

## MEMORANDUM

January 4, 2012

TO: School Board Members

FROM: Terry B. Grier, Ed.D.  
Superintendent of Schools

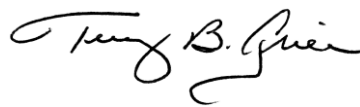

SUBJECT: **COLLEGE-BOUND ASSESSMENT REPORT: 2010–2011**

CONTACT: Carla Stevens, (713) 556-6700

Attached is the College-Bound Assessment Report for 2010–2011. This report provides an analysis of Houston Independent School District (HISD) performance for college-bound students on the 2010–2011 administrations of the Preliminary SAT (PSAT), the SAT Reasoning Test (SAT), the ACT Assessment (ACT), Advanced Placement (AP) exams, and International Baccalaureate (IB) exams. Results were analyzed by race/ethnicity and gender, and state and national data are also presented for comparison purposes. Although most of this information has been provided earlier in separate reports, this report presents all data for the 2010–2011 school year in one place.

- A total of 32,722 HISD freshmen, sophomores and juniors participated in the fall 2010 PSAT/NMSQT. The percent of sophomores and juniors who participated increased from 83.7 percent in 2009 to 86.2 percent in 2010.
- For the class of 2011, the number of HISD graduating seniors with SAT results was 6,221, an increase of 1,301 students taking the test from the 4,920 students in 2010.
- The number of HISD graduating seniors in 2011 with ACT test results was 2,692, an increase of 243 students taking the test from the 2,449 students in 2010. The average composite score increased from 18.8 in 2010 to 19.6 in 2011.
- For 2011, the number of HISD high school students who participated in AP exams increased from 8,875 in 2010 to 12,298 in 2011. HISD students who took AP exams in 2011 took a total of 21,347 exams, an increase of 4,791 exams from 2010. The percent scoring three or higher decreased from 38 percent in 2009 to 31 percent in 2011.
- In 2011, 66 percent of IB exams taken at Bellaire High School and 29 percent of IB exams taken at Lamar High School were scored higher than the worldwide average.

Attached is the complete report including an analysis of districtwide results as well as for all HISD schools that had participating students. Should you have further questions, please contact my office or Carla Stevens in the Department of Research and Accountability at 713-556-6700.

It is the policy of the Houston Independent School District not to discriminate on the basis of age, color, handicap or disability, ancestry, national origin, marital status, race, religion, sex, veteran status, or political affiliation in its educational or employment programs and activities.

# **COLLEGE–BOUND ASSESSMENT REPORT 2010–2011**

This report provides an analysis of Houston Independent School District (HISD) performance for college-bound students on the Preliminary SAT (PSAT), SAT Reasoning Test (SAT), ACT Assessment (ACT), and Advanced Placement exams (AP). In addition, the performance results of students who participated in the International Baccalaureate (IB) testing program are provided. Results by ethnicity and gender are presented for each assessment with the exception of IB, which does not provide results by ethnicity and gender. The results for Texas and the nation are presented for comparison purposes. Campus-level data are included at the end of this report.

## **Preliminary SAT (PSAT)**

### **Introduction**

#### **Purpose**

The Preliminary SAT (PSAT) is a national examination administered in October of each year by the College Board. The PSAT has three parts: critical reading, mathematics, and writing skills.

The PSAT serves as preparation for the SAT Reasoning Test. One of the benefits that students receive is a report assessing their performance on the PSAT with suggestions to improve their skills. Another important benefit is that the PSAT serves as a qualifying examination for numerous scholarship programs that are sponsored by corporations, colleges and universities, and other organizations, including the National Merit scholarships. The National Merit Scholarship Program began in 1955. Of the top 50,000 scorers nationwide, approximately 16,000 students qualify yearly as semifinalists for the National Merit Scholarship.

In addition to the National Merit Scholarship finalists, other specific recognition is bestowed to high-scoring Hispanic students through the National Hispanic Scholar Program, and to high scoring African American students through the National Scholarship Service and Fund for Negro Students which provides a National Achievement Scholarship to qualified students.

The College Search Service, which is operated by the Educational Testing Service, represents another important benefit for students who take the PSAT. For the 2010 administration, 69.9 percent of freshmen, 74.1 percent of sophomores, and 81.2 percent of juniors taking the PSAT/NMSQT registered to participate in this search service, by which colleges and universities obtain names and addresses of tested students who meet specific parameters set forth by the colleges, such as geographic location, areas of major interest, and test score range. The colleges then directly contact the students with recruitment information and materials. As a result, the PSAT has come to serve as a vehicle for bringing prospective students to the attention of colleges and universities.

In the fall of 2003, HISD implemented the PSAT Initiative. Through the HISD Foundation, funds were secured to enable the district to fund this proactive initiative by offering the PSAT to all tenth-grade students attending HISD schools in the fall of 2003. This initiative is designed to provide schools with information about sophomores' academic strengths and interests and to aid the district in identifying students with the aptitude for Advance Placement (AP) courses. This initiative also assists the district in preparing students for college entrance exams and enables students to realize the possibilities of continuing their academic careers after high school. In the fall of 2010, HISD introduced an initiative to provide free PSAT testing for all freshmen.

The College Board (2006, Report No. 2006-1) reports that the PSAT can be utilized to identify students who may be successful in AP courses. Previously, teacher recommendations, self-nomination, previous courses completed, grades in course work, and scores on achievement tests have been successfully used to identify those students that can complete and excel in AP courses. However, this system does not identify all students who could benefit from taking AP courses. The PSAT provides another method of identifying students that can profit academically from enrollment in AP courses. The College Board suggests that teachers and counselors may use expectancy tables, based on PSAT subject area scores and with standards specific to 29 different AP examinations, as an additional predictor of the likelihood of success on AP exams. Schools may elect to use the expectancy tables and AP Potential, which is provided to all schools that administer the PSAT.

