SDMC Meeting August 17, 2022

SDMC Agenda:
SIP Goals
ESSER Funds
Master Schedule

SDMC Meeting Minutes:

Meeting called to order at 4:00 pm

1. SIP Goals: Dr. Crook Presented the 2022-23 SIP goals and strategies for instruction. By vote, 10% increase in scores was accepted as a reasonable margin for improvement.

2. ESSER Funds – Have been loaded to campus budgets to support learning. MLPCA received funds in August and the admin team in developing a plan for intervention and how the funds will be used. More guidance is need from the district office what the funds can be used for and not used for.

3. Master Schedule: The campus master schedule model is based on 8 class periods and an intervention period. The intervention period allows the time for interventions that HB 4545 required. We will still need to provide these intervention periods for HB 4545 next year. Considering some adjustments on the current duration of the periods (90 minutes) and decreasing the transition time from to 4 minutes.
