

Isaacs Elementary School
SDMC Minutes
February 20, 2019

Present members: Jean, Trejo, McGuire, Gilford, Del Pino, Eaton

Suggestions for Next Year Professional Development

Eaton suggested we have literacy by 3 training, lesson planning for read aloud and workstations and first 25 days and Make and Take science.

Vonture Math training is good. Ms. Jean is working on site-based training for Vonture. Our Math TDS is also our Science training support. SEL training for behavior will continue.

Need more training for On Track during first two weeks of teacher training.

Technology Purchases

We purchased 47 chrome books for students. Next meeting, we can discuss how we can use them. We want to purchase 24 I PADS for \$9,000 or 10 teacher computers for next year use. School needs an accountability system so that teachers are responsible for the technology. Teachers need to learn how to use Smart Boards. Mr. McGuire volunteered to presenting a training to the staff if needed.

19-20 M-TADS Update

State wants to change T- TESS to a modified model of TADS called M-TADS for teachers identified as effective or highly effective based on certain qualifications.

Suggestion was to keep 4/12 as end of appraisal/ rating period.

Teachers must enter goals and student results. Teacher Goals IPDP should be determined/reviewed by appraisers

Conferences for non-teacher appraisals should not be required for those hired after February.

Safety Concerns

Teachers need to review fire drill expectations with students. Too much talking. Students need to line up quietly and not talk when exiting or entering the building.

We will be expecting an intruder alert.

We will be having a lock down soon.