### **Administration and Scoring**

The PSAT/NMSQT is a two-hour and ten-minute test. The reading questions are presented in two 25-minute sections. The mathematics questions are also presented in two 25-minute sections for a total of 100 minutes. For the writing section, a total of 30 minutes is allotted for completion. High schools administered the PSAT/NMSQT on their campuses on Wednesday, October 13, 2010. Three scaled scores are generated for each student: a reading score, a mathematics score, and a writing score. Each score ranges from 20 to 80; these numbers are analogous to the scaled scores of 200 to 800 generated by the SAT. Nationally, the average reading, mathematics, and writing scores are nearing the midpoint (50) of the 20 to 80 scale.

### **Participants**

A total of 32,722 HISD students in grades 9–11 participated in the fall 2010 PSAT/NMSQT. The percent of sophomores and juniors who participated increased from 83.7 percent in 2009 to 86.2 percent in 2010. The percent of students in grades 9 through 11 who participated in the fall of 2010 was 85.3 percent. With a new districtwide initiative to test ninth graders, a total of 12,357 freshmen took the PSAT in the fall of 2010. The number of sophomores taking the PSAT/NMSQT increased by 228 students from the previous year, and the number of juniors tested increased by 507 students. The number of HISD campuses participating in the PSAT/NMSQT in the fall of 2009 was 42, and participation increased to include 46 campuses in 2010.

## **Results**

### **Districtwide Performance**

Analysis of districtwide performance focused on the results of freshman, sophomores, juniors, and the combined performance of these three groups. Results from the fall of 2009 and 2010 PSAT are presented in **Table 1**. The averages of student critical reading, mathematics, and writing scores were calculated and analyzed to describe student performance. **It should be noted that 2010 results may include decreases in scores when compared to 2009 results due to the inclusion of freshmen in the 2010 PSAT scores. Ninth graders typically have not taken all the courses which include content tested on the PSAT.**

Table 1: Fall 2009 and 2010 PSAT Mean Reading, Mathematics, and Writing Scores: Sophomores, Juniors, and Combined (Sophomores and Juniors)

<b>Grade</b>	<b>Number Taking</b>		<b>Reading</b>		<b>Mathematics</b>		<b>Writing</b>	
	<b><u>2009</u></b>	<b><u>2010</u></b>	<b><u>2009</u></b>	<b><u>2010</u></b>	<b><u>2009</u></b>	<b><u>2010</u></b>	<b><u>2009</u></b>	<b><u>2010</u></b>
<b>Freshmen</b>	NA	12,357	NA	34.7	NA	37.8	NA	33.6
<b>Sophomores</b>	11,002	11,230	37.1	37.1	39.8	40.2	37.2	35.5
<b>Juniors</b>	8,628	9,135	40.0	40.4	43.1	43.4	40.1	38.8
<b>Combined*</b>	19,630	32,722	38.4	37.1	41.2	40.2	38.4	35.7

\*2010 mean scores include students in grades 9–11.

- A total of 32,722 students participated in the fall 2010 PSAT. Participants included 12,357 freshmen, 11,230 sophomores, and 9,135 juniors.
- The mean scores of freshmen on the PSAT in 2010 were 34.7 in reading, 37.8 in mathematics, and 33.6 in writing.
- The mean scores of sophomores on the PSAT in 2010 were 37.1 in reading, 40.2 in mathematics, and 35.5 in writing. HISD sophomores improved their average performance from 2009 to 2010 on the mathematics section of the PSAT.
- The mean scores of juniors on the PSAT in 2010 were 40.4 in reading, 43.4 in mathematics, and 38.8 in writing. HISD juniors' average performance increased from 2009 to 2010 on the reading and mathematics sections of the PSAT.

### **Race/Ethnicity and Gender**

A demographic comparison of fall 2009 and 2010 PSAT participation and mean scores for freshmen, sophomores and juniors is presented. The mean scores on the PSAT for the following subgroups: African American, Asian American, Hispanic, White, female, and male are presented in **Table 2**.

Table 2: PSAT Mean Reading, Math, and Writing Scores by Student Group: Sophomores, Juniors, &amp; Combined, Fall 2009 and Freshmen, Sophomores, Juniors, &amp; Combined, Fall 2010

Student Group	2010											
	Freshmen			Sophomores			Juniors			Combined		
	Reading	Math	Writing	Reading	Math	Writing	Reading	Math	Writing	Reading	Math	Writing
All	34.7	37.8	33.6	37.1	40.2	35.5	40.4	43.4	38.8	37.1	40.2	35.7
Afr. Amer.	33.1	35.8	32.7	35.1	37.5	34.6	38.0	40.3	37.3	35.3	37.7	34.8
As. Amer.	44.3	49.2	42.7	45.3	51.7	43.1	50.9	58.4	50.0	46.8	53.0	45.2
Hispanic	33.6	37.3	32.5	36.3	39.7	34.2	38.9	42.3	36.9	36.0	39.5	34.3
White	45.3	45.8	42.9	48.9	50.4	46.2	52.8	54.5	50.6	48.8	50.0	46.4
Female	35.5	37.8	34.7	37.8	40.1	36.5	41.0	42.9	39.6	37.9	40.0	36.7
Male	33.9	37.9	32.7	36.4	40.4	34.6	39.9	44.0	38.0	36.4	40.4	34.8
Student Group	2009											
	9 <sup>th</sup> Gr.			Sophomores			Juniors			Combined		
	Reading	Math	Writing	Reading	Math	Writing	Reading	Math	Writing	Reading	Math	Writing
All				37.1	39.8	37.2	40.0	43.1	40.1	38.4	41.2	38.4
Afr. Amer.				35.1	37.5	35.8	37.7	40.0	38.6	36.3	38.6	37.1
As. Amer.				47.1	52.0	46.2	53.2	48.4	51.2	50.0	55.1	48.6
Hispanic				36.0	39.0	35.8	38.0	41.6	38.0	36.8	40.1	36.8
White				48.5	49.1	47.1	52.7	53.7	51.2	50.5	51.3	49.0
Female				37.5	39.7	38.1	40.2	42.8	41.0	38.7	41.1	39.4
Male				36.8	40.0	36.3	39.8	43.4	39.1	38.1	41.5	37.5

