

Hi,

It's me, your elected SDMC representative.

03/19/24

Things that may interest people more:

-April 1st thru 19th ---possible evaluation walk-thru time again from the district. Groups of 2 for the IRT this time.

-District provided our projected enrollment to us (we usually do our own) and projected for 717 students next year; we are projecting around 850 (like normal). Mr. Moss is inquiring about this discrepancy and what it means. There is a VAST difference in funding between 850 vs. 717.

-Spending is cut off after April 19th...so, right now that would mean no end of year food, purchasing, and well, anything else we might need after that? Mr. Moss asked and is awaiting a reply. It's legit pro-cards being turned off and not being able to do P.O.'s

-Over the summer, Mr. Moss would like to establish a committee off students, staff, and parents to address dress code policies (I think we had a few teachers working on this, if we did, reach out to me and I'll ask about the disconnect).

-Entirely unrelated to SDMC, but let's all be sure to congratulate Tiffany on her engagement over the break!!!

Prior to meeting, topic was called for, I asked for the field trip to be on the agenda, to discuss the timing and lack of teacher input. It was then conveniently moved before we could talk about it. I also inquired if there were any updates about the possible mural from earlier in the year.

SDMC Longer Meeting Minutes:

In attendance: Me and some other people, at least Moss, Lamia, and Tiffany Williams from what I remember, along with a few parents. (Virtual)

Moss was told there would be budget meetings in March...he's still waiting. Update, last night I saw this article, after sending it to Moss he indicated he was still waiting to hear about the budget: <https://houstonlanding.org/dozens-of-houston-isd-schools-will-be-required-to-make-12-budget-cuts-next-year/> and I think that he went to that meeting today.

Who knows about summer school, Moss has asked if we'll have it, how it will work, where the budget comes from, etc. There's zero information.

Moss seemed sad to me and others as he re-told the meeting he had before Spring Break and the sadness it brought. Moss also seemed sad about the threat we got. Moss never saw the threat himself (the e-mail that was shared in teacher group) so I sent it to him. They just pulled it and didn't tell him

anything about it really. One of our officers today was officer Mapp, the cousin of our old officer, Officer Mapp. 😊

A few other schools in the district also got the magnet certification, but Lamia did it for us. There's a banquet Lamia got permission to go to, to get the certification, so hooray! She also talked about the climate survey thing and trying to see if they can do grants or something for it.
