36 | 17\% | None/None Listed |
|  |  | Timeline (i.e. beginning of the year; completed by December; Present at G/T |
| 33 | 15\% | Training) |
| 23 | 11\% | Remove It/Not Useful |
| 18 | 8\% | Provide Resources by Grade Level/GT Teacher Toolkit |
| 17 | 8\% | Face-to-Face Training |
| 15 | 7\% | Change format/Simplify/Check Boxes, Not Sure/Don't Know, Evaluate usefulness, Meeting with student, Include all content areas |
| 13 | 6\% | Miscellaneous-"I do not have proper training for GT students." |
| 10 | 5\% | More visibility/accessibility |

Survey Monkey Data file, downloaded on 8/22/2019; $\mathrm{N}=195, \mathrm{~N}=125$ blanks

## Appendix I (Continued)

7. If you completed writing all of the Gifted Education Plans for your students for 2018-2019, how long did it take? (\# of hours). If you haven't completed them or if you do not provide instruction to $\mathbf{G} / \mathrm{T}$ students, please type N/A.
The responses varied and depended on the number of $G / T$ students for each teacher and whether or not the teachers split the task.
8. How useful do you think the plan you created will be as a starting point for the students' teachers the following school year?

| $\mathbf{1}$ (Not Useful) | $\mathbf{2}$ | $\mathbf{3}$ | $\mathbf{4}$ | $\mathbf{5}$ (Very Useful) | N/A |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $16.6 \%$ | $13.9 \%$ | $18.9 \%$ | $18.9 \%$ | $14.6 \%$ | $17.2 \%$ |

Survey Monkey Data file, downloaded on 8/22/2019; N=302, N=18 blank

Figure I-2. How many G/T students do you teach?

Survey Monkey Data file, downloaded on 8/22/2019; N=318, N=2 blank

| Table l- 9. Emergent Categories for Other Feedback to Share with Program Personnel |  |  |
| :---: | ---: | :--- |
| $\mathbf{N}$ | $\%$ | Response |
| 29 | $19 \%$ | N/A |
| 29 | $19 \%$ | Remove it/Not Useful |
| 28 | $19 \%$ | None/None Listed |
| 20 | $13 \%$ | GT Program/GT Resources/Provide Completed Plans/Guidelines |
|  |  | Explicit Training \& Implementation/Videos-Examples of what plans look like in relation to |
| 15 | $10 \%$ | student needs |
| 8 | $5 \%$ | Timeline |
| 5 | $3 \%$ | Stream the process |
|  |  | Communication: Communicate with Non-G/T Teachers; Increase Awareness; More Specific |
| 6 | $4 \%$ | Instructions \& Universally Understood; Purpose |

Source: OneSource data file, 2018-2019; Gifted and Talented Department Professional Development Offerings
Note: Charter School personnel are included in OneSource. Gray shaded courses did not meet requirements for state mandates and were not included in the totals.

[^0]:    Sources: Magnet Applicant Transfer System (MATS) 2006-2007 and Magnet Applications Data File, 8/21/2018, entering 2019-2020; Fall PEIMS Snapshot 2007 and Chancery Extract 10/16/2019
    Note: Race/Ethnicity categories changed from 2007-2008 to 2015-2016 when federal race/ethnicity categories were used.
    ${ }^{\text {a }}$ For 2007-2008, Asian and Pacific Islander were grouped together. Vanguard Applicants applying for the 2019-2020 school year include only those using the on-

[^1]:    Source: Fall PEIMS Snapshot, 2018
    Note: Some percentages may not add up to 100 due to rounding. Enrollment Counts $(\mathrm{N})$ were extracted from the fall PEIMS snapshot using the G/T field indicator.

[^2]:    Sources: 2007 College Board Data file extracted 9/18/2007; Fall PEIMS Snapshot: 2006-2007 enrollment data and G/T status.
    Note: Bellaire and Lamar also offer the International Baccalaureate program. G/T Identification code was missing for 51 students in 2007. HISD 9-12 and G/T enrollment reflects only enrollment for schools participating in AP testing. There were $59 \mathrm{G} / \mathrm{T}$ students from 9 campuses that did not participate in AP testing.
    $\pm$ Totals not reported because two schools tested less than five students.
    *Scores not reported for less than 5 students.