- In the fall of 2010, White freshmen reported the highest average mean scores on the reading test and writing tests at 45.3 and 42.9, respectively, and Asian American students had the highest mean averages in mathematics at 49.2.
- When compared to 2009 PSAT results, the combined grade level results showed decreases for all subjects and students groups in 2010. It should be noted that the 2010 combined results included 9<sup>th</sup> graders who had only limited exposure to high school coursework at the time of PSAT testing.
- In the fall of 2010, all student ethnic groups except for Asian American students for sophomores and juniors experienced an increase or remained constant in mean scores on the reading section of the PSAT when compared to the performance of their 2009 peers. Scores on the writing section of the 2010 PSAT were down for all grade levels and for all student ethnic groups. All junior student groups and all sophomore groups except for Asian American students reported gains or remained constant on the mathematics test.
- For both the sophomore and junior classes, females outperformed males on the reading and writing sections of the fall 2010 PSAT, while males outperformed females on the mathematics section.

The fall 2009 and 2010 PSAT mean scores for the reading, mathematics, and writing sections were also examined to determine the achievement gap between Hispanic and African American student groups and their White counterparts. The districtwide differences in mean scores were calculated for freshmen, sophomores, juniors, and those grades combined. These results are presented in **Table 3**.

Table 3: PSAT Mean Score Achievement Gap for Reading, Math, and Writing: Sophomores, Juniors, & Combined, Fall 2009, and Freshmen, Sophomores, Juniors, & Combined, Fall 2010

	<u>2010</u>											
	<u>Freshmen</u>			<u>Sophomores</u>			<u>Juniors</u>			<u>Combined</u>		
	R	M	W	R	M	W	R	M	W	R	M	W
African American-White	-12.2	-10.0	-10.2	-13.8	-12.9	-11.6	-14.8	-14.2	-13.3	-13.5	-12.3	-11.6
Hispanic- White	-11.7	-8.5	-10.4	-12.6	-10.7	-12.0	-13.9	-12.2	-13.7	-12.8	-10.5	-12.1
	<u>2009</u>											
	9 <sup>th</sup> grade not tested			R	M	W	R	M	W	R	M	W
African American-White				-13.4	-11.6	-11.3	-15.0	-13.7	-12.6	-14.2	-12.7	-11.9
Hispanic- White				-12.5	-10.1	-11.3	-14.7	-12.1	-13.2	-13.7	-11.2	-12.2

- In fall 2010, the largest achievement gap between White freshmen and their minority cohorts on the reading PSAT was -12.2 between White and African American students. On the mathematics section, the largest achievement gap was -10.0 between White and African American students, and in writing the largest gap was between White and Hispanic freshmen at 10.4.
- In fall 2010, the largest achievement gap between White sophomores and their minority cohorts on the reading PSAT was -13.8 between White and African American students. On the mathematics section, the largest achievement gap was -12.9 between White and African American students. For sophomores from 2009 to 2010, the achievement gaps between White student performance and minority student performance increased on all sections of the PSAT.
- The results of the analysis of the achievement gap between juniors indicated that the largest mean differences were between White and African American students for reading and mathematics and between White and Hispanic students in writing on the 2010 PSAT. From 2009 to 2010, the achievement gaps between White student performance and minority student performance decreased in reading and increased in mathematics and writing in 2010.

### **HISD, Texas, and Nation**

A comparison of HISD sophomores and juniors to their counterparts in Texas and the nation is presented in **Table 4**. Freshmen are not included for comparison because the College Board does not produce a national or state data summary report for ninth graders.

Table 4: Mean PSAT Scores of HISD 10<sup>th</sup> and 11<sup>th</sup> Grade Students with Texas and the Nation, Fall 2009 and 2010

<u>Sophomores</u>						
	2009			2010		
	Reading	Math	Writing	Reading	Math	Writing
HISD	37.1	39.8	37.2	37.1	40.2	35.5
Texas	40.8	43.1	40.2	40.8	43.4	38.7
National	42.0	43.3	41.0	42.5	44.0	40.4

<u>Juniors</u>						
HISD	40.0	43.1	40.1	40.4	43.4	38.8
Texas	44.0	46.7	43.5	44.2	47.2	42.4
Nation	46.9	48.2	45.8	47.3	48.9	45.4

- When comparing the performance of HISD sophomores from 2009 to 2010, the mean reading score remained 37.1, the mean mathematics score was up 0.4, and the mean writing score went down 1.7 points. Scores for sophomores in the state of Texas and the nation increased or remained constant in reading and mathematics over the same time period, while their writing scores declined. Since the fall of 2009, HISD sophomores have increased the gap between their performance and that of their national counterparts in all three subtests, and they have narrowed the gap with the state by 0.1 in mathematics.
- The average performance of HISD juniors in the fall of 2010 was up 0.4 point in reading from 2009, up 0.3 point in mathematics, and down 1.3 in writing. Scores for juniors in the state of Texas and the nation increased in reading and math and declined in writing over the same time period. Since the fall of 2009, performance gaps between HISD juniors and that of their state counterparts have decreased for critical reading. The gaps between HISD juniors and their state and national counterparts increased for mathematics and writing.

### College Readiness Benchmark

The PSAT/NMSQT College Readiness Benchmark is the score on each section that a student should meet or exceed to be considered on track to be college ready. Separate benchmarks are provided for sophomores and juniors.

