MEMORANDUM June 7, 2011

TO: Board Members

FROM: Terry B. Grier, Ed. D.

Superintendent of Schools

SUBJECT: DISTRICT CUMULATIVE READING & MATHEMATICS SSI RESULTS: SPRING 2011

5th AND 8th GRADE TAKS, SECOND ADMINISTRATION

Enacted by the 76th Texas Legislature in 1999, the Student Success Initiative's (SSI) goal is to ensure that all students receive the instruction and support they need to be academically successful in reading and mathematics. Specifically, a student may advance to the next grade level only by passing these tests or by unanimous decision of his or her grade placement committee.

The first administration of the fifth and eighth grade reading and mathematics TAKS was given on April 4–5, 2011. Students not passing on the first administration received additional instruction and were retested on May 17–18, 2011. A Grade Placement Committee (GPC) addressed the needs of students still not successful on the TAKS and created an educational plan for each student. These students will be given a third opportunity to pass the TAKS during summer school on June 28–29, 2011. Students who do not pass the reading and math TAKS after the third opportunity will automatically be retained unless the GPC determines that the student is likely to succeed in the next grade.

The results from the first administration were released previously. This memo provides the English and Spanish combined districtwide results from the second administration of the fifth and eighth grade reading and math TAKS. The number and percent of students that passed were calculated for the April and May administrations. A cumulative count of students tested combining these two administrations was also calculated. This combined count included the results from the following:

- Students who passed the April Administration,
- Students who did not pass the April administration and retook the test in May,
- Students who did not pass the April Administration and did not retake the test in May, and
- Students with a test document in April who took the reading and/or mathematics TAKS for the first time in May.

In addition, results from the second administration of the TAKS-Modified are included. Due to the unique nature of the TAKS-Alt online assessment program, there is only one administration of the TAKS-Alt, and the results are not included in this memo. Results for the schools and instructional levels accompany this report. A final report will be available in late summer after the third administration of both the reading and math tests.

### Results

**Figure 1** presents four-year trends in cumulative passing rates for fifth and eighth graders on the second administration of the TAKS reading and mathematics, from 2008 to 2011.

In **Tables 1–4**, the results from the spring 2011 English and Spanish TAKS are combined and presented as the percentage of students passing reading and mathematics in grades five and eight. Rates from the April and May administrations are presented along with a cumulative passing rate.

<sup>\*</sup> Cumulative based on April cohort

 When a cumulative rate for both the April and May administrations was calculated based on the April cohort, the results indicated that, of the 13,981 HISD fifth-grade students tested, 90 percent passed the reading TAKS and met the state-mandated requirements of the SSI. This leaves 1,384 students needing to pass this test in summer school to be eligible for promotion.

<sup>\*</sup> Cumulative based on April cohort

• When a cumulative rate for the April and May administrations was calculated based on the April cohort, the results indicated that, of the 14,055 HISD fifth-grade students tested, 92 percent passed the mathematics TAKS and met the state-mandated requirements of the SSI. This leaves 1,130 students needing to pass this test in summer school to be eligible for promotion.

<sup>\*\*</sup> Source: TEA Summary Data Sheets; TAKS and TAKS-Accommodated results.

When a cumulative rate for the April and May administrations was calculated based on the April
cohort, the results indicated that, of the 11,459 HISD students assessed in grade eight, 92
percent passed the reading TAKS. The remaining 953 students must pass the reading TAKS
in summer school to be eligible for promotion.

<sup>\*</sup> Cumulative based on April cohort

When a cumulative rate for the combining of data from both the April and May administrations
was calculated based on the April cohort, the results indicated that, of the 11,436 HISD students
assessed in grade eight, 85 percent passed the mathematics TAKS. The remaining 1,664
students must pass the mathematics TAKS in summer school to be eligible for promotion.

**Tables 5–6** present the results from 2010 and 2011 English TAKS-M second administration for the fifth grade students in reading and mathematics.

### **Apollo 20 Cumulative Eighth Grade TAKS Scores**

**Figures 2 and 3** present four-year trend data on the TAKS SSI grade 8 reading and math for HISD's Apollo schools. Compared to 2010, the overall cumulative passing rates at Apollo 20 schools on the eighth-grade reading exam increased for all campuses except for Ryan Middle School (see Figure 2). For mathematics performance, Apollo campuses reported mixed results from 2010 to 2011, with Attucks and Fondren middle schools experiencing decreases in cumulative performance and Dowling, Key, and Ryan reporting gains from 2010 to 2011 (see Figure 3).

A complete campus listing of the TAKS results for the first and second administrations and combined passing rates is provided in **Appendix A**. Should you have any questions or require any further information, please contact me or Carla Stevens in the Department of Research and Accountability, at 713-556-6700.
