Guadalupe Padilla, Assistant Principal

SDMC September 19, 2024 MINUTES

- Glows and Grows (1st 6 Weeks)
 - **Glows** – High Expectations (seeing the routines and expectations for students being followed through with); seeing a carryover from last year with students with Reading and Writing; have more CPR and AED trained staff this year (3 currently and 2 will be certified after Friday); saw a lightbulb with a student through the Drill and Practice from Reading by Design; seeing uniformity through all grade levels with SEL and expectations; everyone is putting in the work; already practicing and using the writing strategies from last year being carried over
 - **Grows** – Looking at the independence that we are giving students with their work in the classrooms; 3rd grade expectations with RACE and annotations and having students working in groups more; making sure to meet the expectation of SPED Chair and feeling the stretch; finding a space to collaborate more with other teachers
- Review Action Plan (CIP)
 - Motivation for students – Making sure we're keeping that in mind and staying focused on students and their needs.
 - Goals are high but understandable because of where we currently are.
- Vote on Action Plan (CIP)
 - Approved.
- Techer Survey