The College Readiness Benchmark has been added to PSAT/NMSQT reporting to help educators have a better understanding of how many and also which students are on track to have the skills necessary for success in college. Equipped with this information, educators can support students who need extra help while there is still time for improvement.

The PSAT/NMSQT College Readiness Benchmark is part of a series of indicators that help educators gauge college readiness at different points in a student's career. It was developed based on the SAT College Readiness Index, which was computed as part of an SAT validity study. The PSAT/NMSQT College Readiness Benchmark is also aligned to a ReadStep indicator that was available beginning in spring 2011. For juniors, the PSAT/NMSQT benchmarks the score associated with a 65 percent likelihood of meeting the SAT benchmark; for sophomores, it is the score associated with a 65 percent likelihood of meeting the junior PSAT/NMSQT benchmark.

## HISD PSAT Benchmark Comparison

The PSAT/NMSQT college readiness benchmarks for grades 10 and 11 for each subject is presented in **Table 5**. A comparison of HISD 10<sup>th</sup> and 11<sup>th</sup> grade students meeting the PSAT/NMSQT college readiness benchmarks from 2010 and 2011 are presented in **Table 6**.

Table 5: PSAT/NMSQT College Readiness Benchmarks for 10 <sup>th</sup> and 11 <sup>th</sup> Grades				
	Critical Reading	Mathematics	Writing	PSAT/MNSQT Composite
11 <sup>th</sup> grade PSAT/NMSQT	50	50	49	152
10 <sup>th</sup> grade PSAT/NMSQT	50	47	48	145

Table 6: The Percent of Students in Grades 10, 11, and Total that Met the College Readiness Benchmark		
Grade	2010	2011
Sophomore	12	12
Junior	16	16
Total	14	14

## SAT Reasoning Test (SAT)

### Introduction

#### Purpose

The SAT Reasoning Test (SAT) is a college-entrance exam developed by the College Board. The SAT provides a standard by which the skills of students applying for colleges and universities can be compared nationally. Standardized tests are designed to allow college admissions officers to judge all students by a common measuring stick. Standardized test scores compensate for the uncertainty surrounding high school grades, school-to-school differences, grade inflation, and teaching quality, for example. In addition, admissions officers use these scores as a way to predict academic performance in the first year of college. Educational organizations recognize scores on the SAT as useful indicators of college readiness and valid predictors of college success.

#### Description

The SAT is designed to measure developed verbal and mathematical reasoning abilities related to successful performance in college. The SAT was redesigned for 2005, and the first administration of the new test was given on March 12, 2005. Changes included the addition of third-year college-preparatory mathematics, more critical reading selections, and a writing section. The SAT is a three-hour and forty-five-minute exam. There are seven sections: three mathematics, two critical reading, and two writing, including a twenty-five minute essay.

### Administration

The test is administered seven times per year nationwide. Most students take the SAT at national administrations during their junior and senior years in high school. Colleges use SAT scores to make admission decisions, recruit students, place students in appropriate courses, and predict student performance at the college-level; however, they are intended to supplement student records.

### Scoring

In order to get an SAT raw score, a fraction of the multiple-choice questions answered incorrectly is subtracted from the number answered correctly. If that resulting score is a fraction, it is rounded to the nearest whole number --  $\frac{1}{2}$  or more is rounded up; less than  $\frac{1}{2}$  is rounded down. The raw score is then changed into a scaled score by a statistical process called equating. Equating adjusts for slight differences in difficulty between test editions and ensures that a score on one edition of a test reflects the same ability as a score on another edition and that the score does not depend on how well others did on the same edition. Scores for the critical reading, math, and writing sections of the SAT range from 200 to 800. A combined score is calculated by adding the section scores together. A 2400 is the highest possible combined score. The critical reading and math sections of the new SAT correspond to the verbal and math sections of the previous version of the SAT.

### Participants

The number of HISD graduating seniors in 2011 with SAT results was 6,221, an increase of 1,301 students taking the test from the 4,920 students in 2010.

### Districtwide Performance

Districtwide results were summed and calculated to determine the number of students tested, the mean verbal score, the mean mathematics score, the mean writing score, and the combined score for the SAT. **Table 7** presents districtwide results for the classes of 2001 through 2011.

---

Table 7: HISD Critical Reading, Math, and Writing Scores on the SAT: Graduating Classes 2001 through 2011

---

<u>Year</u>	<u>N Tested</u>	<u>Reading</u>	<u>Math</u>	<u>Writing</u>	<u>Combined</u>
2001	4,037	467	472		939
2002	4,260	465	472		937
2003	4,573	467	475		942
2004	4,622	463	471		934
2005	4,774	464	473		937
2006	4,401	469	478	468	1415
2007	4,703	470	482	467	1419
2008	4,680	466	477	465	1408
2009	4,600	458	476	453	1387
2010	4,920	457	477	454	1388
<b>2011</b>	<b>6,221</b>	<b>445</b>	<b>470</b>	<b>440</b>	<b>1355</b>

---

\*Note: In 2006, the SAT added a Writing subtest.

- The number of HISD graduating seniors in 2010 with SAT results was 6,221, an increase of 1,301 from 2010.

- The average critical reading score decreased 12 points from 2010 to 445. The average score on the math subtest decreased by seven points in 2010 to 470, and the average writing test score decreased by 14 points in 2010 to 440.
- In 2011, the average total score for the three subtests was 1355, down from 1388 in 2010.

### Race/Ethnicity and Gender

A demographic comparison of SAT participation and mean scores for the HISD classes of 2010 and 2011 are presented in **Table 8**. The mean scores on the SAT for the following subgroups: American Indian, Asian American, African American, Hispanic, White, and other are examined. The College Board provides data for “Puerto Rican,” “Mexican or Mexican American,” and “Other Hispanic, Latino, or Latin American” student groups, and these data are combined for district results for the Hispanic student group. In addition, SAT scores of students who did not indicate their race/ethnicity are provided.

