Houston MSTC HS Campus Performance Objectives

Goal Area 1 – Student Achievement: Reading/Language Arts/Literacy

All Domains have a direct correlation to student achievement on ELAR assessments. By the December & May EOC retest administrations, there will be 3% increase in both STAAR English I and English II passing scores as evidenced by test results. These increases include students performing at the approaches, meets, and masters on the English I and English II STAAR EOC as well as the number of students meeting standard. Also, by the End-Of-Year assessment, there will be an overall lexile gain of 50 points for each student as indicated by the Renaissance 360 screener.

Goal Area 1 – Student Achievement: Math

Domain 1, Student Achievement, and Domain 2a, School Progress, have direct correlations to STAAR performance in Math. By the December & May EOC retest administrations, there will be a 3%-point increase in STAAR Algebra I passing scores as evidenced by results. These increases include the percent of students performing at the approaches, meets, and masters on the Algebra I STAAR as well as the number of students meeting standard.

Goal Area 1 – Student Achievement: “Other” (Science, Social Studies)

Domain 1, Academic achievement, has a direct correlation on student performance on STAAR EOCs. By the December & May EOC retest administrations, there will be a 3%-point increase in STAAR Biology passing scores as evidenced by results and a 7%-point decrease in the achievement gap of SPED Biology students to their peers. These increases include the percent of students performing at the approaches, meets, and masters on the Biology STAAR as well as the number of students meeting standard.

Goal Area 2 – Student Achievement: Attendance

Student daily attendance has direct correlations to student achievement and funding. By the end of the 20-21 SY, there will be a 1%-point increase in our yearly average daily attendance rate from 94.88% to 95.8%.

Goal Area 2 – Improve Safety, Public Support, and Confidence: Student Discipline- Reducing Disproportionality in Out of School Suspension

The amount of time a student spends out of the classroom has a negative impact on student achievement. By the end of the school year, there will be a 10%-point decrease in each type of disciplinary infraction. These infractions include a decrease in the number of In-School Suspension (ISS), Out of School Suspension (OSS), Sam Houston Alternative Center (SHAC, campus based alternative placement), & District Alternative Educational Placement (DAEP).

Goal Area 2 – Improve Safety, Public Support, and Confidence: Violence Prevention and Safety

Social and emotional aspects of learning are a basic need to gain ground for academic achievement. By the end of the 20-21 SY, there will be a 5%-point decrease in the top four at-risk behaviors identified by the Choice Program Survey administered by the Council on Recovery. This decrease will be evidenced by the use of student survey data collected, observable by the percentage of students identifying date rape, depression/suicide, technology addiction, and marijuana abuse as their top risky behaviors.

Goal Area 2 – Improve Safety, Public Support, and Confidence: Parent and Community Involvement

Parent engagement is directly correlated to student engagement. By the end of the 20-21 SY, there will be a 5%-point increase in the number of community partnerships and/or parents attending campus sponsored events and an increase in the amount of family and community involvement to support the initiatives of our campus.

Goal Area 3 – Special Populations: Special Ed.

SPED student achievement impacts all Domains. Furthermore, to ensure that Sam Houston MSTC has provided 15% of their student population with an inclusionary educational environment by the end of the 20-21 SY, there will be a 10%-point closure of the achievement gap observed for Special Education students as compared to their general education peers. This will be evidenced by student achievement on STAAR assessments.

Goal Area 3 – Special Populations: Gifted and Talented, ELL, Econ. Disadvantaged, Dyslexia, At-Risk, etc.

English learners (EL) make up 31% of Sam Houston MSTC's population, not to mention, an even greater percentage that identify as life-long English language learners. By the end of the 20-21 SY, there will be a 10%-point closure of the achievement gap observed for ELs and their general education peers through the use of targeted and differentiated instruction to individual student groups to ensure they have acquired the knowledge and skills to be successful on state-mandated TELPAS assessment.

Report of 2017-2018 High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education in FY 2019

Texas statute requires every school district to include, with their performance report, information received under Texas Education Code §51.403(e). This information, provided to districts from the Texas Higher Education Coordinating Board (THECB), reports on student performance in postsecondary institutions during the first year enrolled after graduation from high school.

Student performance is measured by the Grade Point Average (GPA) earned by 2017-2018 high school graduates who attended public four-year and two-year higher education in FY 2019. The data is presented alphabetically for each county, school district and high school. The bookmarks can be used to select the first letter of a county. Then the user can scroll down to the desired county, school district and high school.

For each student, the grade points and college-level semester credit hours earned by a student in fall 2018, spring 2019, and summer 2019 are added together and averaged to determine the GPA. These GPAs are accumulated in a range of five categories from < 2.0 to > 3.5. If a GPA could not be calculated for some reason, that student is placed in the "Unknown" column. GPA data is only available for students attending public higher education institutions in Texas. If a high school has fewer than five students attending four-year or two-year public higher education institutions, the number of students is shown but no GPA breakout is given. If a student attended both a four-year and a two-year institution in FY 2019, the student's GPA is shown in the type of institution where the most semester credit hours were earned.

The number of students located at Texas independent institutions is presented. Also shown are "not trackable" graduates, those with non-standard ID numbers that cannot be used to match student identifiers at Texas higher education institutions. "Not found" graduates have standard ID numbers but were not located in FY 2019 at Texas higher education institutions. They might have enrolled in higher education outside of Texas.

No data is given for high schools with 25 or fewer graduates.

Because the statute calls for data on the first year enrolled after graduation, the level of the institution attended by students in this report may not match that given in THECB's high school to college report at <http://www.txhighereddata.org/Interactive/HSCollLink>. That report shows where students attended in the fall semester after their high school graduation year. This report attributes students to the level of institution where they earned the most semester credit hours during the whole academic year, not just the fall semester.

Please note: In May 2012 the 2006-2007, 2007-2008, and 2008-2009 versions of the *Report of High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education* were updated to reflect a minor correction in how the GPA data are distributed across ranges.
