

MEMORANDUM

December 2, 2016

TO: Board Members

FROM: Richard A. Carranza
Superintendent of SchoolsSUBJECT: **2016 FINAL TEA ACCOUNTABILITY SYSTEM RATINGS**

CONTACT: Carla Stevens, (713) 556-6700

The attached report provides a summary of the final 2015–2016 district and campus accountability ratings released by the Texas Education Agency (TEA) on November 17, 2016. Ratings were finalized after the appeals process was completed. **HISD submitted five appeals. The appeals for Port Houston Elementary and Sterling High School were accepted by the TEA. The other three were denied. This report updates the preliminary accountability ratings report to reflect these changes.**

A “Met Standard” rating is assigned to each district and campus based on its performance on the required indexes for which they have performance data. The four indexes are: Student Achievement, Student Progress, Closing Performance Gaps, and Postsecondary Readiness.

PLEASE NOTE: Significant changes in the state testing program and in the technicalities of the state accountability system make the 2016 ratings different from those generated by the 2015 ratings system (e.g. STAAR A, STAAR Alt 2 or STAAR grades 3–8 mathematics results are included in 2016). Due to these changes, caution should be used when attempting to make any comparisons to prior year results. Additionally, those affected by online testing issues this year (including grades 5 and 8 reading and mathematics, grades 4 and 7 writing, and English I and II EOCs) are excluded from the 2016 accountability calculations.

Key Findings:

- The district received a rating of **Met Standard** for the 2015–2016 school year.
- 237 out of 275 campuses (**86%**) were assigned a “Met Standard” rating.
- 32 out of the 58 campuses (**55%**) rated “Improvement Required” last year were assigned a “Met Standard” rating.

**Texas Education Agency
Final Accountability Ratings Report
2015–2016**

In accordance with educational requirements set forth by the 80th and 81st sessions of the Texas Legislature, the Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, has developed a more rigorous assessment system that provides the foundation for the accountability system for Texas public education. The current assessment and accountability systems focus on increasing college and career readiness of the state's graduating high school students and making Texas students more competitive with other students both nationally and internationally.

Changes made to the accountability system over time, primarily in response to the passage of Senate Bill 1031 (80th Texas Legislature, 2007) and House Bill 3 (HB 3, 81st Texas Legislature, 2009), include the following:

- Increasing the rigor and relevance of both standards and assessments;
- Creating and assessing postsecondary readiness standards;
- Establishing campus and district accountability based on higher college-and-career-readiness performance standards on STAAR, and on distinctions earned by campuses demonstrating achievement in areas not measured by the STAAR program as well as on academic performance; and
- Establishing new time lines for interventions and sanctions while also expanding school closure and alternative management options.

On April 23, 2013, Commissioner of Education Michael Williams announced the four components (indexes) that would be part of the new state accountability system for school districts, campuses and charters in Texas. The first ratings under this system were issued by the Texas Education Agency on August 8, 2013. The revised system continues to use student assessments, but also makes use of additional indicators to provide parents and taxpayers greater detail on the performance of a district or charter and each individual campus throughout the state.

The 2016 accountability system uses a performance index framework that consists of four indexes. Detailed information on each of the four indexes, including construction of the index, scoring tables, minimum size requirements and exclusions can be found in the TEA's 2016 Accountability Manual which can be downloaded from the [Research and Accountability website](#). TEA's one page overview is provided in **Appendix A**. The four indexes are:

Index 1 – Student Achievement

Represents a snapshot of performance across all subjects for all students, on both general and alternative assessments, at an established performance standard.

Index 2 – Student Progress

Provides an opportunity for diverse campuses to show improvements made independent of overall achievement levels by measuring year-to-year student progress.

Index 3 – Closing Performance Gaps

Emphasizes advanced academic achievement of the economically disadvantaged student group and the two lowest performing race/ethnicity student groups at each campus or district.

Index 4 – Postsecondary Readiness

Includes measures on four components, State of Texas Assessments of Academic Readiness (STAAR) Final Level II performance, graduation rates, graduation diploma plans, and an

expanded definition of postsecondary readiness indicators. This measure emphasizes the importance of students receiving high school diplomas that provide the foundation necessary for success in college, the workforce, job training programs or the military.

This report provides a summary of the final 2015–2016 district and campus accountability ratings released by the Texas Education Agency (TEA) on November 17, 2016. Ratings were finalized after the appeals process was completed. HISD submitted five appeals. The appeals for Port Houston Elementary and Sterling High School were accepted by the TEA. The other three were denied. This report updates the preliminary accountability ratings report to reflect these changes.

The purpose of this report is to summarize the district and campus accountability ratings based on the accountability targets established for 2015–2016 in **Table 1**. Like last year, district and campuses will not be required to meet the target on all four indexes. To receive a “Met Standard” rating, districts and campuses must meet the performance index targets on the following indexes if they have performance data for evaluation:

Index 1 **OR** Index 2 **AND** Index 3 **AND** Index 4

PLEASE NOTE: Significant changes in the state testing program and in the technicalities of the state accountability system make the 2016 ratings different from those generated by the 2015 ratings system (e.g. STAAR A, STAAR Alt 2 or STAAR grades 3–8 mathematics results are included in 2016). Due to these changes, caution should be used when attempting to make any comparisons to prior year results. Additionally, those affected by online testing issues this year (including grades 5 and 8 reading and mathematics, grades 4 and 7 writing, and English I and II EOCs) are excluded from the 2016 accountability calculations.

Key Findings:

- The district received a rating of **Met Standard** for the 2015–2016 school year.

*Out of 275 campuses that received a state rating, 20 were not eligible due to not being rated, alternative standards, and/or social studies results.

Complete scoring information on all campuses can be found in **Tables 6 – 8**, TEA's one-page reference is provided in **Appendix A**, and TEA's complete list of indicators for the distinction designations are listed in **Appendix B**.

All campuses serving grades PK–12 must receive an accountability rating. However, campuses with no state assessment results due to grade span served (i.e. PK–2) are incorporated into the accountability system by having districts choose another campus within the same district with which to pair for accountability purposes. These campuses, though not rated in the past, receive a rating based solely on the paired campus' performance. These campuses, along with their pairs, are also identified in **Table 6**. Campuses that do not receive a rating are identified in **Table 5**.