Table 8: Average SAT Scores by Student Group, Classes of 2010 and 2011								
	2010				2011			
<b>Group</b>	N Tested	Read	Math	Writing	N Tested	Read	Math	Writing
American Indian	7	521	517	516	14	509	501	454
Asian American	388	550	621	557	421	544	611	553
African American	1,508	419	425	416	1,913	412	423	405
Hispanic	2,165	431	454	426	2,884	418	450	414
White	673	564	574	558	806	559	575	550
Other	88	491	510	486	117	494	490	486
No Response	91	495	516	485	66	454	459	428
Female	2,705	455	465	460	3,440	441	458	444
Male	2,215	460	493	446	2,781	450	485	434
<b>Total</b>	<b>4,920</b>	<b>457</b>	<b>477</b>	<b>454</b>	<b>6,221</b>	<b>445</b>	<b>470</b>	<b>440</b>

- There was an increase in the number of students tested from 2010 to 2011 for students in all student groups, except for those who did not indicate their ethnicity.
- The average critical reading SAT scores for students in all ethnic groups except for “other” decreased from the class of 2010 to the class of 2011. The largest decrease of 13 points was reported by students in the Hispanic student group.
- The average math SAT score for students in all ethnic groups except for White students decreased from 2010 to 2011, with students in the “other” and “no response” groups reporting the largest losses, from 2010 to 2011, with decreases of 20 and 57 points, respectively.
- The average writing SAT score for students in all ethnic groups except students in the “other” student group decreased from 2010 to 2011, with students in the “no response” group recording a 57-point decrease.
- Both the number of female and male students tested on the SAT increased from 2010 to 2011, with the number of female students tested increasing by 735 and the number of males tested increasing by 566.

- The average scores on the critical reading, math, and writing SAT tests decreased from 2010 to 2011 for both female and male students. Female students in the class of 2011 outperformed their male counterparts in writing, while males in the class of 2011 outscored females in critical reading and math.

The SAT scores for the critical reading and mathematics sections were also examined to determine the difference between the performances of student groups. Expressly, the achievement gap between minority student groups, Hispanic and African American students, and their White counterparts was examined. The districtwide differences in average scores were calculated for 2010 and 2011. These results are presented in **Table 9**.

Table 9: SAT Achievement Gap for Critical Reading, Math, and Writing Scores: Graduating Classes of 2010 and 2011						
	2010			2011		
	<u>Reading</u>	<u>Math</u>	<u>Writing</u>	<u>Reading</u>	<u>Math</u>	<u>Writing</u>
<b>African American</b>	-145	-149	-142	-147	-152	-145
<b>White</b>						
<b>Hispanic</b>	-133	-120	-132	-141	-125	-136
<b>White</b>						

- The achievement gaps increased for all three subtests of the SAT from 2010 to 2011 between White students and both their African American and Hispanic counterparts. On the SAT reading test, the achievement gap increased by 2 points and 8 points between White and African American students and between White and Hispanic students, respectively. Achievement gaps in math increased by 3 and 5 points between White and African American students and between White and Hispanic students, respectively.
- The largest achievement gap between White students and their minority counterparts on all sections of the 2011 SAT were between White and African American students in math, with a gap of -152 points.

### HISD, Texas, and Nation

A comparison of HISD students on the SAT to their counterparts in Texas and in the nation for the graduating classes of 2010 and 2011 is presented in **Table 10**.

Table 10: Average SAT Scores of HISD Students with Texas and National Students: Graduating Classes of 2010 and 2011						
	2010			2011		
	<u>Reading</u>	<u>Math</u>	<u>Writing</u>	<u>Reading</u>	<u>Math</u>	<u>Writing</u>
<b>HISD</b>	457	477	454	445	470	440
<b>Texas</b>	484	505	473	479	502	465
<b>Nation</b>	501	516	492	497	514	489

- From 2010 to 2011, the average critical reading SAT score for HISD decreased by 12 points, the average mathematics score decreased by 7 points, and the average writing score decreased by 14 points. Mean scores for Texas decreased in 2011 by 5 points in reading, 3 points in mathematics, and 8 points in writing. For the nation, scores declined by 4 points in reading, 2 points in mathematics, and 3 points in writing from 2010 to 2011.
- Performance gaps between the district and the state and nation increased for the class of 2011 as compared with the class of 2010. The largest gap increase between HISD and Texas was in critical reading where the performance gap increased by 7 points, from a 27-point gap in 2010 to a 34-point gap in 2011. The largest gap increase between HISD and the nation was in writing where the performance gap increased by 11 points, from a 38-point gap in 2010 to a 49-point gap in 2011.

## **ACT Assessment (ACT)**

### **Introduction**

#### **Purpose**

The founders of the ACT established the American College Testing Program in 1959. The program, which evolved from the Iowa Tests of Educational Development at the University of Iowa, was used to help students make better decisions regarding their postsecondary education and to provide more information to colleges. Colleges use the data to help them plan their curricula and place students in the appropriate courses of study. In late 1996, they changed their name from the American College Testing Program to ACT. The ACT is a national college-admission exam. It assesses both the general educational level of high school students and their readiness for college-level work.

#### **Description**

The ACT consists of four tests: English, mathematics, reading, and science reasoning. The tests are curriculum-based and universally accepted by U.S. colleges and universities. The test takes two hours and 55 minutes. There are 75 questions on the English test, 60 questions on the mathematics, 40 questions on the reading, and 40 questions on the science test.

