Minutes:

Mr. Casquete initiated the meeting by greeting the SDMC members and thanking them for attending the meeting today. He, then, asked for members to share any celebration at the personal or professional level. Mr. Casquete explained to the members that during today's session we will focus on the principal's and assistant principals' evaluation system, LEAD. Mr. Casquete explained that it was important for all members to pay close attention to the forthcoming information as they will be asked to provide some feedback about the leader's appraisal system. Mr. Casquete reminded the members that Superintendent Miles will be conducting two informal question and answer sessions about the LEAD system for any member on Tuesday, September 26th at 5:30 p.m. and on Thursday, September 28th at 5:30 p.m. Mr. Casquete explained that he would share the power point for future reference. The SDMC committee started to watch the Video about the LEAD system.

After watching the video, Mrs. Casquete asked the committee members to provide their feedback and impression about the system. They concluded that the system would hold, not only the administration accountable, but also all campus personnel. The system will help us work together, as a unit, if we want to be successful. It is a hard work every day but at the end we expect better outcomes.

Mr. Casquete encouraged all members to attend the SDMC sessions that Superintendent Miles would hold within the following two days. Mr. Casquete also mentioned that there would be a survey coming up soon for members to provide feedback on LEAD.

Mr. Casquete concluded the meeting by praising new members of the SDMC, faculty and staff for their perseverance and dedication to help our students, teachers, administrators, and paraprofessional make a successful transition to the NES-A Model. He mentioned that other members of the committee will be provided minutes and information. Meeting was adjourned at 5:30pm.
