

MEMORANDUM

July 28, 2016

TO: Board Members

FROM: Kenneth Huewitt
Interim Superintendent of Schools

CONTACT: Carla Stevens, (713) 556-6700

SUBJECT: **DISTRICT AND SCHOOL RESULTS FROM THE SPRING 2016 STAAR ASSESSMENTS FOR GRADES 3 THROUGH 8**

In spring 2016, approximately 92,000 HISD students in grades 3 through 8 took the State of Texas Assessments of Academic Readiness, or STAAR, assessments in reading, mathematics, writing, science and social studies. At grades 3-8, all students are tested in mathematics and reading. Students are also tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8.

This report provides the results for the spring 2016 assessments of STAAR, STAAR Spanish, STAAR L, STAAR Accommodated and Alternate 2 for Students with Disabilities.

Please note the following:

- This year, by commissioner's rule, the Level II Phase-in 1 Satisfactory standard was increased to the Level II Satisfactory 2016 progression standard. This means that students taking the STAAR grades 3–8 assessments will have to answer more items correctly to “pass” the exams than in the previous year. Any comparisons to prior performance should be made with caution.

Key Findings:

- At the **elementary campus level, one-year improvements** ranged from 76% (132 out of 173 campuses) in 4th grade reading to 28% (48 out of 174 campuses) in 5th grade Reading (STAAR English and Spanish combined).
- At the **middle school campus level, one-year improvements** ranged from 71% (41 out of 58 campuses) in 7th grade Science to 27% (16 out of 59 campuses) in grade 6 Reading (STAAR English and Spanish combined).
- HISD showed increases in eight grade/subject assessments while the state showed improvements in six grade/subject assessments using the 2016 progression standards (STAAR English only).
- The 2016 STAAR results show that White and Asian student groups continue to outperform all other student groups; while African American student group performance remains the lowest across all grade levels, subjects, and passing standards (STAAR English and Spanish combined).
- The percentage of students with disabilities (those taking STAAR, STAAR Accommodated, or STAAR Alternate 2 tests) meeting standard range from 29% in grade 6 Reading to 43% in grade 3 Mathematics.

- The percentage of English Language Learners (those taking STAAR, STAAR Spanish, or STAAR L tests) meeting standard range from 19% in grade 8 Social Studies to 70% in grade 3 Mathematics.

Administrative Response to the 2016 STAAR results for grades 3–8:

Elementary Curriculum and Development

In responses to the grades 3-5 STAAR results, Elementary Curriculum and Development will implement the following actions to support campuses and increase student achievement:

1. Elementary Curriculum and Development is organized for the 2016-2017 school year to provide high-quality, responsive, and customized support for each geographic region in order to ensure aligned, rigorous, and engaging instruction takes place on all elementary campuses. Key content leaders are in place to ensure HISD curriculum, instructional resources, formative assessments, and professional learning are aligned to district and state standards to increase student achievement.
2. Provide customized principal and teacher professional learning to support the implementation of *Literacy By 3* best practices with an emphasis on comprehension of complex text to increase reading achievement. The department will expand teacher development to implement the Writer's Workshop framework across the district.
3. Deepen efforts to identify student reading strengths and weaknesses to inform differentiated instruction using Benchmark Running Records, iStation reading assessment, and standards-based formative assessments.
4. Partner with the Multilingual department to create systems, practices, and supports for English Language Learners.
5. Collaborate with School Offices to create networks in order for principals and teachers to share best practices, look at student work, analyze formative assessment, plan and implement engaging instruction aligned and grounded in the district curriculum, and collaborate as a part of professional learning communities. Elementary Teacher Development Specialists will be deployed in geographic areas to provide:
 - Instructional coaching
 - Peer observation
 - Formative assessment collaboration
 - Data-driven instruction
 - Collaborative lesson planning
6. Partner with School Offices and the Office of School Leadership to build teacher and school leader capacity to implement district curriculum, increase teacher content knowledge and instructional practices, and ongoing systems to monitor student achievement.
7. Develop cross-functional systems and practices in partnership with the Office of Special Education and Student Support to ensure practices and just-in-time interventions take place for at-risk learners to address and close achievement gaps.
8. Continue to review assessment results and identifying elementary campuses with significant gains in reading, writing, math, and science to determine elements that contributed to success and to share and replicate best practices.

Secondary Curriculum and Development

While the Secondary Curriculum and Development team celebrates gains in 8th grade Reading scores, it is acknowledged that more work needs to be done around literacy and mathematical competencies for all learners in all grade levels. Increased calculator training for teachers will be a priority in 2016-2017, specifically targeting grade 8 TEKS. Scopes and sequences for math are being reorganized to place difficult concepts, including geometry in 8th grade, within the first semester allowing for more spiraling and acceleration throughout the year. "Literacy in the Middle" implementation, in fall 2016, will increase the focus of reading, writing, and small group instruction in all content areas so that all students will experience gains in academic achievement. Master Course development will expand to include middle grades in 2016-2017, providing all HISD teachers with student-facing courses, demonstrating best instructional practices for all learners.