#### **Administration**

The ACT is administered five times per year nationally in October, December, February, April, and June. In selected states, the ACT is also offered in late September. Most students take the ACT during the winter or spring of their junior year, saving the fall of their senior year for retesting, if necessary.

#### **Scoring**

The ACT assessment takes raw scores and converts them to scale scores that have the same meaning for all forms of the tests. The scale scores range from 1 to 36 for each of the four tests and for the composite. The composite is the average of the four test scores, rounded to the nearest whole number. A 36 is the highest possible composite score.

#### **Participants**

The number of Houston Independent School District (HISD) graduating seniors in 2011 with ACT test results was 2,692, an increase of 243 students taking the test from the 2,449 students in 2010. The participation rate of HISD students on the ACT is generally lower than the participation rate of students on the SAT.

### **Results**

#### **Districtwide Performance**

Districtwide figures were summed and calculated to determine the number of students tested and the mean English, mathematics, reading, science reasoning, and composite scores. Results for the graduating classes of 2001 through 2011 on the ACT are presented in **Table 11**.

Table 11: HISD Mean English, Math, Reading, Science, and Composite Scores on the ACT:  
Graduating Classes 2001 through 2011

Year	N Tested	English	Math	Reading	Science	Composite
2001	1,293	18.0	18.8	18.7	18.5	18.6
2002	1,437	17.9	18.8	18.4	18.5	18.5
2003	1,492	18.2	19.0	18.9	18.8	18.8
2004	1,388	18.5	19.2	19.1	19.1	19.1
2005	1,565	17.9	18.8	18.6	18.7	18.6
2006	1,464	18.5	19.4	19.4	19.2	19.3
2007	1,395	18.8	20.0	19.7	19.4	19.6
2008	1,458	19.4	20.6	20.2	19.5	20.1
2009	1,880	19.1	20.3	19.8	19.3	19.7
2010	2,449	17.5	19.6	18.6	18.9	18.8
<b>2011</b>	<b>2,692</b>	<b>18.4</b>	<b>20.5</b>	<b>19.4</b>	<b>19.6</b>	<b>19.6</b>

- The number of graduating seniors in 2011 with ACT results was 2,692, an increase of 243 from the 2,449 students taking the test in 2010.
- The class of 2011 experienced an increase in mean scores for all of the sections of the ACT assessment compared to the class of 2010. The composite score for HISD students increased from 18.8 in 2010 to 19.6 in 2011.
- The highest mean score on any subtest of the ACT for graduating seniors in 2011 was reported on the math test, with a score of 20.5.
- Over the last eleven years, the composite ACT score has ranged from a low of 18.5 in 2002 to a high of 20.1 in 2008.

### Race/Ethnicity and Gender

A demographic comparison of the ACT mean scores for the classes of 2010 and 2011 is presented. The mean scores on the ACT for the following subgroups, African American, Asian American, Mexican American, and White are presented in **Table 12**.

Table 12: ACT Mean English, Mathematics, Reading, Science, and Composite Scores  
by Race/Ethnicity: 2010 and 2011

	<u>English</u>		<u>Mathematics</u>		<u>Reading</u>		<u>Science</u>		<u>Composite</u>	
	2010	2011	2010	2011	2010	2011	2010	2011	2010	2011
African American	15.4	16.0	17.4	18.0	16.6	16.9	17.3	17.4	16.8	17.2
Amer. Indian	15.6	19.4	18.8	18.8	19.2	20.8	16.4	19.2	17.6	19.8
Asian Am./Pac. Is.	23.7	25.1	27.3	27.8	24.4	25.0	24.6	25.5	25.1	26.0
Hispanic	15.4	16.3	18.5	19.3	16.9	17.9	17.5	18.3	17.2	18.1
White	25.0	24.9	24.9	25.2	25.4	25.4	24.2	24.7	25.0	25.2
No Response	18.6	20.7	20.3	22.2	20.0	21.9	19.2	21.3	19.6	21.6
Female	17.9	18.4	19.3	19.9	18.8	19.4	18.7	19.2	18.8	19.4
Male	17.0	18.3	20.0	21.3	18.4	19.4	19.2	20.3	18.8	19.9
<b>Total</b>	<b>17.5</b>	<b>18.4</b>	<b>19.6</b>	<b>20.5</b>	<b>18.6</b>	<b>19.4</b>	<b>18.9</b>	<b>19.6</b>	<b>18.8</b>	<b>19.6</b>

- All student groups in the class of 2011 except for White students in English and reading and American Indian students in mathematics showed increases in performance from the class of 2010 on the ACT.
- The highest mean scores on all sections of the ACT for the class of 2011 were reported by the White and Asian American student groups, while the lowest mean scores on all sections of the ACT were reported by African American students for the class of 2011.
- The average ACT scores for both female and male students increased from 2010 to 2011 for all subject areas. Female students outperformed their male counterparts in English and equaled their performance in reading on the 2011 ACT, while males outperformed females on the mathematics and science tests and on the mean composite score.

### HISD, Texas, and Nation

A comparison of HISD students on the ACT to their counterparts in Texas and the nation for the graduating classes of 2010 and 2011 is presented in **Table 13**.

Table 13: ACT Comparison of HISD Students with Texas and National Students, Graduating Classes of 2010 and 2011

	<u>English</u>		<u>Math</u>		<u>Reading</u>		<u>Science</u>		<u>Composite</u>	
	2010	2011	2010	2011	2010	2011	2010	2011	2010	2011
<b>HISD</b>	17.5	18.4	19.6	20.5	18.6	19.4	18.9	19.6	18.8	19.6
<b>Texas</b>	19.7	19.6	21.4	21.5	20.8	20.7	20.9	20.8	20.8	20.8
<b>Nation</b>	20.5	20.6	21.0	21.1	21.3	21.3	20.9	20.9	21.0	21.1

- While the average ACT scores have increased in 2011 from 2010 in HISD, the nation failed to make any gains in reading and science and only increased by 0.1 in English and mathematics.

