HOMEWORK GUIDELINES

Homework assignments are necessary to provide enough time for students to master subject matter and complete long-term projects.

Homework should be purposeful, adjusted to the level of the individual child, and related to specific objectives. Assignments should provide practice on skills already taught or prepare students to begin a new topic or part of a course.

1. If the homework is to have value, its purpose and relation to what has been learned in the classroom must be clearly understood by the student.

2. Sufficient explanation must be given so that students know WHAT they are to do, understand HOW to do it, realize WHY they are doing it, and are MOTIVATED to complete the assignment.

3. The homework assignment must pertain to previously taught skills.

4. The homework assignment must extend the student’s knowledge of TEKS.

5. Homework assignments must be adapted to individual needs.

6. Homework assignments must be reasonable in view of the student’s home resources.

7. Homework assignments must be properly evaluated and feedback must be provided to the student. Homework is NOT to be recorded as a grade in the grade book.

8. Documentation of homework assignment must be referenced in the lesson plan.

9. Homework should be an integral part of the classroom activities; it should never be busy work nor construed to be punishment.

10. Homework assignments should be avoided immediately before holidays or major special events.

11. Recommended homework time for Pre-K, K-2 is 30 minutes per night and 60 minutes per night for grades 3-5.

In summary, if homework is carefully examined and constructed as a meaningful part of learning, it can be another step in the direction of bringing the school, the student, and the community closer together in a common interest for quality education.