Elementary and Secondary School Offices

- The increase in both reading and math scores in some grade levels at the final recommended passing standard indicate that teachers are responding to the rigor of STAAR and students are mastering at the increased levels.
- More professional development needs to be done in both reading and math to assist teachers with teaching to mastery. Teachers need to have the tools necessary to scaffold student learning when students struggle with new concepts.
- In August, campuses began to implement individualized learning plans to address skill deficits early in the year and to accelerate learning rather than remediate failure.
- Monitoring and improving quality ESL programming will continue in 2016-2017. With the exception of Mark White Elementary, which will be French Immersion, no other dual language programs will be added in 2016-2017. There will be a focus on ensuring that all dual programs are being executed with fidelity.
- School offices are dissecting the data to identify campuses that excel with closing the achievement gap for various demographic groups. Best practices at these campuses will be noted and shared.
- In math, African American and Hispanic students in some grade levels showed progress towards closing the achievement gap.
- There were still significant gaps in the proportion of students who met standard across racial/ethnic groups. Therefore continued professional development is needed for campus leaders and teachers to ensure Hispanic and African American student needs are met as compared to their White counterparts.
- The School Office and the Curriculum department will continue to work with campus leaders and teachers to effectively unpack and implement the new Math TEKS at both the elementary and secondary levels.
- More professional development is needed in the area of differentiation.
 - In reading, teachers need to improve their abilities to choose texts that align so that all students will be able to exhibit concept mastery with a "just right book".
 - There is an increase of informational text being utilized in the classroom.
 - In math, teachers need to continue teaching the lesson at the appropriate level of rigor and support new learning for those that are struggling, while deepening learning for those that have already demonstrated mastery.

- The School Office and the Curriculum department will continue to build on work of Literacy by 3 in the Elementary to Literacy in the Middle School for 2016-2017 and moving forward. Literacy in the Middle will:
 - Address the key components of reading, writing, speaking, listening and thinking critically in all core areas.
 - Provide authentic opportunities for all students to write in all core areas.
 - Expand the quantity and quality of student time with authentic texts.
 - Model best strategies around four key components: read alouds, independent reading, small group instruction and writing instruction.
 - And assure that students build and maintain their literacy skills while increasing their content knowledge.

Office Special Education Services

The Office of Special Education Services will continue its commitment to improve outcomes for students with disabilities by:

- Providing guidance to relevant staff on increasing the participation of students with disabilities in the standard curriculum.
- Increasing the number of students who access grade level curriculum through the use of Universal Design for Learning strategies and student specific accommodations.
- Utilizing Goalbook to create Individualized Education Program goals that are aligned with grade level curriculum (TEKS).
- Creating a Full Individual Evaluation summary page to inform teachers of student's cognitive strengths and instructional strategies to support those strengths.
- Implementing restorative discipline practices for students with and without disabilities to increase student engagement and participation in academic opportunities.

Should you have further questions, please contact my office or Carla Stevens in the Department of Research and Accountability at (713) 556-6700.

District and School State of Texas Assessments of Academic Readiness (STAAR) Grades 3–8, Spring 2016

Introduction

In spring 2016, approximately 92,000 HISD students in grades 3 through 8 took the State of Texas Assessments of Academic Readiness, or STAAR, assessments in reading, mathematics, writing, science and social studies. STAAR is the state testing program that was implemented in the 2011–2012 school year. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed the STAAR program in response to requirements set forth by the 80th and 81st Texas legislatures. STAAR is an assessment program designed to measure the extent to which students have learned and are able to apply the knowledge and skills defined in the state-mandated curriculum standards, the Texas Essential Knowledge and Skills (TEKS).

At grades 3–8, all students are tested in mathematics and reading. Students are also tested in writing at grades 4 and 7, science at grades 5 and 8, and social studies at grade 8.

STAAR Exam Versions

In 2016, there are four versions of STAAR exams offered to students in grades 3–8:

- **STAAR** is available to all students in grades 3–8 who do not qualify for one of the other STAAR assessments. A Spanish version is available for grades 3–5; and students with disabilities (SWD) may take the STAAR with accommodations at the discretion of the Admission, Review, and Dismissal (ARD) Committees.
- **STAAR L** is an online, linguistically accommodated English version of the STAAR assessments (grades 3–8) in mathematics, science and social studies. STAAR L is provided for English Language Learners (ELLs) who meet participation requirements for a substantial degree of linguistic accommodation in these subject areas.
- **STAAR Accommodated (STAAR A)** is the online assessment version of STAAR for students in grades 3–8 with disabilities that meet the STAAR A eligibility requirements. STAAR A provides embedded supports designed to help students with disabilities access the content being assessed. These embedded supports include visual aids, graphic organizers, and text-to-speech functionality.
- **STAAR Alternate 2 (STAAR Alt. 2)** STAAR Alt 2 is an assessment for students in grades 3–8 with significant cognitive disabilities receiving special education services.