- The average ACT scores for Texas decreased by 0.1 points in English, reading, and science from 2010 to 2011 and increased by 0.1 points for Texas students in math, while the composite score remained the same.
- The largest performance differences between HISD and the nation for 2011 were on the English and reading sections, with HISD trailing the nation by a difference of 2.2 points in English and by 1.9 points in reading section. The largest performance difference between HISD and Texas for 2011 was on the reading section, with HISD trailing the state by a difference of 1.3 points.

## **Advanced Placement (AP)**

### **Introduction**

#### **Purpose**

The Advanced Placement (AP) Program was established in 1955 as a cooperative educational endeavor between secondary schools and colleges and universities. Since its inception in 1955, the program has provided high school students with the opportunity to take college-level courses and earn college credit. The courses are equivalent to a first-year college course and are taught by highly qualified teachers. Most American colleges and universities accept AP courses with qualifying exam grades towards college credit, advanced placement, or both. In addition, nearly 300 universities outside the United States use AP courses and exam grades in the admissions process (The College Board, 2003).

#### **Description**

There are a total of 37 AP exams offered in 22 subject areas. AP exams are created by a committee of experienced AP secondary school teachers and university professors who specialize in each of the subjects for which an exam is offered. The format of AP exams includes a multiple-choice section and a free-response (essay or problem-solving) section. The exceptions to this format are the AP exams for Studio Art, which is a portfolio assessment, Music Theory, which includes a sight-singing task, and the modern language exam, which includes a speaking component.

#### **Administration**

The Educational Testing Services (ETS) mails out the AP exams along with other exam-related materials to participating schools in April or early May. The AP exams are administered each year in May over a two-week period. Once testing is completed, all AP exams are returned to ETS.

#### **Scoring**

The AP grade scale ranges from 1 to 5. A score of 1 indicates “no recommendation,” a score of 2 “possibly qualified,” a score of 3 “qualified,” a score of 4 “well qualified,” and a score of 5 indicates “extremely well qualified.” The multiple-choice section of the exam is scored by computer. The free-response section is scored by trained readers during a week-long scoring session held in June. These readers who are made up of AP teachers and university professors follow detailed scoring guidelines. Each AP exam has a formula for combining the scores of the multiple-choice and free-response sections of the exam into a composite score. A score of 3 qualifies a student to earn advanced placement or college credit.

#### **Participants**

The number of HISD high school students who participated in AP exams increased from 8,875 in 2010 to 12,298 in 2011. The 12,298 HISD students who took AP exams in 2011 took a total of 21,347 exams, an increase of 4,791 exams from 2010. The percent of exams scored at a 3 or higher was 31 percent, a decrease of 7 percentage points from 2010. District data for 2010 and 2011 were drawn from the August electronic files provided by the College Board, which represent the most current data available at the time and only included exams taken by HISD high school students.

## Results

### Districtwide Performance

Districtwide results were summed and calculated to determine the number of AP exams, and the percent scoring 3 or above. **Table 14** presents districtwide results for the years 2001 through 2011.

Table 14: Number of AP Exams Taken and Percent of Scores at 3 or Above: 2001–2011			
Year	N Students	N Exams	% Scoring 3+
2001	1,968	3,769	57
2002	2,361	4,724	59
2003	2,570	5,351	60
2004	3,110	6,068	54
2005	3,873	7,188	49
2006	4,358	8,092	48
2007	4,842	9,118	47
2008	5,447	10,210	44
2009	6,069	11,594	42
2010	8,875	16,556	38
<b>2011</b>	<b>12,298</b>	<b>21,347</b>	<b>31</b>

- The number of AP exams that HISD students have taken over the last decade has increased from 3,769 in 2001 to 21,347 in 2011. The number of students taking the AP exam has increased from 1,968 in 2001 to 12,298 in 2011.
- The percent of scores at 3 or above has ranged from a low of 31 percent in 2011 to a high of 60 percent in 2003.

### Race/Ethnicity and Gender

A demographic comparison of the AP participation and the percent of scores at 3 or above for 2010 and 2011 are presented. The scores on AP exams for the following student groups, American Indian, Asian American, African American, Hispanic, White, and other, are presented in **Table 15**.

Table 15: Number of AP Exams Taken by HISD High School Students and Percent of Scores at 3 or Above by Racial/Ethnic Group: 2010 and 2011				
	<u>2010</u>		<u>2011</u>	
	N of Exams	% Scoring 3+	N of Exams	% Scoring 3+
American Indian	31	16	41	24
Asian American	2,388	73	2,465	68
African Amer	2,815	16	4,186	13
Hispanic	7,665	27	10,488	23
White	2,595	62	3,316	56
Other	474	43	562	32
No Response	588	26	289	19
Female	9,116	36	11,712	30
Male	7,439	40	9,635	33
<b>Total</b>	<b>16,556</b>	<b>38</b>	<b>21,347</b>	<b>31</b>

- From 2010 to 2011, the number of AP exams taken increased for each student group in HISD except for students in the “no response” student group. Over the same time period, the percent of exams scored at 3 or above increased for students in the American Indian student group.
- The highest number of AP exams taken was by Hispanic students who took a total of 10,488 exams, followed by African American students who took 4,186 exams. Asian American and White students had the highest percentage of exams scored at 3 or above with 68 percent and 56 percent, respectively.
- The number of AP exams taken by female and male students increased from 2010 to 2011. In 2011, there were 2,077 more exams taken by female students than male students. The percentage of female students’ exams scored 3 or above decreased by six percentage points from 2010 to 2011, and male students experienced a seven percentage-point decrease in exams scored at a 3 or higher over the same time period.

