

Isaacs SDMC Meeting -Minutes

11/ 13/19

Members Present- Daniel Bennett, Trina Sweat, Tiffany Haynes, LaJuana Jean

Ms. Jean opened the meeting welcoming Ms. Bennett, our Wraparound Specialist to the group.

Our current vacancies are in fourth grade math and science and second grade self-contains. We will continue to have food donations for students. We will continue to have the monthly food truck donations. We will also continue backpack buddies. In addition, Ms. Bennett mentioned we are receiving donations from a local church to receive 100 turkeys. However, the parents will have to pick them up at the church. Ms. Jean is concerned that some of our parents that don't have cars will not be able to get their turkeys. Ms. Bennett will check on deliveries.

We will continue to attempt to raise our attendance with "party with the principal" once a month for the students with perfect attendance for the month. We will continue to showcase and recognize our students of the month and encourage positive behavior and we will continue to implement the "honors walks" at the end of every grading period and will be implementing an "Imagine Learning challenge" with incentives for different milestones.

PTO will be sending out a balance sheet for each grade level letting them know how much they made from the Fall festival and will have to spend for field trips and class parties.

Fire drills have been going well. We have implemented a lock down drill and intruder drill for this semester. The only safety concerns mentioned was the second gate leading to the sidewalk at the end of the intermediate hallway. It sometimes does not close all the way. Ms. Jean mentioned that a work order was put in by Ms. Chavez and she will follow up with Mr. Pierre, the new plant operator.