STAAR Testing Incidents

The spring 2016 transition to the state's new testing vendor, Educational Testing Service (ETS) has been filled with publicized missteps and mistakes. The fifty Region 4 superintendents, as well as the Texas Association of School Administrators (TASA), recently submitted separate letters to Commissioner Morath detailing unacceptable "testing incidents in an effort to provide a detailed picture of the serious flaws in the current testing system." TASA summarized their findings into five categories: data validity and security, online testing incidents, communication, the shipping of testing materials, and other issues.

STAAR Standards

By commissioner's rule, the Level II Phase-in 1 Satisfactory standard was increased to the Level II Satisfactory 2016 progression standard and will continue to increase each year until 2021–2022 (see below). This means that students taking the STAAR grades 3–8 assessments will have to answer more items correctly to “pass” the exams than in the previous year. Any comparisons to prior performance should be made with caution.

Level II: Satisfactory 2015 Phase-in 1 Raw Scores compared to 2016 Progression Raw Scores												
STAAR English Level II: Satisfactory	3 rd grade		4 th grade		5 th grade (1 st admin only)		6 th grade		7 th grade		8 th grade (1 st admin only)	
Spring Admin.	2015	2016	2015	2016	2015	2016	2015	2016	2015	2016	2015	2016
Reading	20/40	21/40	23/44	24/44	25/46	26/46	26/48	27/48	27/50	29/50	28/52	28/52

Note: The writing assessments were redesigned to eliminate one of the essays

STAAR Administrations

The STAAR assessment calendar is shown below and it displays the various districtwide tests administered during the spring of 2016 for students enrolled in grades 3–8. All STAAR tests have a four-hour time limit; however, students who meet eligibility criteria may have accommodations for extra time or an extra day.

2015-2016 STAAR ASSESSMENT CALENDAR Grades 3-8, Spring 2016		
Test Date(s)	STAAR Subject	Grade Levels
March 29, 2016	Writing Mathematics	Grades 4 and 7 Grades 5 and 8

Performance Results for the State, District and Campuses

- The results shown in **Tables 1–3** are for STAAR English only and provide a comparison to 2015 using both the new 2016 standard.
- **Table 4** presents a five-year gap analyses between student groups.
- A detailed look at the number of special education students by test version is presented in **Table 5**.
- **Figures 1–20** provide comparisons by grade, subject, race/ethnicity, student group (students with disabilities, English language learners, gifted and talented, economically disadvantaged), and test version (STAAR English, Spanish, L, Accommodated, and Alternate 2).
- The results in the key findings and tables are comparing the 2015 Level II: Satisfactory Phase-in 1 standard results with the 2016 Level II: Progression Standard results.

- **Appendices A-G** provide campus listings of results with multiple comparisons based on test versions and student groups.
- Back pages of the report provide two years of available data by campus.

Key Findings for STAAR English:

- HISD showed increases in eight grade/subject assessments while the state showed improvements in six grade/subject assessments using the 2016 progression standards.
- Across all grades tested, outside of mathematics, where the state and the district both had no change from 2015 to 2016, the district's one year change outperformed the state for STAAR (English Only) first administration results.
- The 2016 district STAAR first administration reading results remained the same when compared to 2015 (66%). However, Grades 3, 5, and 6 reading results have declined for the same period of time (three, five, and two percentage points, respectively). Grades 4 and 8 reading results increased for the same period of time (seven and five percentage points, respectively).
- The 2016 district STAAR first administration mathematics results remained the same when compared to 2015 (69%). However, Grades 3, 5, and 8 mathematics results have declined for the same period of time (two, one, and one percentage points, respectively). Grades 4, 6, and 7 mathematics results increased for the same period of time (one, two, and one percentage points, respectively).
- There was no change in district writing performance between 2015 and 2016 (63%). There was also no change for grade 4 writing (62%) or grade 7 writing (63%) over the same time period.
- There was a six percentage-point increase in district science performance (63% to 69%). Grade 5 had a four percentage-point increase (64% to 68%) and Grade 8 had an eight percentage-point increase (61% to 69%).
- There was a two percentage-point increase in grade 8 social studies performance (55% to 57%).

^STAAR results only; does not include Accommodated, L, M, Alternate, or Alternate 2 results

2016 testers were held to a higher passing standard than 2012 testers, and new mathematics TEKS were introduced in 2015. All comparisons in the above table should be interpreted with caution.