### HISD, Texas, and Nation

A comparison of HISD students on AP exams to their counterparts in Texas and the nation for students tested in 2010 and 2011 is presented in **Table 16**.

Table 16: AP Exam Comparison of HISD Students with Texas and National Students:  
2010 and 2011

	<u>2010</u>		<u>2011</u>	
	N of Exams	% Scoring 3+	N of Exams	% Scoring 3+
<b>HISD</b>	16,556	38	21,347	31
<b>Texas</b>	325,571	47	360,735	45
<b>Nation</b>	3,213,225	58	3,365,617	57

- The number of AP exams taken increased from 2010 to 2011 for HISD by 29 percent, for Texas by 11 percent, and for the nation by 5 percent.
- The percent of HISD student exams scored at 3 or above was 31 percent compared to 45 percent in Texas and 57 percent in the nation in 2011.

## **International Baccalaureate (IB)**

### **Introduction**

#### **Purpose**

The International Baccalaureate Organization is a nonprofit international educational organization established in 1968. This organization offers the International Baccalaureate (IB) Diploma Programme for students aged 16-19. The IB Diploma Programme is a two-year course of study that prepares students for college. The IB Diploma Programme is recognized and accepted by universities around the world. Similar to the AP program, students with high scores on IB exams can earn college credit or advanced placement at a college or university.

#### **Description**

Students participating in the IB Diploma Programme are required to take six exams which are in the following subject groups: literature, language, social science, experimental science, mathematics, and art. The students may choose to replace the art exam by a second social science, experimental science, or a third language. Students test in three of their subjects at the higher level and three of their subjects at the subsidiary level. IB exams are developed by an international board of chief examiners, with input from IB teachers from around the world (IBO, 2004). Students may also choose to take individual IB courses and the exams.

In addition, students must fulfill three additional requirements. They must take a critical thinking class known as “Theory of Knowledge,” complete an original 4,000 word research project known as “Extended Essay,” and participate in a minimum of 150 hours of community service, artistic, and physical activities known as “Creativity, Action, and Service.”

#### **Administration**

IB exams are administered to students at their high school in two sessions. The first session takes place in November, and the second session takes place in May. IB exams are administered over a period of two weeks.

#### **Scoring**

An international body of 3,500 trained IB examiners composed of university professors and master secondary school teachers score the IB exams. An examining board oversees the scoring of the examiners to ensure that scoring is consistent across subjects and across the world. Final scores are given in each subject at the IB Curriculum and Assessment Center in Wales. Each exam is graded on a scale of 1 to 7. Students who earn a score of 4 or higher on an IB exam will be awarded an IB certificate in that subject area. Students must complete the requirements stated previously and achieve a cumulative score of 24 to be awarded the IB Diploma. Results are released each year in July.

#### **Participants**

Two HISD high schools participated in the IB program in 2010 and 2011. These schools are Bellaire and Lamar high schools. The total number of students who participated in the IB exams increased from 376 students in 2010 to 504 students in 2011. Of the two participating schools, Lamar High School had more students who took an IB exam.

## Results

### Districtwide Performance

Districtwide results were summed and calculated to determine the number of IB exams taken and the percent scoring 4 or above. **Table 17** presents results for the participating schools, Bellaire and Lamar, for 2010 and 2011.

Table 17: Number of IB Exams Taken and Percent of Scores at 4 or Above: 2010 and 2011

	<u>2010</u>		<u>2011</u>	
	N of Exams	% Scoring 4+	N of Exams	% Scoring 4+
<b>Bellaire</b>	88	90	146	86
<b>Lamar</b>	1,039	79	1,270	71

Note: Theory of Knowledge and Extended Essay exams are not included. Also, exams with pending or no grade status are not included.

- The number of exams taken at Bellaire High School increased from 88 in 2010 to 146 exams in 2011. The percent of exams scored at 4 or above decreased slightly from 90 percent in 2010 to 86 percent in 2011.
- The number of exams taken at Lamar High School increased from 1,039 in 2010 to 1,270 in 2011. The percent of exams scored at 4 or above decreased from 79 percent in 2010 to 71 percent in 2011.

### HISD, Texas, and Nation

A comparison of HISD students on IB exams to their counterparts in Texas and in the nation for 2010 and 2011 is presented in **Table 18**.

Table 18: IB Exam Comparison of HISD Students with Texas and National Students: 2010 and 2011

	<u>2010</u>		<u>2011</u>	
	N of Exams	% Scoring 4+	N of Exams	% Scoring 4+
<b>HISD</b>	1,127	80	1,416	73
<b>Texas</b>	9,095	76	11,575	72
<b>Nation</b>	159,246	73	172,718	72

- The percent of HISD exams scored at 4 or above was 73 percent, a decrease of seven percentage points from 2010, and which was one percentage point higher than the state and the nation in 2011.
- The number of IB exams taken in HISD increased from 1,127 in 2010 to 1,416 in 2011, and both the state and the nation also experienced an increase over the same time period.

A comparison of HISD student mean performance on IB exams to mean performance worldwide for 2011 is presented in **Table 19**.

Table 19: IB Exam Performance Comparison of HISD and Worldwide, 2011

	<b>N of Subjects Tested</b>	<b>Number &gt; WW Average</b>	<b>Percent &gt; WW Average</b>
<b>Bellaire</b>	29	19	66
<b>Lamar</b>	38	11	29

- Students from Bellaire High School took 29 different IB exams in 2011, and on 19 of those exams or 66 percent, the average score was higher for Bellaire students than the average scores worldwide.
- In 2011, students at Lamar High School took 38 different IB exams. On 11 of those subject exams, or 29 percent, the average score for Lamar students was higher than the average score worldwide.

## Houston Independent School District

PSAT								
Grade	2009-10				2010-11			
	Reading	Math	Writing	%Benchmark	Reading	Math	Writing	%Benchmark
