Campus Safety

Campus safety report was submitted on behalf of Officer Solis. There have been incidents with 9th graders harassing 6th graders in the restroom (most likely the next to the cafeteria). Solution: Officer Solis and teachers will monitor the restrooms in-between classes and have random hall sweeps.

New MLPCA Facility

Dr. Crook presented at Project Advisory Team Report regarding the construction management of the new MLCPA. Currently, the new school is at 55% percent completion. We are approximately 8 months off schedule expected move date mid-March. HISD bond office will need members of the MLCPA to help pick furniture for the new facility.

Academic Program

We are currently \$120,000.00 in the negative. Dr. Crook has had a meeting concerning budgeting with the CFO Ken Huewitt. We will need at least 150 brand new students next year to cover the deficit. More information to come in November about the budget shortfall. There is a possibility we will lose to two teachers as a result of the shortfall. Mr. Poiter would like to continue to try get sports on our campus in order to pick up our enrollment numbers. Dr. Crook wants to use alternatives such as sports clubs to attract new students.
